### The Anniversary Services In The U. B.

#### SAINT MARK'S CHURCH CELEBRATES THIRD YEAR OF DEDICATION OF FINE NEW AUDITORIUM

The congregation of St. Mark's Church of the United Brethren in Christ of this place celebrated their third anniversary of the dedication of their church auditorium last Sunday with appropriate services. The attendance was fine at both morning and evening services. Dr. S. C. Enck, conference superintendent of Harrisburg, was present all day and preached two inspiring sermons. These services are growing in interest and enthusiasm yearly. At this service the congregation is responding to an effort to reduce the indebtedness. The response this year was beyond the expectations of the Official Board, who had set the goal for the day at \$3500.00. At the close of the evening service, the total for the day amounted to \$3783.03. This is the only effort made and has proven very successful. The auditorium was erected in 1923-24 at a cost of \$5800.00 with a present indebtedness reported last Sunday at the opening of the service of \$23,200.00. Against this the cash and subscriptions last Sunday which amounted to \$3783.03 and will be paid during the year. At this rate it will be but a few years until this congregation will possess a property valued at almost \$100,000.00 free of debt. The members of this congregation are to be congratulated for their unity of effort and their splendid spirit of loyalty and sacrifice they display.

### A Large Fund For Our County Roads

#### STATE ALLOCATES \$170,558 HERE IF OUR COUNTY COMMISSIONERS WILL MATCH THAT SUM.

Under the State-aid appropriations for road construction and upkeep Lancaster county has been allocated the sum of \$170,558, the largest sum of any county in the State, the Secretary of Highways, announced Saturday. If matched by the county \$340,000 will be available for county roads. Under the provisions of a bill recently approved by Governor Fisher appropriations are made from the motor license fund in the sum of \$5,000,000 for State-aid construction. This appropriation is allocated to the several counties of the Commonwealth on a mileage basis. The amounts allocated the counties from the State-aid appropriation represent the State's money and when matched by the local authorities with a like amount will permit of construction being undertaken with a contract value of twice the amount of the allocation to each county. The Lancaster county commissioners failed to match the sums allocated in this manner by the State for the past several years. The money, if matched by the county, will be available for use in 2,688 miles of highways in this county.
