Prune Climbing Roses
This is the proper time to prune climbing roses. Remove all old shoots and preserve the younger ones which are more vigorous and which produce the most flowers.

Now that the reparations question is settled, and the Young plan adopted, if they will only get Babe Ruth's salary settled we can begin to look forward to the approach of spring with some pleasure.

What do
you
pay for
extra
equipment
?

ONE of the things to find out before you decide on an automobile is this—"How much extra equipment will I have to buy and how much will it cost?" Sometimes you know, the cost of "Extras" is padded to make up for too high an allowance on a used car.

There's mighty little extra equipment to buy on a new Ford and the prices are unusually low.

Compare these
prices

Ford bumpers\$15.00
Extra tire and tube 12.50
Tire lock 3.50
Rumble seat (Coupe or Roadster)25.00

In these five items alone you save nearly \$40 from the usual charges—another instance of Ford efficiency and economy in manufacturing and distribution.

Call or telephone for demonstration.
