EDITORIAL

A "GRAND OLD MAN" PASSES
America's "Grand Old Man" is dead; and never overcrowded ranks of those who really know how to get the utmost out of life are depleted by the passing of Chauncey M. Depew.

There was a man who made speeches for Lincoln, but who had come over into our day with a viewpoint at 93 years of age that held to shame that of many men but half that age. Depew was a man old only in body; his spirit was as young as the new day and as its contributions to the happiness of mankind.
Chauncey Depew was an old man in whose companionship young men delighted. That is about as fine a tribute as can be paid one whose age approached the century mark.

THRIFT DEFINED

Thrift should not be confused with miserliness. Thrift is merely the valuable quality of being able to spend money wisely and well, not foolishly. Wise investments make for sound business, and greater business. Wise spending makes for better products in all lines, and increased profits. The miser is one who dislikes spending money no matter how worthy. He is one of the greatest enemies of progress.
The amount of money that is hidden in a sock under the floorboard, or buried in the back yard is growing less. Instead, it is deposited in banks and circulating in order to produce many times its face value.

EXPLOITS WITH THE RAKE

April is a month that calls on the citizens to get out with their rakes and give the long hair of the home grounds the combing that it needs. Raking up the yard is a very useful and cheerful exercise, and many citizens would be worthier residents of their home town if they used this implement with more vigor about now.

EVERYBODY BENEFITS

The proposition of "trading at home" has been too often construed for the help of the merchant alone. There is no great economic fallacy. The merchant may gain the first or primary benefit; the result may show up first in his own cash register; but by no means is the "business man" the sole heir of local patronage. We are all "business" people. It is a broad term, and includes those who toll or add anything to the total of human welfare.

THE COLUMBIA BRIDGE

The cobwebs of opposition to the needed bridge between Columbia and Wrightsville have been removed and there is nothing to hinder an orderly procedure to get the work under way.
The financing of public utilities has been mostly done, if not by direct orders, thru methods dictated by the high priests of the money oligarchs of Wall Street instead of in the interests of the common people, as Abraham Lincoln would do if he were guiding the ship of State in these days. We can judge what he would do by the things he did when President and in his earlier life. His heart was for human welfare and as he freed chattel slaves he would not sanction economic bondage for present and coming generations just as little as he would consent to pay the Shylock holders of gold 35 per cent interest during the crisis in the Civil War. Then he issued the greenbacks, which saved the Union and for a short time defeated the schemes of the profiteers.

FACTORY SITES

The estimates for the bridge are placed at \$3,000,000, and Lancaster and York county are each to raise half the sum, \$1,500,000.
The constitutional way (U. S. Constitution) and that used by Lincoln, during the Civil War, would be for the Secretary of the Treasury to issue to each county \$1,500,000 in legal tender money, take bonds of the counties as security for that amount and let them repay it in installments until the full amount is returned to the treasury, when the bonds would be returned and the bridge freed from toll the same as the highway. By that method a lower toll charge could be established, or, if the higher rate were charged, it could sooner be made a free bridge.

Investing in your home town is like getting a compound interest, with the privilege of cashing in on the principal. It may not be possible to supply every need at home but a good policy is to try "home" first.
