Council Convened Monday Evening

(From Page One) was regulated several years ago by a motion.

Mr. John M. Rice, a Pittsburgh attorney, asked to represent council in objecting to the proposed increase in rates of the Columbia Telephone Co. No action. Garmon-Staley Co., engineers, made a proposition whereby they would be willing to settle their claim against the boro for sixty percent of the amount. The bill they presented was \$1,148.42 and they are willing to accept \$689.00. They claim the amount is due them for drawing the plans for a filtration plant which was never built. The boro has an agreement that they are to be paid seven percent of the cost price after the plant is built. The matter was referred to the Solicitor.

The Burgess reported having collected \$29.00 for license fees during May.

Mr. Miller, of the Street committee, reported that the Solicitor claims the boro is not responsible for damages to Mr. Tony Wartsa's car when he backed out of his garage. Also that grading on Lumber street was nearly completed.

Mr. Hawthorne, of the Water committee, reported race and subside cleaned, plugs flushed, water main laid on Lumber street and six taps made thereto. He also recommended cleaning the reservoir. Chairman Murphy referred this to the Water committee.

Mr. Hawthorne, of the Finance committee, reported the approval of all bills and that the committee met tax collector James Metzler and exonerated him from collecting taxes to the amount of \$72.00.

Mr. Miller, of the Ordinance committee, reported progress.

Mr. Althouse, of the Property committee, reported having awarded the contract for painting and papering the residence of Mr. Geo. W. Shatz to Mr. Chas. Wealand because he was the lowest bidder. He also reported progress on the carpenter work at the same place.

Mr. Witmer, of the Light committee, reported motor which operates traffic lights, out of commission a few days but same was properly repaired. Reported favorable on new light at Mrs. Zerphey's. There was some trouble about lights being out but same will be improved.

Mr. Miller suggested that council should install electric lights in the pumping station and dwelling at the Water Works and that a new line will be erected passing this point. This suggestion met with the approval of council.

Collector of Water rents Jacob H. Zeller reported that there are still a few delinquent water renters and that same should be paid at once.

Pumping Engineer Geo. W. Shatz reported having pumped 4,580,000 gallons of water in 449 hours by water and 3 hours by steam power during the month of May.

Secretary M. M. Leib, of the Board of Health, reported eight cases of mumps, one nuisance and the restaurant hygiene survey in the boro completed.

Officer Elmer Zerphey reported 15 traffic violations during May. Also several arrests for other minor charges and that he traveled 950 miles about town last month.

The treasurer's report was as follows: Balances, Boro, \$2,911.55; Water, \$2,550.30; Interest, \$558.00. Bids were then opened on a car-load of oil for street work and were as follows:

Atlantic Refining Co., Class C oil, 8.67c per gal. f.o.b. cars Mount Joy.

Good Roads Co., Pila, Texaco, 7.02c to 9.2c per gal. delivered. Schock Independent Oil Co., 7.09c to 7.68c per gal. delivered.

The first two firms quoted on the same oil used by the State Highway Dept. and upon motion the order was placed with the Atlantic Refining Co.

The Bond of Tax collector Metzler to the amount of \$25,000 was presented and accepted.

Bills were then paid to the amount of \$1,054.56 and council adjourned.

FORMER LOCAL RESIDENT HAS SEVERAL RARE COVERS

Witmer Eberle, of Camp Hill, and a former resident of this town, is the proud possessor of several first day Valley Forge covers which any stamp collector would like to have. He has received a first day cover from Valley Forge by Air Mail sent to Boston, Mass., two other ones from Valley Forge, by regular mail, and one from Lancaster, which has six different varieties of U. S. two-cent stamps on it. It has a Sesqui-Centennial, a Lexington-Concord, a Vermont Sesqui-centennial, a Saratoga stamp, a White Plans Commemorative, a Valley Forge, and is on a government printed envelope which was issued during the Sesqui-Centennial exposition at Philadelphia. Mr. Eberle has quite a collection of stamps which he gathered the most of while residing in this town. The envelope was given special mention in a front page story in a Lancaster paper. Mr. Eberle also has the three plate numbers of the stamps issued at Lancaster. They are 19494, 19493, and 19495.

BOUGHT HIM HIS FIRST SUIT OF DRESS CLOTHES

The fifteenth President of United States, James Buchanan, whose statue has been placed in Buchanan Park at Lancaster, and was recently unveiled, is recalled by one of Mt. Joy's oldest citizens, Frank B. Groff, 73, of North Market St., who remembers distinctly that this Buchanan, bought him his first suit of dress clothes, when he was four years old.

It was during the time when his father, Jacob Groff, who was then known as Grove, was proprietor of The Washington House Hotel at Elizabethtown, that the former President stopped at the hotel.

Jacob Groff was a prominent Democrat of Lancaster county, and at the head of various Democratic organizations of the country at the time, as well as a very close and personal friend of "Jimmy" Buchanan, as he was known to the Groff family.

Buchanan often stated he wanted to present the lad with his first suit of dress clothes. This wish was granted by Frank's father, and Jimmy bought the suit which Frank Groff wore with great pride.

Auto Busses May Replace Trains

(From Page One) on Auto Bus Company applied for the right to render the same schedule service along this line with busses.

Two round-trips are made by a gasoline car each day on the Lebanon branch of the railroad at the present time running from Lebanon to Midway. Cornwall, Cold Spring, Mt. Gretna, Colebrook, Lawn, Bellaire to Conewago. The railroad proposed that this service be discontinued except in the summer, when a passenger car would be attached to a freight train which makes one trip a day, to accommodate the summer residents at Mt. Gretna. The railroad also stipulated that it would continue to run excursions to the summer resort and would transport the National Guard to their summer camp at Mt. Gretna, but that this would not be scheduled service. The bus company also petitioned for a certificate for operation between Lebanon and Elizabethtown. Should the certificate be granted persons going to Mt. Gretna will have to go either to Lebanon or Elizabethtown and board busses.

Her Dreadful Past

The Amazing True Story of a Girl Patricide

PERHAPS you recall reading in the newspapers the case of Gretchen, the girl who poisoned her father—and then, at her trial, refused to utter a word in her own defense. You read of her conviction and incarceration. There, apparently, the story ended. But really it was only the beginning of one of the most amazing human dramas ever enacted.

In prison Gretchen performed her duties in utter silence; notwithstanding interested her; she kept to herself—an outcast branded for life.

Then Mary Howard came to the prison to teach. Her heart went out to the little daughter of the slums. She tried, by kindness and encouragement, to make Gretchen feel that she was not a pariah but a girl like other girls.

At first Gretchen feared and distrusted her, but later with her head in the kindly teacher's lap, her body wracked with sobs, she told for the first time the dreadful story which had she told it to the jury, would probably have resulted in her acquittal.

The complete story of the events leading up to her dreadful crime, her trial, imprisonment, eventual parole, and the glorious success she is now making of her life, is entitled "Out of the Slums" and appears in July True Story Magazine—now on sale. Don't miss it!

The man who thought a buggy was good enough

IN THE old days, a solid, conservative citizen might sniff and tell you he didn't read advertising.

He didn't think so much of the horseless carriage, either. The telephone was newfangled, and an insult to the United States mails.

As for radio, aeroplanes, wireless photography—if they had been born then, he probably would have thought them a bit immoral.

But he's changed. He's been educated. His point of view has been broader and more modern. He has been civilized—by the automobile, the telephone, radio, advertising.

Every single one has opened up new paths for him, taught him new things. Advertising, especially. Advertising tells him the newest things to wear, the best things to eat. Advertising tells his wife how to make a home up to date and attractive. Advertising tells him the prices to pay for things he buys, saves him from the old-fashioned ways of doing business—helps him live well, keeps him modern.

Advertising can help you. The advertisements in this paper are here to tell you many things that make life more comfortable, more interesting, happier. Read them faithfully. They'll keep you abreast of the times. They'll prevent you from becoming the type of old foggy—who—sniff—doesn't read advertising.

Mount Joy Bulletin Advertising is the key to modernity
