RAISING TREES BY REDUCING TAXATION

It has been stated on good authority that four times as much timber is consumed each year as is grown. Reforestation is the proper solution for our dwindling timber supply. But it is more easily preached than practiced, due to heavy taxes which consume all possible profits, long before the trees are marketable.

California is to vote at the next election on a constitutional amendment designed to relieve replanted timberlands from taxation until the trees are merchantable. This is a progressive move, and should be followed by other states.

GREATER BENEFIT TO TAXPAYERS THAN TIRES

A recent press dispatch from Washington, D. C., said that "tire wear on macadam roads is 17 times as great as on concrete roads." On the face of this statement it is absurd: It is a poor tire that will not get 2,000 miles on any kind of a macadam road; while it is a rare exception for a tire to make 34,000 miles, which it would have to do on above basis, even on the finest type of asphalt road which causes less tire wear than any other practical type of road paving.

As a matter of fact, every automobile driver knows that tires give thousands of miles of wear on the ordinary rough stone or water-bound macadam road. The great advantage in salvaging old gravel and macadam roads with a water-proof surface of an asphaltic character which saves tire wear, is the saving which results to taxpayers by utilizing the whole of their present road investment in the old road base.

HIGHWAY SAFETY SLOGANS

The State Highway Department of Ohio is using a number of safety first slogans at safety exhibitions in an effort to reduce motor accidents. Several of these were originated by the department and have found wide vogue.

1. Don't try to scare locomotives with your horn.
2. A road hog roots up macadam with his nose.
3. Our roads are wide and smooth, don't burn them up.
4. Death is so permanent—take a minute or two at those dangerous railroad crossings.
5. Tragedy in seven words: Speed increases, Breath ceases, Rest in pieces.
6. Horse sense, as well as horsepower, should enter into the operation of motor vehicles.
7. Live to ride another day by obeying all warning signs.
8. Believe in highway warning signs—they mean what they say.
9. Drive with care—you may meet a fool.
10. A reckless driver is a criminal.
11. Keep your hands on the wheel—let your girl hug herself.
12. The three "H's"—Hooch—Huey—Haste—cause 75 per cent of the motor accidents.

IT'S UNFAIR COMPETITION

Newspapers, especially the smaller ones of the nation, are just now organizing a campaign to persuade Uncle Sam to refrain from printing return addresses on stamped envelopes at cost, in competition with the little printers. Under existing conditions, Uncle Sam hires salesmen in the persons of postal employees to solicit the business, write up the orders, transmit them to the printer, collect the bill and deliver the printed job at the consumer's office.

Why the smaller newspapers alone should be subjected to that kind of competition from their own government cannot be explained, and there is prospect that the printing service that the government has rendered practically free to users of stamped envelopes will be abolished by this session of Congress.
