1929 WORK OF LEGISLATURE

(From Page One)

ing. This bill has been indefinitely postponed by the House Committee on Game.

House Bill No. 237—Providing for a Closed Season on Ruffed Grouse for Three Years. This bill has been indefinitely postponed by the House Committee on Game.

House Bill No. 278—Increase of Non-Resident License Fee. This bill has been placed on the postponed calendar by the House Committee on Game.

House Bill No. 299—Alien License, Courtesy License and Changing License Period. This bill has been reported out of Committee with slight amendments and comes up for the first reading Monday night, March 25th.

House Bill No. 395—Increase in Fur Dealer's License and Providing for License for Fur Farming. This bill has been reported out of Committee and passed first reading in the House.

House Bill No. 441—Providing for a License Button instead of a License Tag. This bill has been reported out of Committee and passed first reading in the House.

House Bill No. 520—Reducing the Bounty on Wildcats from \$15 to \$10 and placing a bounty of \$5 each for the Killing of Goshawks. This bill has been amended by the House Committee on Game by removing the red fox from the bounty list and has passed first reading in the House.

House Bill No. 521—Amending and Clarifying Section 725 of the Game Code. This bill has been reported out of the House Committee on Game and has passed first reading.

House Bill No. 758—Provides that the Season for the Taking of Muskrats be from Dec. 1st to the Last Day of February. This bill has been reported out of the House Committee on Game and has passed first reading.

House Bill No. 812—Giving the Game Commission the Right to Designate Certain Lands as Deer Lands. This bill has been indefinitely postponed by the House Committee on Game.

House Bill No. 907—Permitting the Sunday Training of Dogs. This bill, as reported last week, has been indefinitely postponed by the Committee on Law and Order.

House Bill No. 1174—Amending Hunter's License Law. This bill provides that hunters' licenses and tags shall be in the hands of the County Treasurers at least 30 days prior to the expiration of the old licenses. This bill has been reported out by the Committee on Game and has passed second reading.

House Bill No. 1371—Providing for the Taking of Male Wild Turkeys with Beards. This bill has been indefinitely postponed by the House Committee on Game.

House Bill No. 1481—Providing for a Change in the Season for Taking Raccoons and also prohibiting the Trapping of Raccoons under Penalty of \$50.00. This bill has been indefinitely postponed by the House Committee on Game.

House Bill No. 1529—Methods and Open Season for the Taking of Raccoons. This bill has been reported out with several amendments by the House Committee on Game.

House Bill No. 1540—Amending Section 101 of Game Code. This bill provides that protection be given to wood ducks, eider ducks, loons, grebes and reed birds. This bill has been referred to the Subcommittee of the House Committee on Game.

House Bill No. 1660—Providing that Field Trials be Held During the Month of March. This bill has been referred to the Subcommittee.

House Bill No. 1665—Providing for the Use of the Bow and Arrow in Taking Game. This bill has been reported out by the House Committee on Game and will be on the calendar for Monday night, March 25th.

House Bill No. 1621—Providing for an Open Season on Female Deer Every Leap Year. This bill has been indefinitely postponed by the House Committee on Game.

House Bill No. 151—Act to Regulate and Control the Use of Firearms. This bill is now in second reading in the House. There is also a companion bill in the Senate which has been referred back to Committee for amendment.

Senate Bill No. 47—Removing Powers of the Board to Control and Regulate Seasons. This bill is

FIRST "CATERPILLAR" TENS DELIVERED IN TERRITORY

Mr. H. C. Hassinger and A. W. Hetrick, of Beavertown, and John H. Richter, of Perry County, have received the first "Caterpillar" Tens to be delivered in this territory according to W. F. Barnard, "Caterpillar" dealer in Harrisburg, Penna.

Farmers and Orchardmen will watch the work of this small "Caterpillar" with interest. The spotlight of the tractor world is on these tractors and their owners. These first Tens are making history in this territory.

It will be recalled that Snyder County is a mountainous county and these "Caterpillar" Tens will be called upon to do strenuous work. This is characteristic of "Caterpillars"—that whenever the work is hardest—sometimes supposedly impossible—there they will be found. In the partly rolling or more level farming sections of Pennsylvania, the "Caterpillar" made by the Caterpillar Tractor Company of Peoria, Illinois, are also being used.

Several other farmers of this territory have ordered "Caterpillar" Tens and Mr. Barnard expects a deluge of orders when farmers and others see for themselves what this latest "Caterpillar" can do.

Adopt Regular Practice
Regularity in feeding dairy cattle is important. Cows are largely creatures of habit, so time and order of feeding should follow the same general routine daily. Make changes gradually and see that rations are always as nearly balanced as possible. It pays.

Inspect Quarries
The Pennsylvania Department of Highways is making an inspection of all commercial quarries from which they obtain stone to check on the quality obtained and methods of production.

Consistent and NOT spasmodic advertising always pays best. Each time you stop advertising, the public thinks you quit business.

still in the hands of the Senate Committee of Game and Fish.

Senate Bill No. 825—This bill would consolidate the Game, Fish and Forestry Departments and provides for a Conservation Commission. This bill is still in the Committee of Judiciary General.

House Bill No. 915—Known as the Revenue Bill or Fiscal Code. This bill has been reported from Senate Committee on Finance with amendments. House Bill No. 919, which is a companion bill to 915 and provides for the Department of Revenue to issue hunters' licenses, has been reported from the Senate Finance Committee with slight amendments.

House Bill No. 1043—Providing for methods of procedure for the board to regulate and control seasons and bag limits under certain restrictions. This bill will be up for final passage in the House on Monday night.

The following additional bills have been introduced during the week:

House Bill No. 1766—Prohibiting the use of snares. (Introduced by Rep. Wheeler, Forest County.) Referred to the Committee on Military Affairs. This bill provides a \$10.00 penalty for the using of snares in taking vermin or fur bearing animals.

House Bill No. 1777—Removal of protection from skunks. (Introduced by Rep. Aston, Luzerne Co.) This bill has been referred to the Committee on Agriculture.

House Bill No. 1786—Amending Section 501 of the Game code. (Introduced by Rep. Shelly, Adams County.) Referred to Committee on Game. This bill provides that grey, black and fox squirrels may be taken from September 15th to 30th and then closed during the month of October and again may be taken from November 1st to November 15th.

House Bill No. 1787—Changing the season for the training of dogs. (Introduced by Rep. Aston, of Luzerne County.) This bill provides that dogs can be trained from September 15th to November 30th. Also provides for a closed training season from December 1st to December 16th and then would permit the training again from December 16th to March 15th.

House Bill No. 1843—Providing for field trials by dogs on raccoons. (Introduced by Rep. Stevenson, of Mercer Co.) This bill provides for the holding of field trials upon led animals for coon dogs between July 1st and October 1st.

Educating The Motoring Public

VALUABLE INFORMATION FOR MOTORISTS FURNISHED THE BULLETIN BY LANCASTER AUTOMOBILE CLUB

A plea to parents to keep their children from roller skating and bicycle riding on the streets and the highways, is made in a statement by Edward P. Curran, Safety Director of the Keystone Automobile Club.

"Every spring," said Mr. Curran, "newspaper headlines tell the tragic story of death and injury to the youthful cyclists and roller skaters. Already several deaths have been reported, and it requires no prophetic vision to foretell other casualties under the lax parental discipline that seems to exist today."

"It is difficult to believe that any man or woman who drives an automobile, or rides in one, can have so little appreciation of the dangers of the highways as to permit sons or daughters to jeopardize their lives by dashing along the streets on roller skates or weaving their way through traffic on bicycles. Yet the number of children appearing on skates and bikes is increasing and the casualty list is steadily mounting.

"In practically 100 per cent of accidents involving motorists and cyclists, the cycle rider is injured, often seriously, only too frequently, fatally. The boy or girl on a bicycle who shoots noiselessly from a side street to a main artery has little chance to escape if an automobile is within 50 feet of the intersection, regardless of its speed. The child who whizzes around a corner on roller skates has just as little chance to avoid injury or death.

"Blaming the accident on the motorist cannot bring back a precious life. It is better by far to curtail the pleasure of that energetic boy or girl than to spend the rest of one's life in vain regrets."

LOCAL I. O. O. F. TEAM TRIMMED YORK MALTS

Our local Odd Fellow bowling aggregation gave the Malta team, of York, a neat lacing by a margin of 113 points. Sol Barr and Leash were high triplets with 603 and 604 points respectively. Herr was high single with 236. The score:

York Malts	1st	2nd	3rd	Tls.
Leash	232	172	200	604
Gross	168	194	224	586
Grube	179	171	350	
Cooper	174	171	345	
Arnold	131	206	149	486
E. McDowell	194	189	...	383
Totals	899	940	915	2754

Mt. Joy I. O. O. F.

	1st	2nd	3rd	Tls.
Barr	199	182	222	603
Bennett	163	195	189	547
Hershey	220	...	180	400
Brown	199	172	371	
Herr	236	182	158	576
Derr	167	203	...	370

PLOW--An Acre Every Hour

With a "CATERPILLAR" tractor do it for about one-half the cost of plowing with horses or for about one-third less than the cost of doing it with a wheel type tractor.

A "CATERPILLAR" tractor does with a fourteen horse-power engine more than any other tractor can do with a twenty horse power engine. A fourteen horse power engine requires less fuel than a twenty. A "CATERPILLAR" tractor reduces slippage—when wheels slip fuel is burned uselessly; money and time are lost. A "CATERPILLAR" tractor does not pack the soil—packing soil reduces yields. A "CATERPILLAR" tractor will work any time, anywhere—in mud, dust or snow, up hill or down, over rocks or ditches, for twenty-four hours a day.

A "CATERPILLAR" TRACTOR IS BETTER, QUICKER, CHEAPER. Write for information and prices.
