**WARNING**

Insure Satisfactory Cold Weather Performance

Satisfactory performance of your Dodge Brothers Motor Car during the coming winter months should be insured by a thorough inspection and prompt performance of any needed attention. Radiator Hose should be examined and replaced if necessary and water pump packings tightened or renewed before alcohol or glycerine is put into the cooling system.

The ignition system and battery should be checked up to insure easy starting in cold weather.

The entire chassis should be inspected carefully and lubricated if necessary.

Lubricant of proper consistency for cold weather should be added to the transmission, universal joint and rear axle.

The cost of this inspection is nominal. It is valuable insurance against the possibility that neglect may necessitate costly repairs.

We are prepared to give prompt service on all makes of cars.
