TOWN KILLERS
People who kill a town: Those who never advertise their business. Those who distrust public-spirited men. Those who show no hospitality to anyone. Those who hate to see others make money. Those who oppose every improvement that doesn't originate with themselves. Those who put on an extra long face when a stranger talks of locating in their town. Those who oppose every public enterprise that does not appear of personal benefit to themselves.

WOMEN AND THE DEATH PENALTY

Nobody enjoys seeing a woman in the shadow of the gallows or the electric chair. Nobody envies a governor who must decide whether she shall live or die. Yet the law of the land is devised for the protection of life and property. It cannot, or at least it should not, apply in different individuals. If women knew the death penalty would never be inflicted upon them, they would do most of the killing—or certainly they would do much more of it than they have been doing. We speak of infliction of the death penalty as a matter of "a life for a life," but it is far more a matter of throwing protection around those who yet live.

THE HIT-AND-RUN EVIL

By presenting five persons with checks for assisting in the apprehension of hit-and-run drivers, Governor Fuller, of Mass., has started something that promises proper recognition of meritorious public service. The members of the police force can't be everywhere. It is fortuitous circumstances that find one of them on the spot when a hit-and-run driver stages his act. But there are few such occasions with one or more persons on hand to see it. To hit and run is so cowardly a performance that those who witness it should eagerly assist in the apprehension of the guilty. If the states will make it worth the highway traveler's money to protect, these improvements may seem costly when they are put in, but they are a part of the game of modern trade. The readiness of our business people to make them in the past, has helped bring our retail trade to the fine point of success it has now reached.

BUSINESS IMPROVEMENT

Whenever any of our business concerns or owners of business property, make an improvement in that property, the whole town is interested. Not merely is that concern's prospects improved, but a new asset is added to the whole community. Every new business structure, every one that is repaired or improved, every case of new fixtures, show windows, inside finish, everything of that kind that adds to the up to date appearance of our stores, helps us here in Mount Joy in our effort to make this the best trading center in this section of Lancaster county. These improvements may seem costly when they are put in, but they are a part of the game of modern trade. The readiness of our business people to make them in the past, has helped bring our retail trade to the fine point of success it has now reached.

SUPPOSE IT WERE YOURS?

Suppose you had a piece of property upon which you were dependent for your living, and it was necessary to have other people around to whom you paid salaries and wages to help you run the place? What would you say if some of those people persisted in doing things which kept you on the jump all the time to keep the place from burning up? Suppose you heard one of them say, when asked why he was not more careful about where he tossed his cigarette butt, "Why should I care, it isn't my mill?" Frankly now, what would you say?

Save Wheat from Moth

What should not be allowed to lie unthreshed in the mow. An extended period of hot weather will result in great damage from moths.
soon forget. We refer to the recent fire there and had there been fire plugs in that immediate vicinity we feel certain the loss by fire would have been greatly reduced.
Of course, most people never think of such a necessity until it is really needed and then, as a rule, it is too late.
When the Florin Water Company was established by private ownership, the large warehouses and several other important buildings there were given fire protection by having fire hydrants placed nearby but now the question arises, "How about the private dwellings?"
Of course the citizens there can't really expect the Florin Water Company to install these fire hydrants and bear the expense as it gets absolutely no revenue therefrom. This expense must be borne by the property owners.
We think it would be a very wise move to have fire hydrants placed at many points throughout that town. The prevention of one fire may save enough property to buy and install these hydrants. Think that over.

THEY SHOULD PROFIT

The citizens of Florin had an experience recently that they won't

RHEEMS

Mrs. Miriam Myers of Springfield, Mass., spent the week-end with her parents Mr. and Mrs. A. S. Bard.
Mr. Phares Grove and son Luther, of Pittsburgh, spent Labor Day visited old time friends in this vicinity.
Mr. and Mrs. Stehman Landis local merchants, spent Labor Day jumping the waves in the ocean at Atlantic City.

Mr. and Mrs. Clarence H. Myers, Mr. and Mrs. Enos Floyd spent the week end on a fishing trip down the Chesapeake Bay.
Church of the Brethren held their regular evening services at their church here Sunday evening with a large attendance.
Mr. and Mrs. Harry Flowers, of Lancaster, spent Labor Day evening at the home of their son, Mr. and Mrs. George Flowers.

Mr. David Koser, a prominent Dauphin Co. farmer, of near Beverley, transacted business with the Postmaster here last week.
Russell K. Bard, a Bethlehem Steel Employee at Bethlehem, spent the week end and Labor Day at the home of his parents, Mr. and Mrs. A. S. Bard.

Misses Pauline and Barbara Heisey, of Jersey Shore, daughters of Mr. and Mrs. C. L. Heisey returned to their home in time for school after spending two weeks at the home of their uncle Phares Landis, near here.

LOCK UP REPEAT-ING CRIMINALS

Recently three robbers attempted to holdup a branch of an important bank in a northern California city. During the robbery one of them shot and killed a teller who did not obey orders with sufficient alacrity to satisfy the thug.
Fortunately the three were captured when the car in which they were escaping crashed into a truck. And the fact appeared that all of them were old offenders with continuous records for felonies in Pacific Coast cities.

THE MOUNT JOY BULLETIN COSTS ONLY \$1.50 PER YEAR.

Laws similar to the Bames Laws in New York State would mean life imprisonment for confirmed criminals of this type, upon forth conviction for a felony. They could not be turned loose, time after time on a helpless public. Anti-pistol legislation, which would prohibit the law abiding citizen from owning a gun on the theory that such measures would tend to prevent crime, would in no way deter this type of unlawful acts. Let us tighten up the laws affecting criminals rather than those affecting the home owner or lover of sports.

Know Your Line

Be sure that you know the difference between the various kinds of lime on the market. The law requires that the analysis of each kind be made public. Ask the county agent to help you to determine what you are getting for your money. It is a question of interpreting the analysis in terms of the actual active agent in the form of lime purchased.

Continue Spraying

Do not stop spraying potatoes now or the late blight will soon shorten the growing period. Many farmers find that the yield is increased 25 bushels an acre each week in which growth can be extended at this time of the year. Increased profits are the result of consistent spraying.

153,687 ACRES ADDED TO STATE FOREST HOLDING

State Forest land purchases for the current year now total 153,687 acres, according to a statement issued today by Secretary Charles E. Dorworth of the Pennsylvania Department of Forests and Waters.
The largest purchase was made in Potter County amounting to 50,482 acres, comprising 10 tracts. Purchases in Clinton County have amounted to 23,019 acres, comprising four tracts; Centre County, 13,735 acres; Elk County, 14,307 acres; Somerset County, 5,391 acres; Cameron County, 4,871 acres; Clearfield County, 4,018 acres; Tioga County, 3,595 acres; Jefferson County, 3,294 acres; Perry County, 2,143 acres; Fulton County, 2,352 acres; Bedford County, 2,829 acres; Snyder County, 2,832 acres; Lycoming County, 1,806 acres; Franklin County, 1,081 acres; Cumberland County, 373 acres; Cambria County, 15 acres; Union County, 202 acres.

The boundary survey of these purchases is going forward at a rapid rate, and surveys of purchases in Clearfield, Jefferson, Franklin, Cumberland, Snyder, Centre, Clinton, Tioga, Elk and Union Counties have been completed. Twenty thousand acres have already been surveyed in the Potter County purchase, and 16,000 acres in the Clinton County purchase.

LANDISVILLE

The pike between Ironville and Columbia has been tarved, which improves the condition of the pike.
Misses Elizabeth Fornoff and Laura McCune will spend several days at Kepler's Lodge, near Pequea.
Mr. and Mrs. Joseph Berntheisel are now on an extended trip to Niagara Falls and other places of interest.
The schools of West Hempfield township opened on Monday with each school having a large number of scholars enrolled.

Select Good Seed Corn

Pick all the seed corn possible from the fields before they are cut. Such selection enables the picker to see what kind of a stalk the ear grows on. This is a more scientific way of selecting seed corn than the hit or miss method of picking it out of the crib. Another advantage comes in being able to cure the corn properly before freezing weather begins.

Control Wheat Smut

Stinking smut is the worst disease of wheat in this state. Last year it destroyed 1,400,000 bushels of grain for Pennsylvania farmers, besides inflicting losses through dockage of smutty wheat. Two and one-half ounces of copper carbonate dust will treat a bushel of seed. It is better to control than to pay smut toll.
