Evangelical Congregational Church Rev. N. S. Hoffman, Pastor Sunday School 9:30 A. M. Mr. S. F. Eshleman, Supt. Morning worship 10:30 A. M. C. E. 6:45 P. M. Church service, 7:30 P. M. Wednesday, 7:30 Prayer Meeting One hundred and fifteen attended Sunday School being the best attendance for this Conference year. Six new scholars were received, one for the Ladies' Bible class and five in the Home Department. Four visitors were present: Rev. N. A. Barr, L. R. Bettinger, O. Billmeyer and C. E. Loose. There were three 100% classes: Beginners, Mrs. Reheard and Miss Eshleman. The attendance of various classes were as follows: Primary 9, Men's Bible Class 18, Mrs. Way 5, Mrs. Reheard 7, Ladies' Bible Class 17, Rose Buds of Promise 7, Busy Workers 6, Mr. Peiffer 4, Miss Eshleman 8, Cradle Roll 12, Beginners 8, Home Dept. 10, Visitors 4. The Ladies' Bible class had the largest offering \$1.60, while the Rose Buds of Promise had the highest average offering of 15c.

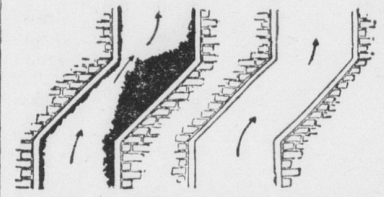

The pastor's morning theme was "Five Springs of Christian Joy." The evening service was in charge of the C. E. Society. Echoes of the Hershey convention were brought by two delegates, Dorothy and Mildred Kaylor. A Bible study will be held at the Mid-Week Prayer service under the theme, "The Example of Christ." Seven men will present this study of about a half hour. The remainder of the service will be as usual.

A Simpler Way He rounded the bend at close on forty. A sudden skid and the car overturned. They found themselves sitting together unharmed, alongside the completely smashed car. He put his arm lovingly about her waist, but she pulled it away. "It's all very nice," she sighed, "but wouldn't it have been easier to run out of petrol?"—London Answers.

SOOT AND DUST RAISE HEAT BILLS

Dirt in the Heating Plant Blamed for Fuel Waste.

There is a tremendous waste of coal and fuel oil during the heating season, due to the fact that home owners do not keep their heating systems clean. Many heating plants are literally filled with soot and dust, and, according to the Holland Institute of Thermology of Holland, Mich., the dirty condition is responsible for unsatisfactory functioning of the heating system and consequent waste.

Vacuum Cleaning Removes Accumulations of This Sort and Permits of Free Drafts as Shown at Right.

Keeping their homes warm in last winter's cold weather, the soot and dirt in the heating system interfered with delivery of heat when it was most needed.

There is only one remedy for a condition of this sort, and that is to subject the heating system, including the chimney, to a thorough cleaning before the next heating season starts. When soot and dirt are cleaned out, draft troubles may be eliminated, combustion is more thorough, more heat is extracted from the fuel burned, and the home is more satisfactorily heated at less expense.

Formerly this was a dirty, messy job. Now it is accomplished as easily as the vacuum cleaning of the interior of the home, and much the same way. Cleaning of heating plants is now done by means of a giant vacuum cleaner that comes to the job mounted on a motor truck. The cleaner is attached to various openings in the heating plant, including the chimney, and the powerful suction of the fan draws out the dirt and soot, forcing it into the bag for later disposal. The cost of a job of this sort is less than the price of a ton of coal, though many times that will be saved in the course of a year in eliminating fuel waste and cleaning expenses.

THE WATER USERS OF MOUNT JOY BOROUGH

In the Spring the matter of improving our water system came up for discussion before the Borough Council. A representation from a number one filter plant met details and presented plans and details. This system would guarantee crystal clear, chemically pure water. A plant or filtration system would cost about \$25,000.00.

The writer is under the impression that the people of Mt. Joy want a filter plant, but the night of our Council meeting he remarked to a member of the Council that if the Council intends to get the expression of the people, it was time to consider the matter and arrange for a vote in November. His reply was "the people are not ready for a filter plant and if the chance were given them, it would be voted down."

This was a surprise and I replied "I do not agree with you. I feel sure the people do want it."

Now do you or do you not want a filter plant?

In some way let your representative in Council know your wishes. I am sure the doctors and Board of Health want a filter plant. Who else wants it?

Relief From Curse of Constipation

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause." But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c to-day at the nearest Rexall Drug Store.
