Blisters, pain and sometimes temporary agony result One block of 3,088 acres pur- from such illogical impertinence,"

As an agency to develop vitality The second tract purchased com- it can be of great assistance pro-

der-nourished children, predisposed The third tract, 3,945 acres, is to tuberculosis, are now receiving much benefit from the sun at the State's sanatoriam but the effects of the rays is held properly in check. The good that is thus being accomplished for these frail young people can in a measure be made available for others who, while not actually ailing, need the sun's reconstructive power. A back yard, a bathing suit or less and intelligent direction are all that is required.

"More children than are suspected need just this sort of informal treatment during the vacation months. A recent survey indicates that many under-nourished and anaemic children are among Pennsylvania's child population. Bad living habits, including under-nourholding of their Third Annual Dairy ishment among the rich and poor Show at Mountain View Park, Mt. alike, are responsible for this uncases like this that the sun can do much good. However, the following rules must be carefully adhered to

1. Expose the body to the sun very gradually. Fifteen minutes should be the maximum for the first last year. One day will be devoted to judging of the 17 classes of grade and number of the infamiliar to day. Increase this daily until the skin is thoroughly tanned. In this grade and number of the maximum for the first day. Increase this daily until the skin is thoroughly tanned. In this

> the body (the more the better) are thoroughly pigmented let the sun work for an hour at least. During this time the children may occupy themselves with normal recreation. 3. The sun alone can not do the trick. It must be assisted by plenty of nourishing food and a minimum of appetite-destroying lux-

4. Infants should not be subected to this treatment except under the guidance of a physician. "The above formula is a simple, natural method of health development. If your small boy or girl does not go to a summer camp, bring some of the advantages of such a life into your own yard by putting the sun wisely to work. Tan the children into health!"

CIGARET OUTPUT DECLINES IN YEAR

Pennsylvania manufacturers turned out a total of 4,130,417,289 cigarets in 1927, according to compilations made by the bureau of statistics in the Pennsylvania Depart-ment of Internal Affairs. The production showed a falling off from 1926 when 4,660,357,890 were made by the various cigaret plants n the Commonwealth.

The value of Pennsylvania-made igarets in 1927 was \$17,854,706, while in 1926 the value was \$20,-027,400. The cigaret industry in 1927 gave employment to workers or sixteen less than during the preceeding year.

Wonderful Opportunity A young man started a garage in He was quite successful and shop, office, etc., with complete and modern equipment and accessories. Also a private garage, 21/2 story includes Chevrolet agency. er will walk out and new man in. Philadelphia - \$176,000 apart- Price very reasonable and good ment building will be constructed reason for sellng. If you want a nip.

ADVERTISING

Advertising and not competition is now the life of trade, according to the advertising experts who met to attend the International Advertising Association convention. The delegates at this meeting heard a number of interesting things. Among these was the statement by Charles Stelzle, New York expert, to the effect that if churches do not advertise their "ware"spiritual upbuilding and moral betterment for both the individual and humanity-they cannot hope to arouse interest among the masses and fulfill the obligations placed upon them as parties to the general spiritual movement.

Another speaker declared that "advertising is greater than any single moral force we know of today. Advertising brings about changes for the betterment of life itself, changes which fuse into the social and political life of the naion."

It is now generally admitted by economic forces everywhere that advertising is the most important development of modern business. And it is also coming to be realized that newspaper advertising is the best kind of paid publicity. In the convention just mentioned the delegates who were advertising experts, agreed that newspaper advertising affords the best publicity medium for the churches and all church activities.

Advertising is no longer a theory. It is a science. And it pays.
