

Mr. Automobile Owner
Have You ever Stopped to Consider

That a Locomotive Engineer would not think of starting on a run without first giving his brakes a thorough testing? Your automobile should have the same careful testing of its brakes because it is more dangerous to the public, due to the fact that all streets are tracks for your automobile.

Let us inspect your brakes and re-line them with Johns-Manville Asbestos Brake Lining

FUTURE BECKONS YOUNG AMERICANS

Achievements of Past Only Show Great Opportunity Ahead.

Great events of the past quarter century which led some young men to complain that all the big things have been done, leaving no opportunity for them, as a matter of fact only go to show that even greater opportunity today lies ahead of them, F. N. Shepherd, Executive Manager of the American Bankers Association; recently told members of the American Institute of Banking in New York. After reviewing the outstanding accomplishments in science, industry and finance during the last twenty-five years, Mr. Shepherd emphasized the reward given men of achievement in America, especially in the financial field.

"The achievements of the past are the groundwork for the opportunities of today and tomorrow," he said. "There never was a time when so great were the potentialities of the individual. The world was never so ready and able to pay well for what it wants. For superior service to society under competitive conditions, whether through invention or production or organization or distribution of useful articles, no reward is begrudged, particularly here in America.

"Adding to human comfort and human needs, these things make life finer and better. The world has shared, but it is in America that they have reached their highest development and utilization. The American spirit of useful enterprise, however, does not confine itself within our own borders. It permeates the entire world and renders great service to peoples other than our own.

"Let us pass over America's service to humanity in the war and consider what is being done now. Largely to rebuild the economic life of a world shattered by the war and its devastating after effects, America has, since the war, loaned other peoples over ten billion dollars. Last year alone a billion and a half in foreign financing was consummated in the United States. American financial genius has so far readjusted our banking machinery to meet enlarged international obligations that stupendous foreign loans, such as the \$100,000,000 Dawes plan credit to Germany, are concluded and the books closed after being open to public subscription only a few minutes.

"With our new world viewpoints we in America have many great things yet to do. These things are typical of the broadminded world viewpoint of American finance. It shows the vision necessary to the men who guide our business affairs today. Certainly there is an inspiration in this and the great opportunities which await us."

Federal Commissioner

Edith May Adams, eighteen-year-old Barrington, N. J., girl, presenting her entry blank to Mayor Kendrick in his office at City Hall, Philadelphia. The American Youth and Teacher Award was established as a tribute to American youth and teachers by the Board of Directors of the Sesqui-Centennial International Exposition, through which the people of the United States and the world at large will celebrate the 150th anniversary of the Declaration of American Independence. The exposition will run from June 1 to December 1. Miss Adams' entry blank cited her for heroism displayed recently when she remained inside a burning building helping doctors render first aid to injured firemen. She is a candidate for the Golden Eagle, the highest gift within the hands of the Girl Scouts. Each state will elect a girl and boy and one teacher to represent them and the successful candidates will be the guest of the Sesqui officials from June 25 to July 5 at the exposition. This will also include a trip to Washington where they will be received by President Coolidge and presented with medals.

GET AT THE CAUSE!

Many Mount Joy Folks Are Showing How to Avoid Needless Suffering
There's nothing more annoying than kidney weakness or inability to properly control the kidney secretions. Night and day alike, the sufferer is tormented and what with the burning and scalding, the attendant backache, headache and dizziness, life is indeed a burden. Doan's Pills—a stimulant diuretic to the kidneys—have brought peace and comfort to many Mt. Joy people. Profit by this Mt. Joy resident's experience:
D. S. Shonk, prop. blacksmith shop, 126 West Donegal St., says: "I believe heavy work put my kidneys out of shape and the secretions passed too freely. When I got down to shoe a horse, a knife-like pain took me in my back. After using Doan's Pills, my back was strong and my kidneys acted normally." (Statement given May 6, 1921.)
On December 4, 1925, Mr. Shonk said: "I used Doan's occasionally and find them entirely satisfactory."

For Sale in Florin

Home Health Club

WEEKLY LETTER WRITTEN EXPRESSLY FOR THE BULLETIN BY DR. DAVID H. REEDER

AUTO INTOXICATION: I promised in my last article to give the 3rd and 4th weeks special elimination diet prescribed by the famous Doctor Wm. F. Koch for the prevention of cancer, because it is an elimination diet. It detoxicates or throws the poisons out of the system.

The previous article gave the diet for the first and second weeks.
THIRD WEEK: Whole fruit and vegetables, either raw or cooked, may be eaten. The more raw food, used, the better. Salads, vegetables and fruit puddings prepared as follows may be eaten.
For salads, use lettuce, celery, chopped or grated carrots or turnips (or both) and chopped apples, pears or pineapple. Use no dressings. A large plate of this may be eaten daily.

The vegetable soup is made in the same manner as the vegetable liquor for the second week, with the exception that less water is used in cooking and the vegetables are now eaten and not strained out. A pint or more may be eaten daily.

To make the fruit pudding, chop 1-4 pound of figs or dates and 1-4 pound of raisins fine and simmer under the fire for a few minutes; add to this three or four fair sized unpeeled apples cut up fine and a little more water. Cook until the apples fall to pieces. Add no sugar or any coloring material. This gives a delicious nutritious dish of which a whole meal can be made. If desired, a few pecans ground in the meat grinder, or with a little water to cream may be added to this pudding just before removing it from the fire.

FOURTH WEEK: Milk, cream, cereals (whole and chicken may be added to the diet. The cereals should be eaten raw without milk. They must be thoroughly mixed with saliva before being swallowed. Vegetables, tubers such as turnips, beets, parsnips and potatoes (baked or cooked with the jackets on) may be eaten. Patients must remember that acid fruits, or salads with an acid fruit dressing are not to be eaten provided the general principles are observed.

I will be very glad to hear from those who use the diet. You can help me to help others by telling me of the results of your experience. All readers of this publication are at liberty to write for information upon any subject pertaining to health. Address all communications to Dr. David H. Reeder, 3131 Main street, Kansas City, Missouri, giving full name and address and at least six cents in postage.

1ST AMERICAN YOUTH ENTRY

Edith May Adams, eighteen-year-old Barrington, N. J., girl, presenting her entry blank to Mayor Kendrick in his office at City Hall, Philadelphia. The American Youth and Teacher Award was established as a tribute to American youth and teachers by the Board of Directors of the Sesqui-Centennial International Exposition, through which the people of the United States and the world at large will celebrate the 150th anniversary of the Declaration of American Independence. The exposition will run from June 1 to December 1. Miss Adams' entry blank cited her for heroism displayed recently when she remained inside a burning building helping doctors render first aid to injured firemen. She is a candidate for the Golden Eagle, the highest gift within the hands of the Girl Scouts. Each state will elect a girl and boy and one teacher to represent them and the successful candidates will be the guest of the Sesqui officials from June 25 to July 5 at the exposition. This will also include a trip to Washington where they will be received by President Coolidge and presented with medals.

WHY NOT USE THE BEST!

Consumers of Milk and Cream will be interested to know that by a careful test by Dr. Mitchell, of the Lancaster City Board of Health, the Milk of my Dairy tested as follows:

84 1/2 Percent Perfect
Butter Fat 3.70
Solids, 12.30
T. B. Test 96 Percent

Of the 43 dealers supplying milk in Lancaster City, I had the highest T. B. test, the highest solids test, the highest bacteria test, the highest perfect test and was third in butter fat.

I handle milk from twenty-two of the best dairy herds thruout this section. These are facts, and a visit to my place of business here will convince you that I have one of the most modern and sanitary milk stations to be found.
