State Protects Smaller Game

(From Page One) many thoughtless hunters, the game authorities changed the seasons so that there would be no overlapping at all.

Rabbits may be shot from November 1 to November 30, both dates inclusive. A year ago cottontails could be taken until December 15. That was when the rabbit season continued into the deer season. Now the deer season is open from December 1 to 15, instead of November 10 to December 15.

\$100,000,000 Spent by Scotch Women for Bobs Glasgow—Close to \$100,000,000 a year is spent by women and girls on bobbing and shingling in Scotland, according to James Stewart, the "hairdresser" M. P. for St. Hellex, and as a consequence, he says, a new occupation has been started which employs many thousands of men and women.

"I am sure women will not return to the long hair fashion, because the present mode is so comfortable and hygienic," he went on. "Shingling is as popular with the women of the mining villages as it is with the women of Mayfair."

In England the cost of treatment of the hair varies from 35 cents in the working class village to \$125 in the fashionable salons of London. Some rich women think \$25 to \$125 quite normal expenditure for hair treatment at one session, but such extravagance is abnormal.

"The average woman probably spends about \$6 to \$8 a year on haircuts," Stewart concluded, "which compares favorably with the expense of the average man on shaving, haircuts, and shampoos."

Temple Yields Facts About Ancient Mexico Mexico City.—A sumptuous chamber, the walls of which are covered with fresco paintings, said to be very similar to those found in the prehistoric temple of horticulture in the archeological city of San Juan Teotihuacan in the Valley of Mexico, is reported to have been discovered in the Maya ruins at Chichen Itza, Yucatan, by Dr. Sylvanus G. Morley, in charge of archeological investigations in Yucatan under the auspices of the Carnegie Institution of Washington, D. C., and the Mexican government.

The frescoes are said to be marvelously preserved and it is expected that when the picture writings are finally deciphered by scientists much new light will be shed on the history of Maya civilization.

Doctor Morley announced to the Mexican government that his work of exploration has been stopped for the year, because of the intense heat.

"Gate-Crasher" Fails London.—Chagrined over what he said was his first defeat in thirty years of "gate-crashing" in America, Canada and Australia, "One-Eyed" Connolly was sent back to the United States.

Under Vienna's 'Spigot' tax plan each home or apartment is allowed one water faucet free of tax. Since with every additional outlet the duties rise apace, installation of hot and cold water in both kitchen and bathroom is a distinct luxury.

Parasol ants derive their name from the fact that they cut large pieces out of leaves for making nests and then march along carrying the pieces over their heads like umbrellas.

Whites or yolks of eggs may be used instead of whole eggs in making fancy white or yellow cakes, or as an economy in using up parts of eggs left over. For most purposes two whites or two yolks may be considered roughly the equivalent of one egg. When yolks alone are used a little extra baking powder is sometimes needed.

The man who thought a buggy was good enough

IN THE old days, a solid, conservative citizen might sniff and tell you he didn't read advertising.

He didn't think so much of the horseless carriage, either. The telephone was newfangled, and an insult to the United States mails.

As for radio, aeroplanes, wireless photography—if they had been born then, he probably would have thought them a bit immoral.

But he's changed. He's been educated. His point of view has been made broader and more modern. He has been civilized—by the automobile, the telephone, radio, advertising.

Every single one has opened up new paths for him, taught him new things. Advertising, especially. Advertising tells him the newest things to wear, the best things to eat. Advertising tells his wife how to make a home up to date and attractive. Advertising tells him the prices to pay for things he buys, saves him from the old-fashioned ways of doing business—helps him live well, keeps him modern.

Advertising can help you. The advertisements in this paper are here to tell you many things that make life more comfortable, more interesting, happier. Read them faithfully. They'll keep you abreast of the times. They'll prevent you from becoming the type of old fogy—who—sniff—doesn't read advertising.

Mount Joy Bulletin Advertising is the key to modernity
