CHESTERFIELD CIGARETTES

WE STATE it as our honest belief that the tobaccos used in Chesterfield cigarettes are of finer quality and hence of better taste than in any other cigarette at the price.

 sler and not noticing the rear car, started up the pike. He however, learned he was dragging something when the Chevy ran into a tree.

Car On R. R. Tracks
 A strange man and lady had a very narrow escape in town Saturday night. While the crossing at Wolgemuth's Mill was being relaid, traffic was directed one block west of the passenger station. A stranger, about to cross the tracks there, made a mistake and turned down the west bound track thinking it was the road. When he discovered his error he had gone so far that he couldn't get back. Railroad employes flagged west bound traffic and with the assistance of several men the auto was pushed down the track to the crossing at Dyer's stable.

Famous Painting
 The painting of "The Last Supper" by Leonardo da Vinci is recognized as one of the world's masterpieces. It was originally painted by order of the duke of Milan on the walls of the Dominican convent of the Madonna del Grazi. The picture is now in a state of decay, but several very fine copies have been made. One of them, at the Royal Academy in London, is considered worthy representative of the original. The "Mona Lisa" of the same painter, now in the Louvre, is also rated among the greatest paintings.

Ever Notice the Back of Your Neck?

YOU can't tell how badly you need a hair cut just by looking in the mirror (frontal)! It's the back of your head that tells the story. That's why we say: "If you saw the back of your neck as often as the rest of the world does, you'd never forget that haircut every ten days."

And here's a tip—the next time you get a haircut in our super-service shop, ask for an application of Frick's La Foma hair-dressing cream. We know of nothing so excellent for training the hair to lie smooth and nothing else which increases its gloss so amazingly. How about doing it today?
