

HEAT FOLKS

HEY LISTEN! YOU'LL BE WISHING FOR THIS HEAT NEXT JANUARY. LET US STORE IT AWAY FOR YOU IN YOUR COAL BIN.

That's right. Get just as cool as you can.

But remember, this weather won't last all the year.

It never has yet.

And before you forget it, you'd better let the Heat Folks fill that empty coal-bin, so you can take your summer's relaxation in peace.

Call the HEAT FOLKS for good, clean coal

Daniel M. Wolgemuth

HORSE SENSE—A friend of ours who stated that he had lived on nothing but milk for over a year and gained weight every day was asked how he managed it. "I can't say that I remember but I presume my method was similar to that of other babies." Your First National Pocket Book will gain weight if you will use DUNLOP tires. Like the everlasting hills is the strength of the DUNLOP Tire. No matter how rough the road or the amount of mileage recorded DUNLOP tires stand the strain and are almost everlasting. Why not give them a trial?

Lord Baltimore Writing Portfolio

A box of paper oftentimes takes up so much space in your tightly packed bag that you can't take it. Consequently you neglect to write when you have a few spare moments.

Lord Baltimore Writing Portfolio containing 50 sheets and 24 envelopes was designed to fit in your bag and occupy the minimum space. The cover is heavy and strong enough to act as a desk so that you can write on the train, boat, etc.

M. R. Hoffman Jr. Clears up \$11,000

(From Page One)

account as soon as possible after the State Department of Banking had assumed control of the Peoples' Bank. He said he had received the loan in cash.

Hoffman recalled that the \$11,000 given to him by his mother was in the form of certificates, some of which he cashed immediately. Part of the money, he declared, was used to defray his household expenses, had been given to his father and mother. A part of the \$11,000 was used to purchase stock certificates in the Peoples' Bank.

When questioned by B. J. Myers relative to the final disposition of part of the certificates, Hoffman said he had given some to a Mr. Marks, of Philadelphia, who said he would dispose of them. Marks had been an accountant for the Hoffmans.

Unable to Find Marks
The witness was unable to state definitely if Marks had sold any of the certificates, explaining he was unable to locate the accountant when he was in Philadelphia last week.

The attorney then asked Hoffman to present a detailed account of his personal and traveling expenses, the number and amount of certificates he gave to Marks, and how much money he possessed when the petition in bankruptcy was filed, at the next hearing.

The certificate for 71 shares of Columbia Body Corporation stock, in the name of M. R. Hoffman, but held by N. R. Hoffman, was turned over to the referee.

It was announced that A. B. Hess, president of the Hess-Purdy Company, of which M. R. Hoffman Sr. is a stockholder, would give a detailed statement of its financial condition at the next meeting.

Stock Holdings Listed
M. R. Hoffman Sr. stated he was a stockholder in the Hess-Purdy Company, of Louisiana, holding 296 shares. He thought it a good investment as the stock was sold at \$100 per share. The firm is engaged in timber business.

Hoffman said he was a stockholder in the E. R. Miller Company, of Webb City, Mo., but he knew nothing about the company. They manufacture cigars. He had about \$25,000 invested.

In the firm of Smal and Company, of Womelsdorf, Pa., he held 220 shares of stock. He was asked to obtain a statement of the condition of the firm and present it at the next meeting.

Adjournment was taken until next Tuesday afternoon at 2 P. M.

A Violent Storm In This Section

(From page One)

Lancaster, stopped for shelter under a large maple tree. The tree was broken in half when struck by lightning and a large limb fell over the top of his machine. The occupants managed to get out of the car uninjured. After the storm subsided the wrecking derick of the Forney Brothers garage removed the tree. The only damage caused was the large hole broken in the top of the car.

The most damage was done by the hail which were very plentiful the size of a hen's egg, while the smaller ones could be shoveled up as the ground was white as though it had snowed.

Along the Scravel pike, leading from Falmouth east, thru Newville to Elizabethtown, the hail storm was the worst. The corn fields were butchered and tobacco and potatoes were badly cut.

The writer happened to be in the worst of this storm, seeking shelter in the shed at the church west of Newville. He saw several waves, the tops of which looked as though shot thru with shrapnel. He saw half a dozen hail stones the size of a base ball. This seems exaggerated but it is nevertheless true. Among others who saw them that size were Jacob M. Schroll, Misses Pearl and Dorothy Schroll, Mrs. R. R. Lauer, and a number of people at Elizabethtown.

Damage at Salunga
In the vicinity of Salunga the storm was the worst in years, the ruin flooding cellars and the hailstones breaking window panes at the same time that the lightning was playing all around, although not doing any great damage. The tobacco plants are shredded and the corn crop in the vicinity is badly damaged, although it is impossible to secure a dollars and cents estimate of the loss.

Petersburg Suffers
East Petersburg and vicinity suffered heavily from the hail. Fields of growing vegetables were badly damaged and the tobacco fields suffered heavily. The tobacco in that vicinity was as far advanced as any in the county. Fruit farms in that section report damage to their trees, some of which were washed out or blown over.

Tobacco Crop Ruined
The tobacco crop of Mr. Abram Long, along the concrete highway east of Landisville, which was the finest in that section, was badly damaged.

For Sale in Florin
A fine home with all conveniences, such as light, heat and bath. Property is in excellent condition and nicely located. Possession April 1st. This is a corner property on Mt Joy twp. side. Price, \$5,550.00. Call or phone Jno. E. Schroll, 41R2, Mt. Joy

Club Members Get Free Insurance

(From Page One)

by a bill in equity, was adopted by the membership. And whereas, there is grave doubt as to the legal authority in the County Commissioners of Lancaster county to expend taxpayer's money for the erection and maintenance of light houses along the highways controlled and maintained by the State Highway Department.

Therefore, be it resolved that a committee of five be appointed by the President of the Lancaster Automobile Club to protect the taxpayers of Lancaster county from the expenditure of any money for such purposes; and that said committee be authorized and empowered, if necessary, to file a bill in equity in behalf of all of the taxpayers of Lancaster county to enjoin the County Commissioners of Lancaster county from so doing.

Want Roads Freed
The freeing of the remaining toll roads of the county came under fire likewise, and a resolution presented by S. Edward Gable, president, urging immediate action to this end by the county commissioners was unanimously adopted.

The resolution presented by Mr. Gable is:

Whereas: Lancaster county commonly known as the Garden Spot of the United States still has a few toll roads within its borders, the most important which are (1st), the Lancaster and Lititz and (2nd) the Lancaster and Mechanicsburg, whereon free transportation is not enjoyed and which roads are relics of the past ages, and

Whereas: These remaining toll roads are practically the only ones left in the State of Pennsylvania, or even in the United States, and of right should be free avenues of public transportation, and

Whereas: We are now celebrating the liberty and freedom of 1776 which our forefathers so nobly attained for us.

Therefore, be it resolved, that we urge the County Commissioners of Lancaster county to join in this celebration of liberty and freedom by freeing all the remaining toll roads in Lancaster county this year, thereby giving equal freedom of travel to citizens living along these roads or others using them together with all others living on other free roads all of which pay taxes in equal proportion and hence deserve equal rights, i. e. free roads.

And be it further resolved: That we recommend after October 15, 1926, markers be placed along any toll road or roads still existing in this county explaining the reason why such bondage still exists in the Garden Spot.

On motion of Secretary J. G. Forney, a committee consisting of two members living along the Lititz turnpike and two others, will be appointed to confer with State Highway officials, to urge State action on the freeing of this road.

Picnic at Reading
Plans for the annual club picnic to be held this year at Carsonia Park, Reading, on August 12, were discussed. President Gable announced that instead of the club purchasing a lot of souvenirs and trinkets for the children, strip tickets good on every amusement of the park will be given them.

Mr. Gable also urged that the alleged "humorous" signs commonly affixed to the license plates of the cars be removed by club members. The New Jersey Highway Commission has ruled that they are dangerous as they distract the attention of a following motorist, and it is expected that Pennsylvania will soon make a similar ruling.

He also warned the members that bogus insurance men are reaping a harvest from the unwary in the outlying districts of county.

Frank J. Blais reported that the intersection of the New Danville Pike and Long Lane is dangerous and the sign committee was ordered to erect the necessary warning signs.

One hundred and twenty-three new members were elected. A social session followed the business meeting during which the luncheon was served by Ladies' Aid Society of the Methodist church.

It was announced that the next meeting of the club would be held at Holtwood, where the members will be given an opportunity to inspect the plant of the Pennsylvania Hater and Power Company.

LET GOVERNMENT CONFINE ITSELF TO GOVERNING

The headlines to a Washington dispatch dated June 19, say, "Congress worried by Muscle Shoals-Skeleton in closet begins to rattle." The article then goes on to say, "Congress has authorized expenditures at Muscle Shoals amounting to about \$110,000,000, since 1830."

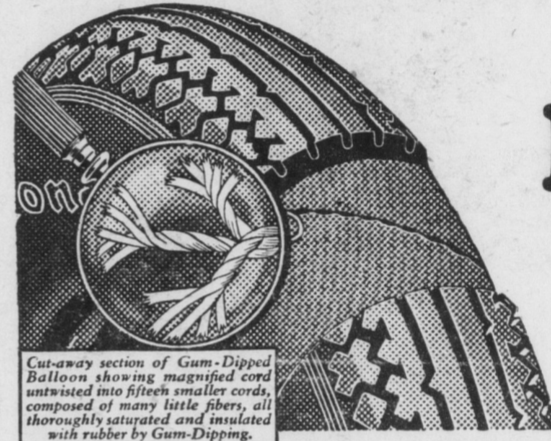

If \$110,000,000 have been expended in 96 years trying to develop government water power project, how many more millions will have to be expended, and how long will the public have to wait to get service under such a system?

Festival, Aug. 21
Friendship Fire Company No. 1 will hold a festival on Jacob G. Brown's Athletic field, west of town, Saturday, Aug. 21. All kinds of refreshments will be served and there will be amusements for every body. A band will furnish music July-14-7t

We're at your service when you need job printing.

Made in The Great Economical Firestone Factories and Carry the Standard Tire Guarantee

H. S. Newcomer & Son, Mt. Joy

You Pay No More for an USCO than for an Unknown Tire

USCO Tires are made by the United States Rubber Company—the world's largest rubber manufacturers and owners of the largest rubber plantation in the world.

USCO

Balloons, High-Pressure Cords and Fabrics are made to give the man who wants a moderate priced tire all the value that can be built into it.

Every USCO Tire carries the standard warranty. And they cost no more—in many cases, less—than tires of unknown origin and doubtful value that you may be offered as "bargains."
