HRU POWER TO PROSPERITY is approaching when k of the United States with 118,000,000 people will be by electricity, and done far swiftly and cheaply than labor could accomplish it. benefits, and greater ones lie in the future for Americae due to the energy and vis. re due to the energy and vis-with which a few leaders grasped and solved the probof power supply on a nation-

WHY THE PRINTER, ANY MORE THAN THE FARMER? The printers and the publishers

should contract with an organization of poultry raisers, hog raisers, or wheat raisers to furnish it certain amounts of these products which it, in turn, would sell at prices impossible for small farmers to meet, the situation would be the same as that faced by the sample printers of the country who cannot meet government competition, in printing return addresses in stamped envelopes.

IRUNVILLE

A number of people from the village have cleaned the cemetery.

Mr. and Mrs. Morris Weller were visiting relatives at York country on Sunday.

Misses Laura Kulp and Mae Hin kle, of Mr. Joy, were the guests of Mr. and Mrs. Jacob Derr, and Mr. and Mrs. William Derr on Sunday evening at Florin.

FOURTH OF JULY

The Fourth of July this year marks the 150th anniversary of

TOURTH OF JULY
The Fourth of July this year arks the 150th anniversary of dependence. In view of the ecial importance of the occasion the signing of the Declaration of Independence. In view of the special importance of the occasion, several local people have suggested that Mount Joy observe the day in some fitting manner, in which is some fitting manner, in which the entire community will take the entire community will take

These suggestions, as submitted the Bulletin include a program of sports, a large display of fire-works, appropriate exercises, and he like—in fact, a complete, all-y program which would appeal

Altho in the past few years no h celebration has marked the here, the proposal would seem cal and fitting. Let's all do part to see that it is carried

UNTRY FOLKS NEED BET-TER THAN DIRT ROADS vay engineers is being shown eveloping some form of construction for mode moderate tffic which will be a distinct im-vement over any form of earth id-clay or topsoil road yet pro-

"There is a great need for such development, for it is very evident that there is definite economic limit to the total yardage of high-priced high-class proposets." Already number of state highway departments and a special committee of the National Research Council are work on this problem.

Some modification of the upper

Some modification of the upper portion at least of road soils, will be necessary. Crushed stone products are adapted for this purpose. A fairly light covering of crushed stone and a suitable asphaltic material further materially improves the road at low cost. If traffic requirements finally demand a high grade pavement, the old stone road would produce an excellent foundation for a relatively thin water-proof wearing course. Such construction is certainly worthy of

proof wearing course. Such construction is certainly worthy of careful consideration."

Thus, the evolution of a road seems to be (first) dust or mud. (second) crushed stone or gravel (third) a binder like road oil or asphalt to hold the gravel together and (fourth) such higher type of pavement as can utilize to the fullest extent expenditures previously made on the road in building up the foundation.

AT THE TOP OF THE WORLD American achievement and inserving have overshadowed the printing Office was the first user formed was ent genuity have overshadowed the world, and now comes the announcement that Lieutenant-Commander Richard E. Byrd has crossed the north pole in an aeroplane and is back safely at his base, King's Bay, Spitzbergen. The plane bearing Lieutenant-Commander Byrd, of Virginia, and his pilot, Floyd Bennett, left King's Bay at midnight, and fifteen and onehalf hours later the great monoat midnight, and fifteen and one-half hours later the great monoplane was heard over King's Bay, giving evidence of the victorious achievement. In the fifteen and one-half hours it traveled approximately 1 600 miles averaging bet-

one-half hours it traveled approximately 1,600 miles, averaging better than 100 miles an hour.

There is something about American achievement that thrills even the man of foreign birth. He recognizes that American sportsmanship is clean-cut, and that no undue advantages are even taken in the great game of chance. The American aviators were the first to fly around the world, and now a Virginian has sailed over the top of the world in an American made plane. Again we say that American ingenuity and achievement have won. The achievement falls to the credit of Lieutenant. Commander Byrd and his pilot, and the ingenuity to the inventor of the Fokker monoplane. However, there is honor enough in this call acknowledged and carless motorists who continue to operate even after their licenses have been revoked for good operate even after their licenses have been revoked for good operate even after their licenses have been revoked for good operate even after their licenses have been revoked for good operate even after their licenses have been revoked for good operate even after their licenses have been revoked for good crossing at nine o'clock Sunday evening. The chemical engine worked perfectly, enabling them to great the first can be under control in a surface and surety companies through any of the principal casualty and surety companies the nount in the principal casualty and surety companies the National Bureau of the principal casualty and surety companies the National Bureau of the principal casualty and surety companies the National Bureau of National Bureau the names of all persons whose licenses have been revoked. This formation will immidiately be distributed to the companies, and further insurance to reckless drivers will be refused and existing insurance will be canceled.

It is an established fact, say the Bureau officials, that many serious accidents are caused by criminal and carless motorists who continue to operate even after their licenses have been revoked for good of the world and the insurance carried

MAYTOWN

Thomas Johnstin and David Koser were on the Sunday excursion

month.

The subscription lists of the Landisville Vigil, the Florin News and the Mount Joy Star and News, were merged with that of the Mount Joy Bulletin, which makes this paper's ordinary weekly.

The subscription lists of the Landisville Mr. and Mrs. Charles Welchans and children, of Hummelstown, visited the former's mother, Mrs. Lillie Welchans.

Rev. and Mrs. I W. G. Welchans and Tuesday of this week.

On Tuesday evening, the boys class called the "Loyal Sons" held their monthly meeting at the home of John Fox. A business meeting was held and the president, Roy Fornoff, presided.

Presence of Mind

A recent ecclesiastical method of removing an evil spell from a churchyard seems to have been less simple exorcising a ghost from a mansion where he once spent a night. He was lodged in the haunted chamber, and in the morning his hostess inquired chamber, and in the morning his hostess inquired chamber, and iliary of the Landisville Fire Comthan that of Archbishop Thomson in in the morning his hostess inquired anxiously if he had seen anything. "Oh, yes," replied the archbishop, "I wakened to find an old pinched-looking man in the room. I jumped up and asked if he lived in the house. He nodded assent. Was he a parisher he nodded assent. Was he a parisher between the company of the Landisville Fire Company was a great success. The proceeds will be used for the benefit of the Fire company. Mr and Mrs. John Herr and daughter, Jeanette, of Philadelphia. Misses Elizabeth Miller and Rosé Flow-Then, said I, I should like to ask your | Kauffman, help for our new school building fund. At that he vanished, and disturbed me

Sweet Pea an Importation

The sweet pea is a native of the island of Sicily and was first mentioned in 1695 by an Italian monk, who sent seeds to England and Hol-land. The seeds of sweet peas beland. The seeds of sweet peas became an article of commerce as early as 1724. Sweet peas have been grown for more than a century in America, and all of the varieties known in Europe were grown here. There was a spring and was well attended with twelve mothers and babies. The rope were grown here. There was a wave of popularity for the sweet pea in America between 1885 and 1900, while the tide, which received its great impetus through the introduction of the waved, or Spencer, type, was just beginning to rise at the sweet-pea celebration in London in 1900.

and the ingenuity to the Inventor of the Fokker monoplane. However, there is honor enough in this great achievement for all. The American spirit of fair play suggests that to Captain Admunsen puld go honor alongside of that lich Lieutenant-Commander Byrd receive.

Sometimes and reckless driver simply makes him more careless. The action of the casualty companies is a move in the right direction and if all states would cooperate with these companies in weeding out undesirable drivers, the ultimout would be fewer accionate. A MOVE TO REDUCE with these companies in weeding out undesirable drivers, the ultimate result would be fewer accidents, and insurance at lower cost for careful automobile owners who are entitled to it.

LANDISVILLE

Mr, and Mrs. Chester Amand visited relatives here on Wednesday to Boston.

Miss Margarret Trout, of Mt.
Joy, spent the week end with Miss
Grace Henderson.
