PRODUCE & LIVE STOCK MARKET

CORRECT INFORMATION FURNISHED WEEKLY BY THE PENNA. BUREAU OF MARKETS FOR THE BULLETIN

Receipts of mushrooms were liberal on the local market and showed the effects of the warm weather. The market was weaker and the demand slow. Pennsylvania stock ranged from 25c to 90c per 3 lb. basket with a few fancy New Jersey whites bringing \$1.00, according to the Pennsylvania and U. S. Market News Service.

Root crops were dull and sold slowly. Nearby beets brought 25c to 40c per 5-8 basket, carrots 30c to 65c, parsnips 40c to 85c and white turnips 50c to 65c. Wired celery was about steady with the best stock selling at 12c to 16c per bunch. Poorer stock sold at 7c to 10c. Nearby rutabagas met a fair demand at \$1.25 to \$1.35 per 100 pound sack.

Hot house rhubarb ranged from 50c to \$1.00 per 5 pound box while hot house radishes brought 3c to 5c per bunch. Virginia turnip greens sold at \$1.25 to \$1.50 per bushel. Sweet potatoes were very dull and moved slowly. New Jersey yellow varieties brought 75c to \$1.10 per 5-8 basket while the red varieties brought \$1.00 to \$1.15.

The potato market was weaker and the demand was slow. Supplies were fairly liberal with 127 cars on track. Pennsylvania round whites declined and sold at \$2.25 to \$2.75 per 100 pound sack with a few small lots of fine quality higher. Maine Green Mountains were quoted at \$2.55 to \$2.75 with 120 pound sacks brought \$3.00 to \$3.15. Idaho Russets brought 90c to 95c per 25 pound sack.

New stock was in fairly light supply and the demand was limited. Florida Spaulding Rose sold at \$9 per barrel with poorer stock as low as \$3.00. Apples were steady and met a moderate demand. Rail receipts of Pennsylvania Yorks sold at \$3.75 to \$4.00 per barrel. Truck receipts of Yorks brought \$1.50 to \$2.10 per bushel, Romeys \$1.75 to \$2.25 and Winesaps \$2.00 to \$2.50.

Market: Extremely dull. Beef steers and yearlings weak to unevenly lower, compared with week ago 25c to 50c lower, weighty offerings showing most decline; top medium weights \$12.25, bulk of sales \$11.25-12.00. She stock showing decline. Bulls and cutters barely steady, bulk fat heifers \$10.00-10.40, 75, beef bulls \$9.50-10.25, butcher cows \$7.50-8.25, cutters \$4.75-\$6. No action on stockers and feeders. Calves 50c to \$1.00 under last week's close, top vealers \$16.00.

Hogs: Steady at week's 25c advance, top 160-230 lb. wts. \$12.75.

Receipts: For today's market, cattle 2 cars, 1 Va.; 1 Tenn.; containing 48 head, 123 head trucked in from nearby, total cattle 171 head, 27 calves, 219 hogs, 1 sheep. Receipts for week ending Feb. 21, 1930, cattle 49 cars, 4 Va.; 3 Tenn.; 3 Pa.; 2 St. Paul; 2 Md.; 2 Mich.; 1 W. Va.; 1 Chicago; Ohio; containing 473 head, 723 head trucked in from nearby, total cattle 1196 head, 473 calves, 1947 hogs, 143 sheep. Receipts for corresponding week last year, cattle 24 cars, 7 Virginia; 5 Penna.; 3 Chicago; 3 W. Virginia; 3 Tennessee; 2 Maryland; 1 Mich.; containing 582 head, 904 head trucked in from nearby, total cattle 1546 head, 459 calves, 1789 hogs, 85 sheep.

Historic Records Show Jews as Fighting Race

It's a singular thing that people in general should hold so strongly to the idea that the Jew is one who practices the virtue, if it is a virtue, of non-resistance.

There is nothing in history to justify such a view and, indeed, everything to prove that he was no more meek than that turbulent, rebellious figure, Moses. That in the Middle Ages and, later, in Russia, he was massacred cruelly and completely and did not hit back was due to the fact that, having no weapons, he could be crushed by armed mobs and licensed soldiery.

Long before Napoleon placed Jews among his marshals the fighting quality of the race was known and praised. From the days of the Maccabees on there was no insurgent so much dreaded by the Roman as the people of that narrow littoral that lies between Syria and the Egyptian outposts.

The story of the World War is full of the names of Jews in all the armies, and very certainly the British are not soon going to forget the gallant soldier from the Anzac forces who repeatedly swam ashore at Gallipoli and lighted flares on the beach to guide the incoming boat.—Louisville Herald Post.

Crows Appear Unable to Count Above Three

One writer says crows cannot count in Kent and another says they can in Staffordshire. Many years ago an old farmer in Queensland told me that they could count up to three.

The crows ate his maize but kept away if he hid among it, so he tried going with a friend, who presently went back. The result was that the crows kept away. He tried going with two friends, who both went back. Result the same. But when he himself went back the crows at once returned to the maize.

After many trials he concluded that they could only count up to three. If four or more men went into the maize and three came out again the crows went to the maize, and though many were shot the others never learned to count beyond three. I suppose crows are like men, some of whom never seem to learn how many beans make five.—London Times.

Three Forms of Honey

Honey may be had in three forms—in the comb, extracted and granulated, but only occasionally in the latter form. Before the passage of the pure food and drugs act much adulterated honey was offered for sale. When unformed persons saw crystallized honey they often jumped to the conclusion that the presence of cane sugar was the cause of the granulation. To allay that suspicion the bottlers of honey heat it to about 145 degrees Fahrenheit and seal it in jars with heated, which greatly retards and in many cases prevents granulation.

If it is desired to bring crystallized honey again to the liquid form, gentle heating in a water bath will give that result without in any way changing the character of the honey.

Furs Long Prized

Fur history carries the reader back 10,000 years, further indeed than there are records of its use. The Bible refers to Adam's and Eve's use of furs, and later to otter and badger skins used in the tabernacle.

Queen Semiramis, 2,182 years before Christ, brought 8,000 tiger skins back to Babylon after an Indian campaign. The story of Jason and his quest for the Golden Fleece is nothing if not a chronicle of the furrier's trade. During the first 1,500 years of our era, Byzantium, or Constantinople as we call it now, was a fur center comparable to Leipzig, Germany, at present.

X-Ray in Criminology

That a man is a carpenter may be revealed under the X-ray by the shape of the bones in his fingers. This is one of the novel conclusions of a recent investigation that recalls the fictional detective feats of Sherlock Holmes.

Experts found that peculiarities in the shape of a workman's fingers revealed that they had long used a plane or similar wood-working tools. It is hoped eventually to gather sufficient data to detect any man's occupation by his physical characteristics.

Island Status Unsettled

Wrangell Island is in the Arctic ocean, about 100 miles from the Siberian coast. A harbor in the southeastern part is in latitude 70 degrees 57 minutes north and longitude 178 degrees 10 minutes west. The island is about 70 miles long and 25 miles wide. It was sighted in 1817 by the captain of a United States sailing vessel. In 1881 officers from the United States naval vessels landed on the island and claimed it for this country. The question of ownership is unsettled.

Jewel-Encrusted Bible

The world's costliest Bible is that taken with other treasures, from the palace of the czars at Tsarskoye Selo. One of its covers, which measures only five and a half inches by seven and a half, is encrusted with diamonds and emeralds in the form of a floral spray, with an intertwining monogram "A" of rubies, and on the other is a cross of fine diamonds. The clasp is of sapphires, and the text in tiny gold leaf print.

Protect from Lightning

For lightning protection, it is well to ground to earth every electric entrance to any farm building on the outside even though the system is connected to a water pipe on the inside.

Of all glad words of tongue or pen the gladdest are these "Enclosed find check!"

MEDAL TO OPERATOR 11,000 MILES AWAY

Malcolm P. Hanson, With Byrd Near South Pole, Hears Tribute.

One of the most striking methods of making an award of merit ever devised was the recent presentation of the Veteran Wireless Operators' Association medal in a speech by David Sarnoff in New York to Malcolm P. Hanson, radio operator with Byrd, listening by radio in the Antarctic wastes near the South Pole.

Mr. Sarnoff, Executive Vice-President of the Radio Corporation, praising Hanson, mentioned also the fortitude of the wife of the operator, who had consented that her husband go on the hazardous expedition for the sake of science. After she had received the medal for safe keeping, Mrs. Hanson, deeply touched, spoke to her husband across the vast distance. Within a

Mrs. Malcolm P. Hanson, Holding Medal Awarded to Her Husband, 11,000 Miles Away.

few minutes Hanson's reply came by radio telegraph through the receiving station of R. C. A. Communications, Inc., at Riverhead, Long Island. In addition to thousands at the Radio World's Fair, where the presentation was made, an uncounted throng heard the tribute over the network of the National Broadcasting Company. "It is my privilege," Mr. Sarnoff said, "to pay tribute tonight to a man who has made an unusual contribution to science and civilization. Although he is 11,000 miles distant from this glass-enclosed room in Madison Square Garden, where I now stand, he is nevertheless able, through the instrumentality of Radio, to listen to the sound of my voice. That act alone is worthy of commemoration, even in this day of extraordinary progress in science.

"Malcolm P. Hanson, as Chief Radio Operator of the Byrd Antarctic Expedition, you have been awarded the annual medal of the Veteran Wireless Operators' Association, for the most distinguished contribution, by a radio operator, in 1928, to wireless communication. As a member of that association, with some knowledge of its romantic traditions and standards of service, I feel that the award is well earned and well deserved."

Mr. Sarnoff related how Hanson planted his slender steel towers on the edge of the great ice barrier, cheered his comrades with news from home and gave the world for the first time a thrilling daily account of a polar expedition. Those things alone would have been a contribution to history, he said, but Hanson added to radio knowledge by testing signals against the polar sky, observed the phenomena of the Aurora Australis and made a record of radio behavior under conditions hitherto unknown. To Mrs. Hanson, Mr. Sarnoff said:

"Your sacrifice was all the greater because soon after your husband sailed for the Antarctic, you bore him a child. No medal can ever reward or repay you for your own courage and heroism."

RADIO TELEGRAPH EXPANDS SERVICE

Recent additions to the radio telegraph service from the United States are of special interest now as indications that America is striving to hold her own in a radio telegraph leadership, which is made more difficult to maintain by the British merger of radio telegraph and cables. The announcement that R. C. A. Communications, Inc. will begin work at once to establish an inland telegraph network in fourteen strategic cities in the United States, with plans for 29 inland stations, as wave lengths are granted, also has added to the country-wide attention to this modern means of communication.

Within the last few weeks three new direct international circuits have been announced by W. A. Winterbottom, Vice-President in charge of Communications of R. C. A. Communications, Inc., to Spain, Syria and Costa Rica.

Several reductions of rates for radio telegraph service also have been announced recently by Mr. Winterbottom. It was the competition of radio telegraph which forced a reduction of cable rates by which users have saved \$60,000,000 in the last eight years.

Improve Girls' Rooms

Showing how to provide convenient arrangement of appropriate furniture, use a harmonious color scheme, and make care and cleaning easy, the Girls' Own Room project has improved thousands of farm girls' rooms at low cost. Your county home economics extension representative can explain the plans

Most of us don't know we're in trouble until we are caught.
