The Produce and Live Stock Market

PENNSYLVANIA DUTCH

What Shilkey Bumblebees Has To Say This Week

CORRECT INFORMATION FURNISHED WEEKLY BY THE PENNA. BUREAU OF MARKETS FOR THE BULLETIN

Produce Receipts Moderate Receipts of fresh fruits and vegetables in Philadelphia during the past week have been generally moderate and trading has been fairly active on most lines, according to the State and Federal Bureau of Markets.

Texas spinach has been coming in freely and offerings have been liberal. The great variation in a quality and condition resulted in a wide price range and the general trend of the market was downward. Sweet potatoes continued dull throughout the week under a limited demand. Apples moved slowly with only light supplies of Pennsylvania stock offered. Western boxed apples were slow with the extra large sizes selling at a substantial discount. The market for Pennsylvania mushrooms was quiet with liberal receipts. Prices, however, did not vary greatly.

New York State celery moved slowly, while Pennsylvania stock met a fair demand. Turnips, parsnips and carrots held about steady but onions were weaker and sold slowly. Cauliflower closed stronger due to the improved quality of the offerings. Florida strawberries continued in relatively light supply and prices were well maintained.

The potato market held firm during the early part of the week but the market weakened toward the close. It closed with Pennsylvania round whites selling at \$7.00 per 150 pound sack.

Comparisons with week ago: Beef steers steady to strong, some sales 25c higher, top \$18.00; average weight 1106; bulk \$8.50-9.25. Bulls and cows sharing upturn; bulk nearby cows \$4.25-5.00. Heifers steady; stockers and feeders firm; receipts light; bulk \$6.50-7.25. Calves weak to 50c lower top vealers \$16.00.

GUNNERS CLAIM RING-NECKS ARE POOR SHOOTING

Although quite a few ring-necked pheasants were killed this season there still seems to be a great many left. As they multiply very rapidly, there should be plenty for next year's shooting. It was only legal this season to kill the male birds, but quite a few hens shared the same fate. These birds have become so tame that many of the sportsmen declare they are poor sport and hesitate to shoot them. At present they are to be found feeding with the domestic birds on the farms.

Joy aggregation with five field and six foul goals to his credit. Scores:
