### The Produce and Live Stock Market

**CORRECT INFORMATION FURNISHED WEEKLY BY THE PENNA. BUREAU OF MARKETS FOR THE BULLETIN**

**MARKET:** The falling off in demand for meat and meat food products on the Eastern Markets during the past week had its effect on the local livestock market. Beef steers compared with week ago closed 10c to 15c lower, better grades showing full decline to \$10.50 average weight 1300 lbs. Bulk \$8.50 to \$9.00. Fat bulls and heifers closed about steady with week ago. Cows held steady closing prices tending slightly higher. Numerous sales choice kinds at \$7.00 Bulk \$5.00 to \$6.00. Calves show a decline of 50c to \$1.00 compared with week ago. Top weaners \$14.00.

**HOGS:** Hogs weak to 50c lower top locals \$14.25 few selects \$14.50.

**RECEIPTS:** Receipts for today's market—Cattle 10 cars from Pennsylvania, containing 252 head, 128 head driven in from nearby farms. Total cattle 380 head, 15 calves.

Receipts for week ending April 11, 1925—Cattle 29 cars—24 from Penna., 2 St. Paul, 1 New Jersey; 1 Indiana; and 1 Iowa, containing 630 head, 492 head driven and trucked in, total cattle 1,122 head, 150 calves, 111 hogs.

**Fruit and Vegetable Market**  
Fresh offerings of nearby fruits and vegetables were in moderate demand on the Philadelphia market Thursday morning. Root crops were scarce and sold slowly. Scallions met a slow demand at slightly lower prices. Pennsylvania mushrooms showed a slightly stronger tendency. Trading was fairly active on the carlot market and offerings were fairly liberal. Asparagus was weaker under liberal supplies, with much stock being of ordinary quality. Cabbage was stronger, while spinach was weaker with heavy supplies. Lettuce was moderately liberal and about steady, the Southern stock was fair to ordinary quality.

**Potato Markets Weaker**  
The potato market in the Eastern Terminals was weaker and the demand generally slow. Pennsylvania round whites ranged from \$1.75 to \$1.85 per 150 pound sack in Philadelphia, with similar stock in bulk selling at \$1.15 to \$1.35 per hundred weight. Pennsylvania stock was not quoted in the other markets. The combined shipments of new and old stock totaled 776 cars, of which number Maine furnished 237, New York 118 and Pennsylvania 20.

**PENNA. HAS SESSION OF COOPERATIVE INSTITUTE**  
Pennsylvania enjoys the distinction of having the first session of the American Institute of Cooperation, designed as a four weeks' practical course in cooperation to be held at the University of Pennsylvania, Philadelphia, July 20 to August 15, 1925. This institute is an educational enterprise recently inaugurated to clarify thought concerning the real goals of cooperative endeavor, to analyze past experiences, and to develop leaders and workers who can effectively serve the future needs of the movement. A large number of state and nationwide organizations interested in the economic problems of agriculture are participating.

**Range of Prices:**

STEERS	
Good to choice	\$ 9.35-10.50
Fair to good	\$ 8.25-9.35
Medium to fair	\$ 7.50-8.25

Dairy Feed 18 pc.	\$41.50-42.50 ton
Dairy Feed 20 pc.	\$43.50-44.50 ton
Dairy Feed 24 pc.	\$47.50-48.50 ton
Dairy Feed 25 pc.	\$49.50-50.50 ton
Horse Feed 85 pc.	\$47.50-48.50 ton

**IT HAS LASTED**  
Mount Joy People Must Believe Such Convincing Testimony as Mrs. Childs.

No one in Mount Joy who suffers backache, headaches, dizziness, rheumatic pains or distressing urinary ills can afford to ignore this twice-told story of a Mount Joy resident. It is confirmed testimony, telling of lasting benefit from Doan's Pills—a stimulant diuretic to the kidneys. It's evidence that no man or woman in Mount Joy can doubt.

Mrs. Jacob Childs, 125 Mt. Joy St., Mt. Joy, says: "I suffered from terrible pains in my back, just over my hips. Headaches and dizzy spells came on and my kidneys acted irregularly. Mornings I felt all tuckered out. Doan's Pills from Garber's Drug Store so completely removed kidney trouble, that I felt like a different woman."

**OVER FIVE YEARS LATER,** Mrs. Childs said: "The cure Doan's made for me has lasted."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Childs had. Foster-Milburn Company, Mfrs., Buffalo, N. Y.

The bonfire is a great help in gardening to help in disease control. Parasitic fungi frequently live over winter on the dead leaves and stalks of their hosts and burning these helps to prevent infection on the new crop.

You may as well try to conduct your business without capital as to try and get along without advertising. There's no use, it won't go. All the leading and most successful merchants use the columns of the Mount Joy Bulletin.

The dangerous period for apple scab infection is during wet periods any time after the leaves show until three weeks after blossoming.

The oldest known will was executed in 2548 B. C., it being that of the Egyptian Uah.

### BAKING TESTS PLANNED AT STATE INSTITUTIONS

In order that State institutions may have a more satisfactory and nutritious bread at lower cost than in the past, through the use of a blend of flour milled in Pennsylvania containing 50 per cent of wheat grown in the State and 50 per cent spring wheat, a series of baking demonstrations have been planned. A baking demonstration was recently held at the Allentown State Hospital and the results were so favorable that a request has come for the Department of Agriculture to arrange similar demonstrations at other institutions. These demonstrations will be conducted by George A. Stuart, Pennsylvania Bureau of Markets, with the assistance of W. G. Goodnow, chemist at the City Flouring Mills, Muncy, Pennsylvania, a demonstrator from the Fleischmann's Laboratory, New York City, and Walter Marshall, United States Department of Agriculture.

The plan is to bake bread from the 50-50 blend of flour and compare results with other flours containing different proportions of spring wheat. Such demonstrations will give valuable information on the blend of flour, the kind of dough and the formula which will give the most satisfactory bread at the least cost. The institutions which are arranging for the demonstrations are anxious to secure this information since bread is one of the most important items on their daily menu.

Among the institutions where it is planned to hold demonstrations are: Eastern State Penitentiary, Philadelphia; Western State Penitentiary, Pottsville; Pennsylvania Industrial Reformatory, Huntingdon; State Industrial Home for Women, Muncy; Pennsylvania Soldiers and Sailors Home, Erie; the State hospitals at Danville, Fairview, Harrisburg, Norristown, Torrance, Warren and Wernersville, and State schools at Penuhurst and Laurelton.

### PENNA. HAS SESSION OF COOPERATIVE INSTITUTE

Pennsylvania enjoys the distinction of having the first session of the American Institute of Cooperation, designed as a four weeks' practical course in cooperation to be held at the University of Pennsylvania, Philadelphia, July 20 to August 15, 1925. This institute is an educational enterprise recently inaugurated to clarify thought concerning the real goals of cooperative endeavor, to analyze past experiences, and to develop leaders and workers who can effectively serve the future needs of the movement. A large number of state and nationwide organizations interested in the economic problems of agriculture are participating.

It is expected that the Philadelphia session of the institute will attract cooperative leaders and active workers in cooperative organization and others from many different states. The instructional staff will include picked men from a wide range of cooperative organizations and from the leading educational institutions. In addition to these, several internationally known authorities on cooperation and finance will be brought to the institute. Additional information can be secured from Charles W. Holman, Secretary, American Institute of Cooperation, Washington, D. C.

### VETERINARIANS MEET AT STEVENS HOUSE

At the regular monthly meeting of the Conestoga Veterinary Club held at the Stevens House, Thursday evening, Dr. John W. Adams, Professor of Veterinary Surgery at the University of Pennsylvania, gave an interesting lecture on "Advanced Surgery and Modern Methods of Handling and Protecting the Livestock Industry from ravages of disease."

This was the sixth of a series of lectures given by the University of Pennsylvania Extension School to the Veterinarians of this district. The subject was a timely one, and the thoroughness of Dr. Adams' discourse and explanations in the after discussion was greatly appreciated by those fortunate enough to be present.

Dr. Harry W. Barnard, of this city, presided, and among those present were:

Dr. Joseph Johnson, local representative Penna. Bureau of Animal Industry.  
Dr. H. S. Weber, in charge U. S. Bureau of Animal Industry in this district.  
Dr. Harry W. Barnard, Lancaster, Pa.  
Dr. Howard B. Brady, Lancaster, Pa.

Dr. Harvey Bender, Lititz, Pa.  
Dr. Richard Bender, Lititz, Pa.  
Dr. E. L. Cornman, Marietta, Pa.  
Dr. F. N. Fernsler, Lebanon, Pa.  
Dr. C. V. Peace, Coatsville, Pa.  
Dr. E. P. Clark, Intercourse, Pa.  
Dr. B. P. Chodas, Gap, Pa.  
Dr. W. F. Oweiler, Florin, Pa.  
E. A. Seaman, Lancaster, Pa.

### Lancaster County Farm Bureau Notes

THE APPENDED NEWS IS PREPARED FOR THE MOUNT JOY BULLETIN BY THE COUNTY SEC. RETARY

The Tobacco Co-Op Arrangements are moving steadily forward for the submission of tobacco marketing plans to the committee of six bankers and business men of Lancaster who will name the committee of 25 for the Organization Committee. Farm Bureau officials are arranging data and information and when the committee of 25 is appointed, they will be supplied with the names of every tobacco grower in Lancaster and adjoining counties, with the acreage of each.

The Agricultural Committee of the Chamber of Commerce is giving material assistance in rounding up the proposition for the consideration of the Organization Committee. It is expected that the first move made by the organization committee will concern, primarily, financing and legal advice. The organization of the campaign will be carefully outlined and literature covering the whole problem will be made available to growers.

**Watch Your Seed Corn**  
County Agent F. S. Bucher sends warning to all farmers to carefully test their seed corn. He says that on his trips around the county he encounters many farmers who are misled by the appearance of their corn, and unless a test is made, many are liable to put corn in the ground that will not germinate. Mr. Bucher says that much of the corn that looks all right has been frozen, and it takes more than casual inspection to determine whether it will germinate or not.

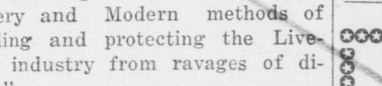

**T. B. Tests**  
A good many individual dairymen have either made application or will contemplate making application for T. B. tests. County Agent Bucher calls attention to the fact that there will only be a limited amount of money available to test individual herds. There will be very little accomplished in Lancaster County unless there is sentiment enough in certain localities to put over area tests in townships. The Farm Bureau will shortly call a mass meeting of all herd owners in the county in an endeavor to consolidate sentiment looking to the inauguration of area tests in the county. The situation is considered serious because other counties in the state are rapidly signing up for area test work and it looks as if Lancaster County will lose some of the money that should be coming to it for this work if some co-operative effort is not forthcoming.

**Appointed State Manager**  
President J. C. Brubaker, of the local Farm Bureau, as well as State Farm Bureau Federation, was appointed managing director of the State organization at a meeting of the executive committee held in Lancaster, Friday, April 3rd. This will enable Mr. Brubaker to give his entire time to farm bureau matters. The extent of the movement in Pennsylvania has assumed such proportions that a managing head was essential for the proper development of the work.

The headquarters of the Penna. Farm Bureau Federation will hereafter be in Lancaster and all organizational efforts will be directed from it.

### KEEP THE MUD OUT

Little fact—and big ones, too—have a habit of forgetting the doormat. The housewife appreciates the trimness and handiness of concrete sidewalks and also clothes poles connected by concrete paths. These and stationary tubs of concrete are a big help on washday. The little jobs that mean so much in convenience are small in cost, for through the development of the rotary kiln, Atlas Portland Cement is actually cheaper today than it was thirty years ago.
