The Florin Cemetery Association will hold a meeting in the town hall on Tuesday evening, Sept. 8th at 7:45 P. M.
Bishop Wm. M. Bell, of Harrisburg, spoke in the United Brethren church on Sunday afternoon.
A quartette of Harrisburg gave several selections.
The lot holders of the Camp Hill Cemetery Association will hold a meeting in the Florin Hall next Tuesday evening at 7:30. All are requested to be present, hear the reports read and elect officers for the ensuing year.

BIG MONTH IN TB ERADICATION WORK

The nation-wide effort to suppress bovine tuberculosis resulted in the detection of 25,163 reactors during April, according to a report just issued by the Bureau of Animal Industry, United States Department of Agriculture. To obtain this number of diseased cattle, the Federal and State veterinary inspectors tested 815,386 cattle. At the end of the month 10,794,910 cattle throughout the country were under supervision for the eradication of the disease. The report shows also the extent of activity in the various States. Iowa is the only State having more than a million cattle under supervision in combating tuberculosis. The group of States having from 500,000 to 1,000,000 cattle under such supervision includes Illinois, Michigan, Missouri, New York, and Wisconsin. States having from 250,000 to 500,000 cattle under supervision are Indiana, Minnesota, Kentucky, Montana, North Carolina, North Dakota, Nebraska, Ohio, Oregon, Pennsylvania, and Washington. From 100,000 to 250,000 are under supervision in the following States: California, Georgia, Idaho, Kansas, Maine, and Vermont. The figures represent the status of the work in the various States on May 1. Other States, many of which have a limited number of cattle, are similarly active though it is not so apparent from the statistical reports. Extensive testing and the constant removal and slaughter of reactors are gradually freeing the country from the menace of bovine tuberculosis, which in the past has caused heavy ravages among herds and has been a source of danger to people. Fifty-nine counties in 14 States are now officially recognized as practically free from tuberculous cattle, and several hundred additional counties are rapidly qualifying for the accredited county list.

"GIRLS"

Foster Tea Frye
Yes Girls are also Large and Small, While some are Oh So Nice!
But then there's some who are indeed, About as Cold as "Ice."
Now here's a Girl that surely knows "A-rith-me-tic" so Fine; That she can Count way up to TEN, If started off at "NINE."
Another Girl is Liza Jane, With such un-didly Hair; That if her Cooties all were dimes, She'd be a Millionaire.
I saw Her stand up-on a Tack, And Painless there She stood; For 'ho Her Left Leg's Genuine, Her Right is made of Wood.

Another Girl that once I knew, Ran right Before a Train; They found her Glasses up at Mars, Her Falseth down in Spain.

And some are Very "Hungry" Too, For there was Cora Nash; Who just on Sunday, tried so hard, To Chew off my Mou-stache.

But Girls now Don't Misunderstand For we Ap-pr-e-ci-ate. Your Worth indeed, tho we can't Half Your Value Esti-mate.

You may as well try to conduct your business without capital as to try and get along without advertising. There's no use, it won't go. All the leading and most successful merchants use the columns of the Mount Joy Bulletin.

Mr. Guthrie, a British subject, was the first to describe mustard gas in the year 1860.

SILVER SPRING

The farmers in this vicinity are busy cutting tobacco.
Mr. and Mrs. Albert Herman spent Sunday with Mr. and Mrs. John Gibble.
Mrs. Freed Ford and sister, Mary, of Tyrone, is spending a few weeks with her sister.
Mr. and Mrs. Samuel Little and Mr. and Mrs. Abraham Hershey spent Sunday at Harrisburg.
Mr. and Mrs. Clayton Diefenderfer and two sons spent Sunday with Aaron Diefenderfer and family.
Mr. John Horn, of York county, and Mr. and Mrs. John Helm spent Sunday with Mrs. Frank Moore.
Mr. and Mrs. Michael Musser and children, Edith and Norman, spent Sunday near Lititz, visiting friends.
Mr. Salem Hershey, of Philadelphia, is spending a few weeks with his parents, Mr. and Mrs. A. L. Hershey.
Mr. and Mrs. Monroe Waser and son, Monroe Jr., and Mr. and Mrs. Allen Ginder spent Thursday at Baltimore.
Mr. George Fisher met with an accident while helping his neighbor, Mr. Aaron Shirely, to thresh, when he fell off the overden and broke his arm.

Mr. and Mrs. John Stively and Mr. and Mrs. John S. Gibble and children, Mildred, Junior and Ray, spent Sunday with Samuel Gibble and family.
Miss Roanna Stively, Miss Anna Hubely, Miss Mary Frey and Messrs. Nelson Stively and Charles Mumma started Columbia High School on Tuesday morning.

COW-TESTING ASSOCIATION RECORDS MEASURE BULL ASSOCIATION WORK

There seems to be no end to the records available to prove the value of a good dairy bull in increasing the production of a red. The records that have been accruing for a number of years in the cow-testing associations, when analyzed, show some remarkable and conclusive information pertaining to many angles of dairy production. Where a bull association has been maintained in connection with a cow-testing association the records of the cows are a means of measuring the true value of the bulls in the association.

In the vicinity of Grove City, Pa., there are two bull associations and one cow-testing association. The Bureau of Dairying of the United States Department of Agriculture now has the yearly records of 18 daughters of these bull-association bulls, and the yearly record of the dam of each daughter.

When all records were figured to maturity it was found that on an average the dams produced 8,785 pounds of milk a year and the daughters 9,212 pounds. The dams averaged 355 pounds of butter-fat a year and the daughters 394 pounds. Thus the daughters produced about 5 per cent more milk and about 11 per cent more butter-fat than their dams. That percentage of gain may seem small until it is realized that the daughters were matched against very good producing dams. The figures further showed that the daughters were by six bulls and that in no case did the daughters bring discredit to their sire.

What would have happened, says the bureau, if the 18 daughters had been sired by scrub bulls or by inferior purebred bulls, is not hard to guess. The fact learned from cow-testing associating figures that the daughters of these bulls surpass their high-producing dams by 5 to 11 per cent proves conclusively that the bull association is a great success.

FERTILIZER BRANDS MUST BE REGISTERED

Recent inspections by the State Department of Agriculture indicate that a number of fertilizer firms and dealers are violating the Pennsylvania law which requires that all brands of fertilizer offered for sale must be registered. Legal action has been taken in a large number of cases where the law had been violated because of failure to register.

It was found that a few cooperative associations were selling non-registered brands. The law is explicit in requiring all brands of fertilizer to be registered whether sold by a cooperative association or a private dealer, states James W. Kellogg, chief chemist. He advises cooperatives, and other dealers to be sure that all brands of fertilizer be properly registered before making contracts with manufacturers.

The Bureau of Foods and Chemistry at Harrisburg is ready and willing at all times to assist fertilizer dealers and cooperative associations in ascertaining the exact character of fertilizer being sold, and otherwise assist in safeguarding consumers. It is suggested that when contracts are entered into, a stipulation be included to the effect that manufacturers of such brands always register the same in line with the law. If there is any doubt about the registration, the Bureau will gladly furnish any dealer the desired information.

Confiscated Lot High Power Beer

(From Page One)
A search of the truck revealed the beer, which, tested yesterday, proved to be four per cent stuff, police say. Ruff was placed under arrest by state troopers from the Harrisburg barracks.
He was compelled to spend the night and yesterday in jail as it was not until late last night that friends in Reading learned where he was "stopping". They hastened to Harrisburg to give bail.
A detachment of troopers halted another truck on the Harrisburg pike near Mount Joy Sunday night and were rewarded by finding in it 16 barrels and several cases of alleged high-powered beer.
Felly was placed under arrest and after a preliminary hearing, was committed to the Dauphin County jail to await a hearing before the commissioner at Reading or, perhaps, Lebanon.

PENN STATE TO BEGIN ANNUAL FOOTBALL WORK

Penn State football warriors have been asked to report to Coach Hugo Bezdek next week, the opening practice of the season being called for the morning of September first. Nearly fifty boys are expected to respond to the call for early grid work. The first game will be with Lebanon Valley College on September 26.
A feature game for central Pennsylvania will be the Penn State Notre Dame contest scheduled for November 7. Alumni Homecoming Day at the college. The greatest crowd in Penn State history is expected to witness this clash with the famous "Horsemen of Notre Dame." The other home games will be with Franklin and Marshall on October 3; Marietta on October 17, and Michigan State on October 24.
