PERMITS REQUIRED FOR ALL MILK PLANTS

The new Milk Testing Law, which became effective August 4, 1925, requires all milk plants, creameries and persons purchasing milk and cream, regardless of the method of settlement, to hold a permit issued by the Department of Agriculture, Bureau of Foods and Chemistry. The charge is \$5.00 for each plant and the permit is used only for each calendar year and expires December 31st. Special Agents of the Department are now canvassing the State to locate those plants which have not yet obtained such a permit and those who cannot show that they have complied with the Law in obtaining the proper permit will be held responsible and are liable for prosecution. This Law is a protection to the producers of milk as it provides not only that responsible parties shall be licensed to purchase their milk and cream but that an experienced and licensed tester be employed to test their product in order that the tests may be accurate and the basis of payment based on such results, thus avoiding losses to the producers. Farmers who are supplying milk and cream to shipping stations, creameries and milk plants should make sure that the plants not only hold the required permits to purchase their supplies but that they also employ licensed testers, who are required to have their licenses prominently displayed in the place where the milk testing is to be done. The Law also requires that each producer be given a statement of what his milk tests in butter fat so that when he is paid for the same he will know exactly how much to expect. Producers should, therefore, cooperate and notify the Department where any laxity is noticed in complying with the requirements of the Law on the part of purchasers. A number of complaints have already been received and are being investigated where certain plants have failed to obtain the necessary permits.

Why Pay Rent? Who wants an 11 1/2 acre farm with good buildings along a good highway, only 3 miles from Mt. Joy lots of fruit, good water and pleasant place to live. Price is only \$3,500. Come around and let me show you this property. J. E. Schroll, Mt. Joy.

NEW LAW REGULATES SALE OF "SOFT" DRINKS

The Carbonated Beverages and Still Drink Law, enacted at the recent session of the Legislature, will become effective July 13, 1925. It requires all persons or firms manufacturing or bottling carbonated beverages, still drinks, fruit juices and mineral waters, "when ready for use as a beverage," to be registered with the bureau of foods and chemistry, Pennsylvania Department of Agriculture, Harrisburg, Pa. A registration fee of fifty dollars (\$50.00), is required to be paid annually for each plant where carbonated beverages, still drinks, fruit juices and mineral waters are manufactured and it covers a period of twelve months from date of issue of license.

Application forms for registration will be furnished upon request to be filled out, showing the name and address of the applicant, the location of the manufacturing or bottling plant, the name of each beverage or drink to be registered and the kind of equipment used and the capacity of the plant. Upon receipt of applications with fees and approval thereof a license will be issued for the operation of the plant and for the sale of the carbonated beverages or still drink, which have been registered as required by the Law.

Saccharin Prohibited

Saccharin and other preservatives are prohibited. All carbonated beverages and still drinks must contain not less than eight per cent. (8%), by weight of pure cane or beet sugar. When artificial flavors or colors are used the bottle must be distinctly marked, labeled or capped, "artificially colored," "artificially flavored" or "artificially flavored and colored," as the case may be. All cider, fruitades, fruit juices or other similar beverages made in imitation of the natural product, must be distinctly marked, labeled or capped with the word "imitation," followed by the name of the natural product imitated.

Display cards are required to be prominently shown on all stands, booths or other places where any carbonated beverages or still drink containing artificial coloring or flavoring is sold or dispensed. Such display cards are required to be printed in letters not less than two inches long and three quarters of an inch in width and must include the following inscription, "artificially colored," "artificially flavored," "imitation flavor," or "artificially colored and flavored," as the case may be with no abbreviation of the word "artificial." When such carbonated beverages or still drink contains any artificial color and natural fruit flavor, the display card must clearly show the presence of the artificial coloring, as follows: "artificially colored," or "harmless color added." When such beverages contain artificial flavors and no artificial coloring they must be labeled as follows: "artificial flavor" or "imitation flavor."

Every bottle filled with carbonated beverages or still drink is required to be distinctly marked, labeled or capped so as to show the true name of the beverage or still drink contained therein.

Thorough Cleansing of Bottles

All bottles before being filled are required to be thoroughly cleansed by soaking for a period of not less than five minutes in a hot caustic solution of a temperature not less than 110 degrees Fahrenheit and the cleansing solution must contain not less than three per cent. (3%) of caustic or alkali. The cleansing solution is required to be changed frequently so as to prevent its becoming foul and unsanitary.

It is unlawful to use tin, galvanized iron or wooden tubs, barrels, or containers in preparing beverages or still drinks, but glass, porcelain lined tanks or earthenware crocks may be used. It is also unlawful to use any bottles or other containers used in the manufacture, bottling, or distributing of beverages or still drinks for any other purpose whatsoever. This law will protect the public health by insuring the sanitary bottling and serving of still drinks and will enable people to know exactly what they are drinking. The drastic provisions of the law will compel many of the 1,500 bottling plants in Pennsylvania which are now operating in unsanitary places such as cellars and stables, to build sanitary plants or go out of business entirely.

NEWTOWN

Mr. William Witmer, of Harrisburg, spent Tuesday with his brother, Mr. John Witmer and family. Mr. and Mrs. John Witmer entertained their children and families on Sunday: Mr. and Mrs. Harry Witmer and children, George, Paul, Edith, Victor and Mary Arlene; Mr. and Mrs. Walter Brandt and children, Jay, Robert, Henry, Miriam, Helen and Junior; Mr. and Mrs. Irvin Witmer and children, Irvin and Wilburt; Mr. and Mrs. Charles Fogie and daughter, Dorothy Mae; Mr. and Mrs. William Witmer and daughter, Wilma Arlene; Amos, Oliver, May and Cora Witmer.

EVERY PENNSYLVANIA COMMUNITY TO HELP ORPHANS OF VETERANS

Former Governor Sproul, Chairman of American Legion Endowment Fund, Issues Appeal for Everyone's Support This Week of Movement to Aid Disabled and Helpless Babies of Former Service Men.

WILLIAM C. SPROUL Former Governor and Chairman of the Pennsylvania State Committee of the American Legion Endowment Fund for Disabled Veterans and Orphans of Former Service Men.

This community is expected to do its part this week in the raising of Pennsylvania's share of the national \$5,000,000 American Legion endowment fund which will permanently provide for the care and assistance of disabled world war veterans and provide for the care of the helpless babies of former service men. The state has been thoroughly organized under the leadership of former Governor William C. Sproul for the intensive campaign of solicitation that began Monday. Early returns indicate that every Pennsylvanian who understands the needs and purposes of the fund has given his support to the fund.

Sroul Issues Appeal

Ex-Gov. Sproul, chairman of the state committee of the endowment fund, has issued an appeal for donations. "While the American Legion began this movement, it is not a Legion undertaking, strictly speaking," the chairman said. "Everyone who believes that the disabled veterans and the 35,000 war orphans of the country deserve a square deal, should take part in the endeavor. The task is a large one which challenges the cooperation and help of everyone. "The establishment of this fund will mean that a permanent source of income will be available for the aid of the two classes in America who suffered the most by the war, and who are today suffering. These are the men for whom no armistice has come and the children who have been deprived of paternal care and now face disease, poverty and possible crime.

Government Cooperates

"The Legion has carried this burden without knowing from time to time how the financing could be obtained. Always working in close cooperation with government agencies, this splendid organization has helped thousands of men to obtain government compensation and hospitalization. "There remain many more thousands who need this help today, men who are beginning to break now after a few years' losing fight against diseases contracted in the service of their flag. I know that this state will make a record in subscribing to the endowment fund. It will if everyone does his part." J. Mitchell Chase, State Commander of the Legion, issued the following statement as the campaign this week opened: "No Pennsylvanian will fail to respond to this undertaking when acquainted with the needs of the endowment fund.

Means Square Deal

"Before seeking subscriptions, it has been necessary to devote some time to an explanation of what the fund means. It means, above everything else a square deal for the men who gave up their health in the war, and it means a good home, an education, a mother's care for every helpless orphan of a former service man. "Could anything be more worthy? Almost every day sees some additional state response in full with payment of this debt of honor. It is up to Pennsylvania this week, up to you, to 'our community.' "More emphasis is being placed now on the amount of the oversubscription to state quotas than the order in which the various states 'go over the top,' according to Commander Chase. Many states have had earlier starts for various reasons, and Pennsylvania's standing among the states will be determined by the amount she donates over her quota.

To Remove Match Marks

Matches caused by striking matches on painted walls should be rubbed with a newly cut lemon, then with a cloth dipped in whitening. The spot should then be washed with warm soapy water.

The seventy-five pyramids in Egypt, that were built as tombs for the kings, date from the period between the fourth and twelfth dynasties.
