CORRECT INFORMATION FUR-NISHED WEEKLY BY THE PENNA. BUREAU OF MARKETS FOR THE BULLETIN

Beets and carrots from nearby Pennsylvania and New Jersey farms were dull on the Philadelphia market today and sold at lower prices. Dealers believe that the lack of demand is due chiefly to the competition of fresh bunched stock from Florida and Texas. Nearby beets sold at .40 to .60 per 5-8 basket and carrots at .40 to .65, according to the Pennsylvania and Federal Bureau of Markets.

Track holding of potatoes at the six large Eastern markets and at Chicago totaled 760 cars or about 90 cars less than the previous day. This is not an entirely accurate guide as to the quantity of potatoes offered in the consuming markets since a part of the cars are partly unloaded. It does, however, show that there has been no accumulation of supplies. The fartzaela. markets were generally steady to dull with slow trading. WEEKLY LETTER WRITTEN EX-PRESSLY FOR THE BULLETIN BY DR. DAVID H. REEDER

Wear A Gasmask: People that ive in the open in these days have much the advantage of the city dwellers especially the larger cities. I presume that a vast number of people from the country and smaller towns have noticed the irritated condition of the throat whenever they visit the downtown district of large city.

Personally I have noticed this condition in myself and many of my patients for the past 15 years. It is growing worse instead of better altho the great majority of the city dwellers are becoming im-

### STATES PIKES RUMOR ON NEW FORD BRAKES

The rumor that licenses are not automobiles was declared false today at the Office of the State According to the rumor, the system of brakes on the car does not meet the requirements of the new State Motor Code.

It was stated at the office of the Highway Department that manufac- | 8 turers of all makes of cars have been asked for information con-cerning brakes. Tests of the brakes may be made later, it is said.

Under the new motor code the Secretary of Highways is empowered to refuse to issue licenses to automobiles that do not meet the State requirements as to brakes.
