Entered at the post office at Mount Joy as second-class mail matter.
The date of the expiration of your subscription follows the name on the label. We do not send receipts for subscription money received. Whenever you remit, see that you are given proper credit. We credit all subscriptions on the first of each month.
All correspondents must have their communications reach this office not later than Monday. Telephone news of importance between that time and 12 o'clock noon Wednesday. Changes for advertisements must positively reach this office not later than Monday night. New advertisements inserted if copy reaches us Tuesday night. Advertising rates on application.
The subscription lists of the Landisville Vigil, the Florin News and the Mount Joy Star and News, were merged with that of the Mount Joy Bulletin, which makes this paper's circulation about double that of the ordinary weekly.

EDITORIAL

THEY LOOK AROUND TO SEE
No one has yet found out why the driver of a slow moving vehicle on a country road will look back when he hears a signal that there is a faster vehicle coming from the rear, desiring to pass. One explanation was made the other day, the man explaining that perhaps the driver expected to see an elephant riding a velocipede when he looked around.

AH YES, BUT WHEN?
All lines of business will be benefited when people generally begin to save and invest the money they now throw away on useless, foolish indulgences. For when a man learns to save, to accumulate, to make sensible investments, he soon comes to have more money to spend in all worth while lines of business.

The man living within his income don't fear the advent of every bill collector in the town.

OPTIMISTS AND PESSIMISTS
Some one hath said the difference between an optimist and a pessimist is that an optimist sees the doughnut without the hole, and the pessimist sees not the doughnut but the hole. A pessimist is one who thinks the world owes him a living with interest but he doesn't know how to collect it. An optimist is a person who knows he owes more to the world than he can give in his allotted span, so he is trying to pay his debt to humanity. To which class do you belong?

BEING A PRESIDENT'S WIFE
Mrs. Coolidge is said to have counseled President Coolidge to retire from his office at the close of his present term. One can well see why she would feel that he would be wise not to undertake this tremendous strain for four years more.

And it must be a more onerous burden to be a president's wife. People who have seen Mrs. Coolidge recently think her face shows the strain of it. She, too, must carry on her shoulders the cares of the nation. She must act as a kind of social guide to the president, and help him over the many difficult places where a woman's tact and instinct are so helpful.

Mrs. Coolidge would not consider her own personal burden in asking the president to retire. She would be game to stand it if he could. But a woman in her position considers something beside personal and political ambition. The life and health of her husband are given to her keeping, and she feels that they have a right to be protected.

TWENTY YEAR'S HIGHWAY GROWTH

From 1904 to 1925 total highway mileage in this country was increased by 850,447 miles. From an expenditure standpoint, says the National Industrial Conference Board, it is even more significant that the surfaced mileage which represents proportionately larger expenditure per mile, was increased by 368,385 miles, showing that nearly one-half the increase in mileage was in surfaced roads.

During the first half of the period most of the improvement in roadways consisted in grading them with sand, clay, gravel and water-bound macadam. In 1904, only 1.7 per cent. of the improved roadways in that year had any kind of surface treatment, while in 1925, the proportion had risen to 10.2 per cent.

Practically no asphalt or cement roads had been laid up until 1914. In that year 500 miles of asphalt and over 2,000 miles of cement roads were built. By 1925, there were 11,000 miles of asphalt and 38,000 miles of cement-surfaced highways.

Hard surfacing of roads is progressing even more rapidly today. Modern road building machinery the availability of bituminous materials which give an enduring waterproof surface, means the improvement of thousands of miles of feeder road the paving of which was not even considered a few years ago.

PATRONIZE HOME PEOPLE
Some residents evidently do not realize to how great an extent they are hurting home trade by occasionally ordering goods from mail-order houses.

RHEEMS

The school directors of the West Donegal township set the day of August 29 as the opening day for their school for the 1927 term.

Abe Mummau, the Mt. Joy township stockman, received two carloads of holstein cows and heifers for his 100 acre farm which he has converted into grazing land.

Messrs. Elmer R. Kraybill, Phares Heisey, Clarence Kraybill, and Jacob Heisey prominent farmers, spent one day last week on the Chesapeake Bay catching fifty pounds of Sea Bass, the largest weighed two pounds.

The Church of the Brethren held their regular Sunday morning services after Sunday School with Jacob Williams, Supt., the attendance was fair with the following ministers on the bench, Kaylor, Shearer, Butterbaugh, Eshelman, Brubaker, Weaver and Haus.

The potato field belonging to Charles Riedorf is attracting the farmers from a distance, he planted 125 bushel certified Russett seed potatoes sprayed six times, cultivated six times eliminating the grass. Potato stalks are green and yield for this section.

Church of the Brethren Sunday School at Rheems held their annual Children's day exercises last Sunday afternoon with an interesting program consisting of recitations and music; Mrs. Elmer Hoover conducted the song service. Revs. Weaver and Haus entertained the Children, and the large audience for thirty minutes.

Mr. and Mrs. Reuben G. Kauffman, from East Petersburg, Mr. and Mrs. Elam Stauffer from near Sporting Hill, Mr. William Moutbaker and daughter, Ruth from Mountainview, N. J., Mr. and Mrs. A. S. Bard, and son Russel K. Bard spent last Monday afternoon at the home of Mr. and Mrs. Elias E. Risser, Notary Public at Lawn, Pa.

Quite a number of farmers who used certified seed wheat last fall find a ready sale for their wheat at an advanced price thereby enjoying a large yield and more money than their neighbor. The majority of the fields are plowed and harrowed, years of experience has taught that early plowing and frequent cultivation makes the proper foundation for sowing wheat, producing good yields of 30 to 35 bushel per acre where the ancient method would only produce 20 to 25 bushel per acre requiring more seed wheat.

IRONVILLE

Mr. and Mrs. Howard Habecker attended the funeral of Mrs. Leah Habecker, a sister-in-law of Mr. Habecker, on Thursday held at Birdsboro.

On Sunday evening at 5:30 the Young People's Division of District No. 3, held a hillside service in the Ironville Band Park. The speaker was John Fox, of Ironville.

On Wednesday evening at the home of Mrs. Edna Forrey the young ladies' church school class of the U. B. church called the Orange Blossom class held their monthly meeting.

Mrs. Fannie Sadtler and son, Billie, and daughter, Elizabeth, Mrs. Castle and children, Vernon and Douglas, of Baltimore, were visiting several days at the home of Mr. and Mrs. William Miller.

The following services will be held in the U. B. church on Sunday, Sunday School at 9:30. Christian Endeavor at 7:00. The topic was about nature so the society met on the Church lawn. The young people had charge of the services and a special program was arranged.

Mr. and Mrs. Willis Kreider, of Lancaster, R. D., Mr. and Mrs. C. K. Brooks and children, Ray and Clara, of Lyndon, Mr. and Mrs. Albert Harman and daughter, of Centerville, and Mrs. Miller and daughter, Marie, of Columbia, were entertained at the home of Mr. and Mrs. Lloyd Kauffman.

SPORTING HILL

Prayer meeting will be held at the home of Samuel Faus, on Wednesday evening.

Mrs. Lizzie Kauffman, Mrs. Theida Summy, Mrs. Harvey and son, Gordon, visited relatives at Allentown.

Miss Mary Rohrer entertained Misses Ethel and Ella Metzler, Kathryn Snyder, Esther Weidman, Ellen Bucher and Emma Nissley, all of near Manheim.

Mr. and Mrs. Ed. Grube and family, of Landisville, and Mr. and Mrs. Clarence Shelley and daughter of Lancaster, spent a day in the home of Elmer Kauffman.

Mr. and Mrs. Roland Gibbs entertained Mr. and Mrs. Harry Gibbs and daughter Viola, of Lebanon; Mr. and Mrs. Charles Heller and son, Walter, of Lancaster.

It has been found that blight-killed chestnut is being largely replaced naturally by oak, red oak, white oak, chestnut oak, black oak, or scarlet oak.

lar house, yet it is safe to say that the sum is only a few dollars.

The \$2.98 you send away today is not much in itself, but when it is pooled with hundreds of other like amounts it makes a substantial sum. That \$2.98 or 69 cents, or however small the amount may be, is a very important matter in every mail-order house. The small sums form by far the greatest part of the millions of dollars of mail order business done in this country every year.

So spend your \$2.98's with local merchants. If you do that you will not only be helping them but yourself by keeping more money in circulation here. If you spend your \$2.98 here you will stand a chance of getting a part of it back some day, but if you send it away the entire sum is taken out of local circulation.

FARMERS ARE LOSING \$1,000,000 A MONTH

Dairy farmers of the New York Milk Shed are sustaining a loss at the rate of \$1,000,000 a month because of the blocking by the Sheffield Farms Company of the attempt by the Dairymen's League Cooperative Association, Inc., to raise milk prices 42 cents per 100 pounds.

This was the trade conclusion today when it was revealed by the Dairymen's League Cooperative Association, Inc., that it has not been able to put into effect the price increase on Class One Milk of 42 cents per 100 pounds announced last week as effective August 15.

Milk dealers buying from the League, says the statement, were willing to accept the increase, recognizing that it was justified by high production costs and that such a raise would tend to increase production so as to furnish adequate supplies to the cities during the coming short production months.

To the surprise of all branches of the industry in New York City, including the consumers, Sheffield Farms Company, a unit of National Dairy Products Corporation, refused to raise the price. Therefore it became necessary for the Dairymen's League to postpone the date on which such raise in price should be made, as, of course, dealers buying from the League could not be asked to pay 42 cents per 100 pounds more for milk than does their principal competitor.

Sheffield Farms Company has urged expansion of the New York Milk Shed, insisting that there would not be enough milk to supply the needs this fall. In some quarters the view is held that the refusal to raise prices now may be a move to force such expansion. As a division of National Dairy Products Corporation it might be possible for Sheffield to get supplies from other divisions at lower prices.

In refusing to raise the prices the Sheffield Company has struck a pocketbook blow to all dairy farmers of the New York Milk Shed. Some hold to the opinion that this move may be directed against the movement rapidly gaining headway among producers to bring about one united farmers' organization.

The Unity Dairymen's Association, built from the ruins of the old Non Pooling Dairymen's Cooperative Association, lined up with the Sheffield interests in blocking the price raise. John J. Dillon, farm paper publisher, Truman Cole and C. W. Newton of the Unity Association, appeared before the New York Milk Conference Board, it is reported, and stated that there should not be a raise in milk prices until October.

AVERAGE HAUL OF LUMBER INCREASING

The average rail haul of lumber from place of manufacture to the place of use has practically doubled in the United States in 10 years, according to the Forest Service, United States Department of Agriculture. Estimates for 1924 placed it at 725 miles, whereas in 1914 estimate put it at only 360 miles.

Inbound lumber to the Northeastern States travels an average distance over the railroad of 840 miles to the Lake States, 910 miles; and to the Central States, 1,515 miles. This does not take into account the large amounts of lumber that come by water through the Panama Canal from the Pacific Northwest to the Atlantic Coast.

The Northeastern, Central, and Lake States were once great lumber-producing regions, but are now producing only a small fraction of their lumber needs, necessitating the bringing in of lumber from great distances. Better and more widespread practice of forestry on farm woodlands and the reforestation and protection of idle, cut-over and burned-over lands in these States, says the Forest Service, will reduce this necessity in time, as they are still potentially large lumber producers.

SCRUB BULL LOWERS HERD RECORD TO "GOAT" LEVEL

In many of our dairy herds to day culling should begin with the elimination of the sire, says Dr. J. C. McDowell, of the Bureau of Dairy Industry, United States Department of Agriculture. Breeding to inferior bulls may pull production down as fast as the culling of low-producing cows builds it up.

Doctor McDowell tells of one herd in which a scrub cow produced 146.8 pounds of butterfat in a year. Her daughter, sired by a scrub bull, produced 126.3 pounds, and the granddaughter, sired by the same scrub bull, produced 99.7 pounds, hardly as much as the world's record for a goat.

The owner finally woke up, sold the scrub bull to the butcher, and purchased a good registered bull.

On July 1 a total of 17,600,350 cattle in the United States were under supervision for the eradication of bovine tuberculosis. Besides this number, considerably more than 4,000,000 cattle are on waiting lists and will be tested as soon as the Federal, State, and county veterinary inspectors complete other work for those owners who signed up earlier for tuberculin testing.

Florin Community Sale
The next Community Sale at the Florin Hall, Florin, Pa., will be held Friday, September 2, at 6:30 o'clock P. M. They will sell live stock, implements, household goods, etc. Don't forget the time and date. Aug. 24-27

Denver, in the east end of the county will get a \$350,000 hosiery mill to be in operation by Nov. 1st.

TUESDAY, SEPT. 13, 1927
The undersigned will sell at public sale, his farm of 24 acres of land nicely located along the road

This Greatest ESSEX Super-Six

Long foreshadowed by famous ESSEX achievements

The ideal transportation attained in this Greatest Essex Super-Six was long foreshadowed in the series of individual supremacies by which Essex leadership towered mountain high above the field.

Today's Essex, like Hudson, has an exclusive high-compression, anti-knock motor that, using ordinary gasoline, turns waste heat to power. These motors are the most powerful and efficient in the world per cubic inch of piston displacement, within our knowledge.
