

HUDSON Super-Six

They Do Turn to Admire

The Super-Six principle freed to the limit now admittedly excels any development thus far known. There is nothing with which to compare it in performance, stamina, safety and economy of operation.

Its seven beautiful new bodies share with its brilliant performance in the greatest reception of all Hudson history.

The man who thought a buggy was good enough

IN THE old days, a solid, conservative citizen might sniff and tell you he didn't read advertising.

He didn't think so much of the horseless carriage, either. The telephone was newfangled, and an insult to the United States mails.

As for radio, aeroplanes, wireless photography—if they had been born then, he probably would have thought them a bit immoral.

But he's changed. He's been educated. His point of view has been made broader and more modern. He has been civilized—by the automobile, the telephone, radio, advertising.

Every single one has opened up new paths for him, taught him new things. Advertising, especially. Advertising tells him the newest things to wear, the best things to eat. Advertising tells his wife how to make a home up to date and attractive. Advertising tells him the prices to pay for things he buys, saves him from the old-fashioned ways of doing business—helps him live well, keeps him modern.

Advertising can help you. The advertisements in this paper are here to tell you many things that make life more comfortable, more interesting, happier. Read them faithfully. They'll keep you abreast of the times. They'll prevent you from becoming the type of old foggy—who—sniff—doesn't read advertising.

Intense cold froze the mechanism of the whistle of the 20th Century Limited, westbound, from Springfield, Massachusetts, and the train made the fifty-four-mile run to Pittsfield with the whistle screeching continuously. Attempts to muffle it at Pittsfield proved useless and the locomotive plowed into the mountains with its whistle still howling.

Raid Conducted Here On Saturday

(From Page One)

that unless the local authorities here take immediate action, the State Police would make a raid on the places in question.

Mr. Schroll went to Manheim where he arranged for the services of Constable Rodgers and Trooper Ibbeston, of that place, and had two search warrants sworn out in the office of Squire D. C. Donner for searching the premises of Newpher Garber for liquor, gambling devices and evidence of keeping a disorderly house, and also the house of Irvin Zink, for the sale and possession of liquor and operation of gambling devices.

Both raids were made at one time, when Messrs. Schroll and Zerphey raided the place of Irvin Zink, where two quarts and a pint of liquor were seized and two slot machines. Constable Rodgers and Trooper Ibbeston, of Manheim, raided the place of Newpher Garber directly across the street, where a small quantity of liquor was seized and a number of men arrested for gambling. Among the men arrested were: John B. Gantz, colored; Albert Mooney and George Kersey Frank, of this place.

An affidavit was sworn out by one of the men, George Frank, to the effect that at various times during the past he purchased liquor at both Newpher Garber's residence and that of Irvin Zink.

The liquor and slot machines which were seized during the raid are now being held at the State Police barracks at Manheim.

Previous to the time of the raid, Irvin Kaylor, of town, was also deputized as an official by State Police at Manheim, and assisted the four officers. Numerous complaints have been handed to the Burgess of Mt. Joy regarding these places, but it was impossible for the officials to muster sufficient evidence for definite action until Saturday night.

At the hearing last evening the Zink case was continued and the Garber case was held over until Saturday evening at 6 P. M. Both men are still under bail.
