EDITORIAL

DOES THIS REFER TO YOU?
Maybe some of the fathers who are most open with their criticism now that the father of Nathan Leopold failed to be a true pal, are guilty of the same offense. The father failing to take time to enjoy some of the boyish sports with his son need not be surprised if that boy some day brings disgrace upon the family name.

LAUGH

The diaphragm beats a tattoo on the stomach when you laugh. Every time you let go a good hearty laugh this diaphragm pops up and down on your liver, and helps to drive away the very thing that gives you the blues—bilio-ness.

Laughter is the best brand of pills on earth. Laughter strikes in when it comes from without, and instantly comes to the surface when it starts from within.

Laughter penetrates.
You may laugh because you are happy, and you may be happy because you laugh. It is the one thing where the cause is the effect and the effect is the cause. Any man can be a millionaire of good cheer.

MOTOR BUS INDUSTRY

There has recently sprung up throughout America a new industry. This is the modern Motor Bus. Those pioneering this great business are engaged in developing an enterprise which promises to be one of the most important and serviceable in the state—motor transportation. In a way they are pioneers; they are men of foresight, with ability to see opportunity and seize it; and they have already achieved much. Its development is not likely to come to a halt until the motor bus finds its way into every well populated and accessible section of the state.

Unquestionably this comparatively new method of travel has had a marked effect upon transportation problems, an effect which will be more and more widespread as the building of smooth roads progresses.

DON'T MAKE A MISTAKE

We understand that here and there we have people in this town who are opposing the proposed loan which the School Board will ask the voters to sanction at the coming election. We fear those people are making a grand mistake. Here's why:

If the voters endorse the loan, the money will be borrowed and the building erected and the debt paid off gradually, our school tax being but slightly increased.

If they oppose the loan and it is lost on election day, the School Board has the power to make the loan and the property owners will be obliged to meet an increase in taxes to such an extent that the entire indebtedness incurred can be paid in two years.

Voters can take their choice in the matter but we would suggest that they think twice before they vote.

IT'S UP TO YOU

You may be a big man in the business world. Your properties may represent many good, round, hard dollars. You may take an interest in politics to the extent of complaining about taxation, too much legislation, useless regulation of industry, etc., etc. You may send your boy to college and your daughter to a finishing school. You may be a "successful" American business man.

But do you take an interest in the government which protects your property? Or are you merely one of the kickers who complain about the "radicals"? Do you go to the polls and vote for men and measures you believe sound or do you instead, go out and play golf on election day and let the fellow about whom you complain do all the voting.

Don't kick unless you are willing to do your duty as a citizen at the polls.

No matter how "big" you are, your vote is worth no more than the poorest bum in town.

The "bigger" you are, the more necessary it is for you to vote, teach your children to vote and your wife to vote.

Don't leave somebody else to do your voting for you and then kick at the results.

"Your" government will be just as good as you make it, and no better.

Samuel Koser purchased the Jacob O. Myer farm that adjoins the Risser church yard in Mt. Joy township, at public sale. It consists of 78 acres with necessary farm buildings equipped to raise six acres of tobacco. The price paid was \$80 per acre. Mr. Koser expects to

take possession about April 1, 1925. Harvey Hoffman, the Rheems thrasher and shredder, has completed the 1924 thrashing season. He thrashed nearly 1500 acres, giving a total of over 25,000 bushels of wheat compared with 35,000 bushels last year, baling about 2000 tons of straw at the same time. The average per acre was from 8 to 10 bushels less than in 1923.

Farmers are delighted to see that the wheat sown thus far in 1924 was of a good quality as the fields present a beautiful green, thickly set and thrifty stalks growing to perfection. This is due to the heavy Autumn rains which gave the husbandry man an opportunity to properly prepare the soil for the certified seed and commercial fertilizer.

Funeral services for Isaac Grove, who died in his 80th year, took place Tuesday afternoon at the Brethren in Christ church, Elizabethtown with a very large attendance. He conducted a machine shop at Rheems the past 40 years.
