THE FLORIN HEAT FOLKS

HAPPY is the furnace that sees the Heat Folks coming down the shoot. And it should be! For it knows its scolding days are over. No more pains in its grate. No more victous shaking by the fire-keeper. No more poking and choking. A furnace will sing like a teakettle when it has the Heat Folks romping about. Have harmony in your cellar with the Heat Folks in the bin.

Senator Homsher, who was an ardent worker for the Omnibus bill at the last session of the Legislature, which provides the State shall take over and control the river road, delivered an interesting address. He dwelt on the subject of road building in the State but laid particular stress on Lancaster county. He referred to the road from Manheim to Hull's Inn. This road was taken over by the State in 1911, but it was not reconstructed and made a permanent highway until 1925. He said it is impossible to build primary roads in all sections of the State at once, but he urged the continuance of the movement to have the river road constructed as a necessity.

During the course of the meeting it was stated that there is \$800, road constructed as a necessity.
