**EDITORIAL**

Recently a man in Georgia lost his speech entirely while making an airplane trip and they say he is very sorry he can't get his wife persuaded to take the same trip.  
We know several fellows here would like to send their wives on similar trips.

**SAVE YOUR MONEY, BOYS**

The young man in this day who does not value his time and who does not save some of his money is making a bad start in life. He is headed toward failure and misery, to say the least of it. In many cases this course leads to crime and to prison.

**NEW INDUSTRIES**

The question is often asked, as to how new industries can be induced to establish themselves or move into a community like Mount Joy.

Those in authority say it is a difficult proposition, but with constant effort it can be done. It needs someone working steadily on that proposition, reading the newspapers and trade journals, sending circulars and letters to new concerns, or to old ones that show signs of expansion. Persistent canvassing along such lines will show results in time, but not many towns have been able to accomplish it without spending some money for such promotion work or offering plants inducements of some sort.

**LOCAL MEN HONORED**

Lancaster county Legionaires fared well at the annual convention of the state department of the American Legion in session at Uniontown.

Roy B. Sheetz, of this place, was named eastern vice commander over an opponent from Stroudsburg, and Daniel B. Strickler was elected as alternate on the national committee.

Both men are well and prominently known among ex-service men in Lancaster county and their election honors them and the posts they represent.

Several days ago many predicted that the delegates from this county would play important roles in the political caucuses at the state convention and they did.

**A LESSON FROM THIS PAIR**

That it is possible for friends to vote differently and remain friends is exemplified in the case of Henry Ford and Thomas A. Edison. The former says he is for Hitler, the latter just as strong for Smith. A good example for other friends to follow, and adhere to during this dangerous campaign. Everybody wants tolerance, and the present race for President furnishes an unequalled opportunity for everybody to test out his own tolerance, while measuring the other fellow's shortcomings along that line. Tolerance does not relate merely to religion; it relates to everything that divides people's thoughts and convictions. In politics, it is as desirable as in any other field.

**THE VALUE OF BICYCLING**

A New England man recently returned to his home after a 1,200-mile bicycle trip through New England and Quebec. Although the man is over 50, he made the long trip without difficulty, and came home to report that he had a fine time and improved his health.

Bicycling was once a craze. Now it has become a minor utility. Few people consider bicycle trips through the country any more. Wheels seem to be used only by children and messenger boys.

That is a pity. There is nothing that is much better for the body than bicycling, in moderation. It is a fine sport as well. It would be a good deal better off if the bicycle could return to some of its old-time popularity.

There are approximately 21,700 public high schools, 2,500 private high schools, 386 preparatory departments of colleges, and 125 secondary departments in teacher-training institutions. The teacher-training institutions number 402, of which number 101 are teachers colleges, 102 State normal schools, 27 city normal schools, 108 county normal schools and 64 private normal schools. The colleges of universities number 975, of which number 153 are junior colleges.

Republicans are saying that Al Smith lacks experience in national affairs, which, of course, would not seem to a Democrat nearly as serious as a lack of votes.

One reason bootlegging has been so successful is that, from the start, it has been conducted on a cash-and-carry basis.

We have more prosperity than ever before in our history. Its only fault is a disposition to bunched.

The Republican management promises to conduct the campaign on a high plane and without personalities. Nevertheless if Mr. Rasko is wise he will equip his candidate with a nice set of mudguards.

**THE BENEFITS OF HIGHWAYS**

Highways are an investment that pays real dividends and shows profits, according to Frank Page, the Chairman of the North Carolina Highway Commission. In a recent speech, he showed that benefits have come to that state from its fine roads.

As the first item, Mr. Page listed relief to towns and counties and savings to road users, through reducing wear and tear and losses.

Second, educational opportunities.

Third, the rapid, cheap and safe transportation of agricultural products.

Fourth, factories avoid congested centers and labor needs no tenements in town.

Fifth, increased accessibility of resorts and places of scenic interest.

Sixth, the appeal good highways make to potential residents.

Seventh, social advantages, by doing away with isolation.

These are highway "dividends" that are paid in every state and every locality. A community that neglects building good and adequate roads is condemning itself to mediocrity and retrogression.

The Republican management promises to conduct the campaign on a high plane and without personalities. Nevertheless if Mr. Rasko is wise he will equip his candidate with a nice set of mudguards.
