Base Ball Notes During the Week

MOUNT JOY WON GOOD GAME FROM ST. LUKE'S ON LOCAL DIAMOND SATURDAY AFTERNOON

The local team won a corking good game here Saturday afternoon from St. Luke's nine, of Lancaster, by a score of 8 to 3. A sixth inning rally netted the locals three runs and gave them the edge.

Zimmerman was in fine form and held the visitors safe when hits would have meant runs. He fanned twelve visiting stickmen.

The score:

Mt. Joy	r	h	o	a
Bigler, rf	1	2	1	0
Ellis, 2b	1	1	1	1
Showalter, cf	2	2	0	0
R. Myers, 1b	1	3	10	0
Alwine, c	0	0	12	0
Weaver, 3b	0	2	0	0
Derr, ss	0	1	0	3
Schneider, lf	0	1	3	0
Hefelfinger, if	0	0	0	0
Zimmerman, p	1	0	1	1
Totals	6	14	27	5

St. Luke's	r	h	o	a

Two base hits—R. Myers, 2. Home run—Reese. Base on balls—Off: Zimmerman 2, Garber 3, Reese 1. Struck out—By: Zimmerman 12, Garber 7, Reese 3. Hit by pitcher—By: Hefelfinger, C. Stetter. Umpires—Baymond, Topper.

Aviator's Story Old to Enoch and Elijah

An aviator who had broken the world's altitude record, but who had lost his life in the attempt, was sitting on a celestial corner telling a wide-eyed circle of friends of his exploits. He described at length the thrills and the crash which had brought about the end. A wing had broken, and he had gone jerkily down through space, wobbling like the Toonerville trolley, and had landed with a fatal crash in a city street. His words held his hearers spellbound, for it is not given every man to die an adventurous death, and as he talked on passersby stopped to join the crowd which had gathered around him. Finally the talker noticed two old men with long flowing beards moseying slowly up the street. They stopped to learn what the excitement was, shrugged their shoulders, smiled amusedly, and nodded.

"Who are these two old birds?" asked the aviator, somewhat chagrined.

"Why," replied a bystander, "don't you know them? That's Enoch and Elijah."—Louisville Courier-Journal.

One Form of Salute That Franklin Liked

"It was charming to see the empresses of Solon and Sophocles," wrote John Adams, present when Benjamin Franklin and Voltaire were introduced to each other at the French Academy of Sciences. After they were introduced they bowed and spoke, but there was no satisfaction among the audience; it expected something more, Adams wrote. Neither of the philosophers seemed to divine what was wished or expected, but they took each other by the hand awkwardly and stood there. But this was not enough; the clamor continued until the explanation came out—they were expected to embrace after the French fashion. The two thereupon embraced each other and kissed each other's cheeks and then the tumult subsided. Franklin, however, once said that the only really enjoyable fete tendered him by the French was the one where, as the apostle of liberty, he was honored by having the most beautiful of 300 women designated to place a wreath on his head and to give him two kisses.—Kansas City Times.

Train Climbing Vines

Climbing vines need training and careful attention every few days in their early stages. Such treatment is especially important with permanent hardy types.

New York is such a fast town a century plant has started blooming every forty-five years.

PAUL H. CHADWICK AWARDED MEDALS

Telephone Employe Receives Vail and Carnegie Medals for Saving Man's Life

Paul H. Chadwick, Engineering Department of the Bell Telephone Company of Pennsylvania, in Harrisburg, who was awarded a Theodore N. Vail medal recently for "noteworthy public service," has now been awarded a Carnegie medal for the same act which resulted in the saving of human life.

Mr. Chadwick, with Ashby Paul and C. J. Hammer, all telephone employes, was swimming in the Juniata River at Aqueduct, Pennsylvania, when the latter was seized with cramps. Paul went to Hammer's assistance, but did not reach him until he had gone down a second time. The drowning man secured a clutching hold on the other's neck, which the former was unable to break. After some struggle they both sank.

PAUL H. CHADWICK

Mr. Chadwick, who had been swimming some distance off, noticed the struggle and, realizing the seriousness of the situation, hastened to their aid. He arrived as they came to the surface. Swimming in back of Paul, he was able to break the hold on the other's neck. By this time the first man was unconscious and the second exhausted, and only by sustained and extreme effort was Mr. Chadwick able to keep them both afloat until they were pulled into a boat that came to the rescue.

Hammer, who had swallowed a great deal of water, was completely unconscious and Paul was in an exhausted condition so that it was necessary for Mr. Chadwick to direct and assist in their resuscitation, which was finally accomplished after appropriate first-aid treatment.

The coolness and courage throughout the emergency displayed by Mr. Chadwick and his expert knowledge of first-aid resulted in the saving of human life. The Vail Medal was presented recently to Mr. Chadwick by President Leonard H. Kinnard, of the Bell Telephone Company of Pennsylvania.

Mr. Paul was awarded a Carnegie Medal but did not receive the Vail Medal.

DOCTORS FIND NEW USE FOR TELEPHONE

Prescription Bureau Started by Pharmacist Proves Popular

A telephone service for the convenience of doctors and their patients has recently been devised and installed by a leading Philadelphia druggist.

It consists in the establishment of a so-called telephone prescription bureau by means of which a physician can telephone his prescriptions from the bedside, check them back over the telephone and have them delivered to the patient by messenger.

The plan eliminates much of the delay that often occurs between the writing of the prescription and the delivery of the medicine. There is frequently no one on the premises who can go to the drug store immediately after the physician writes the prescription and leaves. As a consequence the medicine cannot be used as soon as it should. The drug store equipped with such a bureau also makes this delay. Such a store also does a larger business and has a greater supply of drugs on hand, even those that are comparatively rare. For these reasons, the new plan now means fresh prescriptions, careful preparation and quick deliveries.

The idea of handling sales of this nature by telephone can be extended to include other businesses entering to the household. If the success with which the new department is meeting is any criterion of what other businesses may expect, a new door to greater sales is being opened to the merchant.

The Mt. Joy Bulletin costs only \$1.50 per year.

Educating The Motoring Public

VALUABLE INFORMATION FOR MOTORISTS FURNISHED THE BULLETIN BY LANCASTER AUTOMOBILE CLUB

The Lancaster Automobile Club is taking steps to make the highways of this section safer for motorists. A Safety Committee, whose duties will be to map out and put into effect road safety measures in Lancaster County, will be appointed by S. Edward Gable, president of the Club. The Committee will meet monthly and anyone, whether or not a member of the club, is urged to submit to the Auto Club headquarters, any suggestions regarding safety measures. Such suggestions will be given consideration by the committee. Through this system it is hoped to reduce materially the number of highway accidents.

Efforts are being continued by the Auto Club to have the Lancaster County Commissioners match the half million dollars in State funds allocated to the county this year for highway construction work. A committee headed by Dr. W. G. Hess, Holtwood, and including among its members I. Kunzelman, president of the Susquehanna River Road Association, conferred with the county commissioners this week and laid before them resolutions passed unanimously at the Quarryville and Bainbridge meetings of the Auto Club calling on the county officials to match all State funds available for road construction.

Steps are being taken by the Automobile Club to bring about the freeing from toll in the near future of the Fruitville Pike. Contention proceedings against the turnpike will be sponsored by the club.

The Automobile Club, now has nearly 7,500 members, 243 more having been admitted at the June meeting at Bainbridge. A number of other applications for membership have come in this week and will be passed on at the next meeting of the Club, which will be held at Lititz on Friday, July 15.

40 PLANTS CLOSED IN SOFT DRINKS CLEAN-UP

Forty soft drinks bottling plants have been closed in Pennsylvania during the past year because they could not meet the requirements of the new beverage law enacted at the 1925 session of the Legislature, states Dr. James W. Kellogg, director and chief chemist, Bureau of Foods and Chemistery, State Department of Agriculture. As a result no soft drinks made now being bottled in the State in cellars, stables or other insanitary buildings.

"The sanitary provisions of the law have been put into effect in such a manner that the public health has been protected more effectively because most plants have installed not only complete bottling washing equipment, but have screened the syrup rooms, cleaned up generally, made provisions for properly cleansing apparatus as well as bottles and greatly improving the quality of their products," states Dr. Kellogg, in making a report of the enforcement of the law since becoming effective a year ago.

"The sugar requirements of at least eight per cent pure cane sugar prevents a drink being put out which is largely water, colored with artificial colors and flavors and containing no food value. The agents in their work have also given special attention to the water supply in order to insure that no contamination will arise from this source.

Work Potatoes Early

Most important of all cultivation crop. The ridge left by the planter is the first working of the potato should be leveled with the harrow and the field should be harrowed several times between a week after planting and when the potatoes are large enough to cultivate. Where the soil is loose the weeder may do the work but where rain has packed the soil the spike-tooth harrow is the implement to use. This early working when thoroughly done will eliminate the need of a hoe for the remainder of the season.

Take Care of Flock

Provide roosts for chicks at three weeks of age. Remove cockerels when eight weeks old or sooner. Clean brooder house twice a week and move it to a clean area. Keep liquid milk before the chicks or feed a mash containing 40 per cent dried milk.

A boil delayed in speaking engagement of Colonel Roosevelt. Boils, it has been pointed out, are not respecters of persons.
