MOST POPULAR PAVEMENT
Asphalt pavements continue to be the most popular and extensively constructed of any of the types higher than waterbound macadam and gravel.

SOME PLAIN TAX STATEMENTS
In discussing the necessity for businesslike and reasonable taxation laws, the Philadelphia Public Ledger says:
"Government developed the demagogue appeared and the demagogue began to hate the provision. There were demands that the rich should divide with the poor."

ANOTHER INDUSTRY
There isn't a town the size of Mount Joy anywhere that can boast of more or better industries than we have. These industries were not procured in a day or a month either. Only the best and the most solicited while some have located here, unsolicited. However, we are mighty proud of them all.

They know every detail of the building on Donegal street into a silk mill and we see nothing but success confronting them.

THERE'S A LIMIT
From the present trend of things, there seems to be an unlimited amount of desire on the part of citizens of Mount Joy to start something. That particular something at this time seems to be clubs. Some time ago there were preliminary meetings for the purpose of forming a Lion's club here. There were other meetings with other purposes in view.

Later a Rotary Club was started and last week Booster Club was launched. Along with all this comes an effort to instill new life into the Board of Trade, and we are wondering what next.

During the recent terrific storms on the Atlantic four ships almost simultaneously reported themselves in peril.
"Forty years ago," says the Paris, France, Times, "not only would they have been unable to call for help, but they would have stood strong chances of going down with all hands. Even in the steamer lanes, a sinking craft blown off her course or just out of the range of visibility of passing ships would have stood small chance of rescue. However, when the faint three dots, three dashes and three dots of the distress signal were picked up by some watchful wireless operator, the word was passed and the air was cleared for reception of the unfortunate ship's position and the organization of relief."

Between twenty and thirty sad-puppies will be broken for skating, that most popular of winter sports which is to be featured by the Barff, Alberta, Winter Carnival, starting February 2 and continuing through February 17.
