Your Leaky Faucets
Hard-fiber-composition washers one-eighth to three-sixteenths inch thick cost about 10 cents a dozen and should be kept on hand for replacement in vibrating or leaking faucets. These are in general use and are suitable for either hot or cold water. If none are at hand, a temporary washer may be cut from a piece of leather, rubber, or sheet packing. Leather is preferable on cold-water faucets and rubber on hot-water faucets.

For the sake of economy many couples in a workmen's quarter in France are married en masse. They assemble every Saturday, line up and the principals and witnesses sign the register as they pass into the big 'wedding salon' of the city hall.

If we adults are a sample of what spanking will do in forming character, perhaps it's just as well that parents no longer do it.

Regular Meeting Of Boro Council

(From Page One)
Mr. Miller also recommended that the street north of the new High school building should be vacated and made satisfactory to the residents in that vicinity. The chair referred this matter to the Street committee to investigate and report.

Mr. Miller reported South Market street almost graded and that it will soon be ready for stone. Also rubbish hauled, streets and crossings cleared of snow.

Also that all the bridge approaches in town are in need of repairs. The secretary was instructed to notify the P. R. R. supervisor to make these repairs as well as the culvert on Longenecker road.

Water Committee
Mr. Hawthorne reported everything about the water works in good shape and that some minor repairs were made during month.

Finance Committee
Mr. Hawthorne reported the approval of all the bills to the amount of \$388.74, all of which were paid.

Light Committee
Mr. Arntz reported that the motor which operates our traffic lights was replaced by a new one. Mr. Miller reported the new light recently ordered on Comfort Alley at the P. R. R. old line, now in position.

Pumping Engineer
Pumping Engineer Geo. W. Shatz reported having pumped 390,000 gallons of water in 13 hours by steam and 3,610,000 in 361 hours by water power, a total of 4,000,000 gallons during the month of January.

Chief Pennell asked Council to find a place in which to house the Fire Company's hook and ladder truck. Chairman Murphy referred the matter to the Property committee.

Board of Health
Secretary M. M. Leib presented the following report:

During 1927 30 deaths occurred in Mount Joy, 15 males and 15 females. The oldest man to die in the town was aged 83; two were 80; one 79, one 74, one 72, and one 71. The oldest woman was 90; one 79, three 78, one 71 and two 70.

Five deaths were caused by pneumonia, two by anaplexy, one by cancer and one by tuberculosis. Forty-one births occurred in Mt. Joy during 1927; 23 males and 18 females. In addition to these births and deaths, a few, belonging to this town, occur in Lancaster hospitals, but this Board has no record of them.

During 1927 two families were dependent on the town during sickness. One bill was \$31.41 and the other \$28.07.

In the restaurant hygiene survey 23 places were visited and all furnished health certificates, 59 in number.

38 cases were quarantined during last year: 18 for chicken pox, 10 for scarlet fever, five for whooping cough, three for pneumonia, one for diphtheria and one for measles. In 1926, 86 cases were quarantined.

During the year four nuisances were reported to the Board and abated and the water supply source patrolled as usual.

The Board makes 60 regular reports to Harrisburg and 60 to Lancaster each year, and about 25 special reports to Harrisburg in addition. It furnishes a list of all babies to the baby clinic and burial permits for all people who die in the town.

During the month of January, 1928, six cases of chicken pox and one of measles were quarantined.

Constable Zerphoy's Report
Policeman Elmer Zerphoy reported 10 arrests for traffic violations, 1 drunk, 1 vagrancy and 61 night lodgers during January. Also that many autoists deliberately run thru our traffic lights on red and that they should have a motorcycle if Council wants these violators brought to justice.

Upon motion of Mr. Miller the chair was asked to appoint a committee to get prices on new and used motorcycles and report at the next regular meeting of Council. President Murphy appointed S. H. Miller, H. F. Hawthorne and H. B. Arntz.

Treasurer's Report
The report of H. N. Nissley, treasurer, was as follows: Balances in the three accounts: Boro, \$2,762.36; Water, \$2,326.29; Interest, \$76.00.

His Bond Approved
The bond of H. N. Nissley to the amount of \$20,000, with Messrs. H. S. Newcomer and J. E. Longenecker as sureties, was received and accepted.

Will Share Repairs
The State Highway Department asked Council sign and return an agreement whereby the boro will pay one-tenth of the expense of repairing that portion of Donegal Springs road which is within the boro. The estimated expense to the boro is \$150.50. Same was ordered.

A New Committee
Chairman Murphy stated that he felt as though this town should have what is known as a Public Welfare Committee, whose duty it would be to take care of all complaints such as are detrimental to the welfare of our citizens. He then appointed Messrs. H. B. Arntz, H. F. Hawthorne and W. L. Eschleman.

For the Interest Account
Upon motion \$1,000 was then transferred from the Water to the Interest account for the purpose of paying off coupons. Council then adjourned.

Two of Mrs. Brady's daughters died within the past year. She lived in Mount Joy the greater part

Educating The Motoring Public

The greatest precaution should be exercised by motorists in areas where coasting is being indulged in by youngsters, says the weekly bulletin of the Lancaster Automobile Club. "In their zeal for the pleasures of coasting the children forget that this sport is fraught with many dangers and it is up to the motorists, to municipal authorities and to parents and teachers to help guard against accidents," the Auto Club bulletin states.

"Constant alertness on the motorist's part is essential," says S. Edward Gable, president of the Lancaster Automobile Club. "Even the most vigilant parental and police control cannot prevent a child with a sled from regarding almost every hill as open territory for coasting. It is easy to lose sight of the fact that a rapidly moving sled is one of the most difficult conveyances to control. Once started, a sled carries its occupants almost where it will, and it frequently happens that this leads into the path of an automobile.

Travel Sometime Road We Must All

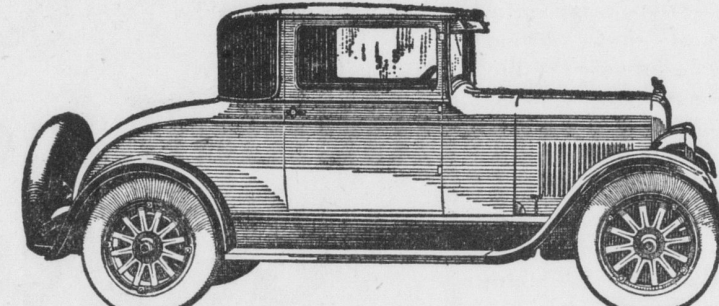

"Perhaps a child has no right to be where he is with a sled, but when he is there none can deny the fact that it is important for the motorist to be on guard and see to it that no accident occur. Parents, too, and also teachers, can do a great deal to prevent coasting accidents if they will impress upon children the dangers of this sport on streets and highways used by automobiles. Every gift of a sled should be accompanied by the definite caution that its use is restricted to location where there is no motor traffic.

"If simple precaution is taken by all concerned the dangers of winter's greatest traffic hazard will be greatly reduced."
