Every citizen of Montpelier, France, claims that he is entitled to call himself baron. In 1537 the Baron de Caravette, who lived in Montpelier, bequeathed his title and estates to the city. Hence, it is argued, every child born in the city may adopt the title.

World's Record Golf Expected This Winter

The world may look forward toward January ninth as the day on which the greatest thirty-six holes of golf ever played will be turned in. The golf will be played by the winner of the Los Angeles \$10,000 open championship and will be to the credit of George Von Elm or of the man who beats him.

Von Elm is only in his middle twenties. And although he has never had the distinction of being a boy wonder he is within a few months of the age of Bobby Jones of Atlanta who has always had that title.

In winning the national amateur championship at Baltusrol Von Elm was one under even fours for thirty-five holes. He has a record of 63, that is nine under even fours, for eighteen holes at the Rancho Club in Los Angeles. And the Rancho Club course may be selected for the finals of the L. A. Open championship.

If it is the champion, who is still a youngster and whose game is getting better, will be playing in his first big tournament since winning the championship. He will be playing at home before his thousands of friends who have presented him with a magnificent sedan and who have otherwise crowned him king.

He will be pressed by one of the greatest fields of golfers ever put together. He will be driving with the narrow stance, and the full pivot—this is the altered style that helped him to the championship. He will be playing in perfect golfing weather for the records reveal January days in Los Angeles to be bright and sunny, with comparatively little wind and neither too hot nor too cold.

With the driving he did to win the amateur championship at Baltusrol his sixty-three at Rancho would have been more than likely a sixty-one. The man who beats Von Elm the day of the finals is likely to have in his record the greatest round ever turned in. Hundreds will be in the play. The prize is the richest in golf and it is played at a time when most of the golf courses of the United States are closed. This will permit scores of professionals to be in the Southland who have to remain at their home clubs at other seasons.

The Armenian earthquake has left 80,000 people homeless. Near East Relief needs \$1,000,000 to meet this emergency.

Expect Sixty Countries to Observe Golden Rule Sunday

MORE than sixty-nations throughout the civilized world are expected to join in the observance of International Golden Rule Sunday this year, according to Gordon L. Berry, Executive Secretary of the International Near East Association, under whose auspices the day will be celebrated.

Originally intended to promote peace and better understanding throughout the world and to attract world wide attention to the situation in the Near East, where American and foreign philanthropy are caring for an army of war orphans, the day this year will have the additional purpose of aiding victims of the earthquake in Armenia, a large number of them children now under the care of the American Near East Relief.

On Golden Rule Sunday people throughout the world are asked to serve in their homes the simple meal of a Near East Relief orphanage and then to contribute as generously as their means will permit to relief work and child welfare work in Bible Lands. The children thus cared for are being trained as apostles of a more peaceful world.

Reports submitted to Mr. Berry indicate that last year fifty-one nations joined in the observance of the day. Official sanction to the idea in this country was given by the endorsement of President Coolidge and abroad by rulers, statesmen, and diplomats.

The appeal for aid to children in Bible Lands has received a universal response in all civilized countries. Practical application of the Golden Rule is the sole purpose of the observance. Golden Rule Sunday will be celebrated everywhere as a day of self-sacrifice and kindly thoughts toward children in distant lands.
