

BUY A STUDEBAKER

Same Fine Studebaker Coach —but at a new low One-Profit price

BECAUSE all Studebaker cars are manufactured on the one-profit basis, we have been able to reduce the price of the Standard Six Coach without sacrificing any of the equipment or quality which made it a big seller at a higher price.

Scientific design, better materials, and finer workmanship distinguish it. And the following self-evident superiorities make it more up-to-date than the newest "yearly models":

Excess Power—According to the rating of the National Automobile Chamber of Commerce this is the most powerful car of its size and weight.

Abundant Room—Room to stretch your legs—room to enter or leave without disturbing occupant of folding seat.

Sturdy Body Construction—Fine northern ash and hard maple are used. We pay a premium to get the best quality steel.

Full-size Balloon Tires—for which the steering gear, fenders and even the body lines are specially designed.

Automatic Spark Control—eliminating the usual spark lever on steering wheel.

Safety Lighting Control—on the steering wheel.

Instruments—including 8-day clock, gas-line gauge, speedometer, oil-pressure gauge and ammeter, in single grouping under glass, on beautiful silver-faced dial.

Improved One-piece Windshield—automatic windshield cleaner, weather-proof visor, rear-view mirror, cowl lights and cowl ventilator.

Coincidental Lock—to ignition and steering wheel, which serves to reduce the theft insurance rate on Studebaker cars.

New-type Cowl Ventilator—foot operated.

There are only two cars manufactured on the one-profit basis—the Studebaker in the fine-car field, and the Ford in the low-price field. Only in these two cases does one company in its own plants and with its own centralized organization make all bodies, all engines, all clutches, steering gears, differentials, springs, gear sets, gray iron castings, and drop forgings.

Studebaker has no "yearly models," but instead keeps its cars constantly up to date. Therefore this Standard Six Coach is ahead of the newest "yearly model," yet owners are protected from the artificial depreciation which has cost millions of dollars from the resale value of many makes during the past 30 days.

FALMOUTH FOLK SUFFER SHOCK AFTER BLAZE

Mrs. Abram Geyer, who is 84 years old, and resides on the home-stead farm at Geyer church, and her sister, Miss Fanny Rife, who is visiting the Geyers, are suffering from shock, due to the excitement caused by the barn conflagration of Saturday evening. Jacob Geyer, present tenant, is suffering from shock and a partly paralyzed left arm. The loss is estimated to reach \$12,000, partly covered by insurance.

The barn, together with the new hay, from 34 acres, and wheat from 17 acres, and about eight tons of old hay, with all the farming implements and wagons were destroyed in the fire. The hay crop was one of the largest taken off the farm for many years. The barn was erected in 1906, with heavy oak lumber, sawed from trees in the former campmeeting grove.

Clay tablets excavated at Ur and dating back to 2200 B. C. show that temple officials when traveling held letters of credit which enabled them to obtain food in the cities through which they traveled.

This church welcomes you into her midst.
Come and worship with us.

CANADIAN AND MEXICAN ENTOMOLOGISTS AID U. S.
Insect pests know no international boundary lines. A very necessary feature of successful control work against insects is cooperation between entomologists of Canada and Mexico and those of the United States. During the crop-producing months it is particularly important to be able to forecast conditions, especially in those States bordering on the other two countries, and timely information as to outbreaks of troublesome pests elsewhere frequently enables American farmers to protect themselves, and vice versa.

The Canadian entomologist department sends a regular monthly report to the Bureau of Entomology of the United States Department of Agriculture, and direct information whenever necessary. Bark beetles in British Columbia, grasshoppers in Manitoba, and the European corn borer in the Province of Ontario are some of the Canadian pests which we are guarding against along our northern boundary. The black army cutworm, which is giving trouble in many States here, was reported recently from a limited area of Ottawa, and a report of a heavy deposition of eggs of the pear psylla in Ontario corresponds to a similar report of the abundance of this pest in fruit orchards in New York.

In the Sinaloa region of Mexico the corn earworm or bollworm is reported as having destroyed a very appreciable number of canner peas, the first known record of this pest attacking peas. It has also attacked tomatoes very heavily in the Fuerte Valley district. These reports from Mexico furnish a basis for precautionary measures on the part of growers in this country.

Fresh milk may be shipped by airplane from coast to coast in America and still retain its freshness, according to a recent test wherein milk was sealed in a vacuum bottle at a temperature of 45 degrees Fahrenheit, and shipped to New York City, from the Pacific coast, arriving in good condition the next day.

Spohr in 1820 was the first to use a baton as a conducting stick in England at a philharmonic concert before which time the violinist usually marked time with his bow or foot.

It is estimated that the crow causes an annual damage of \$3.65—a cent a day per crow.

Family Reunions By Various Clans

(Continued from page one.)
N. Wiltner, Millersville, and Grace E. Wiltner, Mechanicsburg, assistant historians.

The Mumma Reunion
A reunion of the Mumma clan will be held Thursday, August 20 at Reservoir Park. All members connected with the Mumma clan are asked to attend. If you do not receive a special card, let this be your invitation. An interesting program will be prepared.

Hertzler Reunion Aug. 21
Plans are being made for several hundred persons to attend the second annual reunion of the Hertzler family at Long Park, on Friday, Aug. 21, for which an interesting program of entertainment has been prepared. The officers who were elected last year at the time of the organization and first reunion, are: President, C. H. Hertzler, Lancaster; secretary, Ezra Zercher, Mt. Joy; treasurer, Miss Stella Good, of Milton Grove.

The Hertzler family has sprung from three brothers who immigrated to this country from Switzerland, one settling near Conestoga Center, one in Dauphin county, and the third in Ohio. Many of the descendants by marriage have now assumed other familiar Lancaster county names, as Mellinger, Breneman, Kauffman, Miller, Charles, Burkholder, Herr, Hershey, Eby, Hess and Haverstick.

As near as we can get at it, European nations welcome the widest and freest discussion of their American debts so far as the discussion does not extend to the subject of paying the debts.

Major Hingston, medical officer of the 1924 expedition to Mount Everest, was able to hold his breath for 64 seconds at sea level, but could only hold it 14 seconds at an altitude of 21,000 feet.

"Tourists undertaking to climb the higher mountain peaks are respectfully requested to settle their accounts in advance." So reads a placard in a local hotel in Partenkirchen, Bavaria.

It is not uncommon for the Italian laborer or farm peasant to make a hearty meal of bread and wine, though he often cuts a gash in a loaf to fill it with boiled greens or beans.

The word heaven is derived from a fern meaning garden.

Keep baby cool, contented and happy.

Puretest Zinc Stereate
A smooth waterproof powder which is unsurpassed for infant's use. Made of finest materials.

Puretest Boric Acid
A safe, mild antiseptic which may be freely used as a healing dusting powder and eye solution.
25c Per Can

E. W. GARBNER
MOUNT JOY, PENNA.
