Young and Old Benefit from Phila. Doctor's Flaxolyn Discovery

Lady at 92 Years of Age Declares She Feels as She Did at 21, Through the Use of Flaxolyn. Says: "It Has Given Results I Never Found in Anything Else." First Heard of Flaxolyn by Personal Endorsement of Nationally-Known Doctor.

From all over the United States, letters have been pouring in, to congratulate a Philadelphia physician upon his discovery of new Vitaminized herbal Flaxolyn, which is helping young and old alike to win greater, more vigorous health. One of the most interesting messages delivered to Dr. Luntz comes from Nokomis, Illinois, and is signed by Miss Agnes Monaghan. She says: "I am enclosing a snapshot of the four generations of our family, who have had wonderful results from the use of Flaxolyn. I first became acquainted with Flaxolyn through Dr. Lindlahr of the famous Lindlahr Sanitar-

41 Years Old—All the "Pep" Wrung Out of Him—Lost 18 Pounds—Jack O'Neil Was a Physical Wreck. THEN HE GAVE FLAXOLYN A TRIAL. Now Read His Amazing Story! Tells of New Kind of Sleep.

No reporter could do justice to the remarkable story of Mr. O'Neil's fight for health, therefore let him tell every word of it himself. Mr. O'Neil lives at 148 N. 8th St., and you can verify what he says: "I am a dock man, 41 years old. My job means all hours and long, hard ones, and takes the pep out of me. I lost 18 pounds and was a wreck. I never had any disease in particular, just a run-down system from overwork and lack of sleep. "One day by chance I read about herbal Flaxolyn and the great good it does, and it all seemed so sincere I decided to give Flaxolyn a trial. After taking it three weeks I felt like an entirely different person, having felt its good effects from the first day I took it. I have regained my regular weight, 172 lbs., and am still doing the same work, but don't mind the strain now, and although I don't average any more sleep than I used to, the kind of

sleep I now get seems to do me a lot more good. "I am telling my friends about Flaxolyn, and in great gratitude am sending you my photograph. Truly and sincerely yours, Jack O'Neil, No. 8th St. Hotel."

Sick 10 Solid Years Flaxolyn Gives First Genuine Health Aid!

West Phila. Lady Can Tell You What It Means To Suffer Endlessly—and Then Suddenly See the Shining Light of Hope. That Was What Flaxolyn Proved to Be!

Suppose that you suffered for ten long years from aches and pains, due to toxic poisons you could never drive out of your system. Suppose dizzy spells and nervousness and constipation and sallowness loomed up before you as your perpetual lot in life. And then suppose you found something that set you free from your sickness and enabled you to work and walk with ease; that made life not only bearable but happy. You, too, would be overjoyed. That experience is told by Mrs. Mary E. Sweger, 603 Reinhart St., West Phila. No wonder Mrs. Sweger calls vitaminized Flaxolyn "positively wonderful!"

Don't wait. Try Flaxolyn at once. You will immediately note the tonic change. A new sparkle will light up your eyes. Color—natural color—will replace the pale, pasty appearance that betrays poor health, sleeplessness and constipation.

NEW RADIO TRENDS STRESSED IN SHOWS

Simplified Tuning and Screen Grid Tubes Are the Big Features.

Simplification in tuning, popularity of screen grid tubes and exceptionally artistic cabinets for radio receivers are among the outstanding features of the radio shows which now are in progress throughout the United States. Quantity production has brought the greatest values ever offered.

An innovation is the offering by one of the largest manufacturers of the first battery operated Radiolas whose performance is comparable to those of socket power. This development, made possible by loudspeaker refinements and the increased efficiency of the screen grid at a low current consumption, is being welcomed by owners of homes unprovided for electricity.

Although the screen grid leads in the new models as a radio frequency amplifier, another new Radiotron, the UX-245, is used widely as an outstanding part of the audio systems. The UY-227 and other standard tubes also retain their popularity for the specific uses for which they are best suited.

The famous super heterodyne circuit is employed in one of the newest Radiolas, attracting attention at the shows, but quantity production has put this model for the first time in a price class within the reach of the vast majority of listeners.

The entire control mechanism of one modern radio receiver. Illuminated dial numbers show on the escutcheon window when the set is turned on.

Simplified tuning in some models exhibited takes the form of tuning and volume control from one combination knob. In others it is aided by a magnified tuning scale which throws illuminated numbers of a size which can be read easily upon a translucent composition window in the escutcheon. This Radiola tuning scale is the research laboratory's answer to the problem of tuning receivers placed in positions where the light is not good.

In the Sixth Annual Radio World's Fair in New York a radio Pageant of Progress, prepared at a cost of more than \$100,000 by the Exhibition Division of the Radio-Victor Corporation, traced by means of historic apparatus, replicas and true to scale models the story of radio from Marconi to the present. Similar historical exhibits of radio are being placed by Radio-Victor in other shows. George Clark, manager of the Exhibition Division, is secretary of a committee cooperating with the Smithsonian institution and government officials in creating a national museum of radio, which eventually will house many of the exhibits being shown by his company.

Television demonstrations under the auspices of the Radio Corporation at the New York show indicated real progress, but the engineers whose brilliant work was responsible for the improvements were careful to point out that other problems still remained to be solved before television would be practical for home sets.

OWNERS OF RADIO IN EVERY STATE

An interesting insight into the widely distributed ownership of the radio industry in the United States is given by the summary and classification of the stock of the Radio Corporation of America, the largest radio organization in the world. The latest statement shows stockholders in every State in the Union. Ninety-nine per cent of the class A common stock is owned in the United States, much of it being in the hands of small investors.

Although there is a good showing in the industrial East, as in the case of all stocks, New York State having 1,291 class A common stockholders, Illinois has 357 stockholders in the same classification. California lists 134 class A common stockholders, almost as many as New Jersey, which has 140.

Among the thirty-four foreign countries in which there are holders of class A common stock are such widely separated points as Argentina, Austria, British Guiana, Honduras, Egypt, India, Venezuela, Norway, Japan and Ireland.

THE COUNTRY NEWSPAPER OF GREAT VALUE ACCORDING TO STATEMENT OF NOTED EDITORIAL WRITER—PROVEN BY FACTS

Arthur Brisbane, one of the best minds of the time, says:

"H. Z. Mitchell's 'Sentinel,' published at Bermidji, Minn., wins the prize as best weekly in the National Editorial Contest. This is a good time to remind the public in general, and national advertisers in particular, that country weekly newspapers are the most important organs of public opinion and protectors of public welfare.

"And, their advertising per mill line, is not excelled by any publication, of any kind.

"The reader of a country weekly buys everything from shingles on the roof to cement in the cellar floor, and every advertiser has in him a possible customer."
