Finding One's True Self

Life is an opportunity for making of a soul, and in most of us it is still in the making; a patch work, unfin-2.00-3.25 ished. There are so many selves, each struggling for mastery, that it is not self. Which "me" is my real "me"? 5.25-7.25 There are a lot of them, the ragged the pretender, the penitent, the poet, 9.00-10.75 the sceptic, the donkey who always wants his own way; and, at times, a 6.50-9.00 glimpse of another fellow, who seeks to rule the whole ungodly crew. Who is he? What authority has he? Who 4.75-7.00 gave him the job? Will he get it done, making the motley array of 5.00-7.25 slovens, boasters, scullions, prophets, and saints of divers orders, at last obey?-Joseph Fort Newton in the \$10.75-11.25 Churchman.

Choosing a Wife

A Swiss savant states that if a man wishes to learn the character of the girl he wants to marry he should watch her peeling, cleaning and cooking potatoes. If she peels the potato cutting thick rinds, she is extravagant. If she leaves the eyes she is lazy. If she uses a great deal of fat while cooking the vegetable, she is greedy, 44.00-45.00 ton and if she allows it to burn she is

40.00-41.00 ton negligent. 48.00-49.00 ton On the other hand, the savant de-\$51.50-52.50 ton ing pitfalls, the man should marry her liable breeder. whether she is rich or poor, ugly or 38.00-39.00 ton pretty, for she will prove a good 43.50-44.50 ton friend and wife and bring him pros-38.00-39.00 ton 48.50-49.50 ton perity and happiness.

50.00-51.00 ton It's still a hick town if you feel west sides of the garden are ad-45.00-46.00 ton sophisticated when you ask a mar- vantageous. Full sunshine is need-38.00-39.00 ton Alfalfa (Reground) 41.00-42.00 ton ried woman to have a sundae.

WEEKLY LETTER WRITTEN EX. PRESSLY FOR THE BULLETIN BY DR. DAVID H. REEDER

Tapeworms: I have received a mber of letters from various parts of the country requesting information regarding the method of treatment for the removal of tapeworms.

It has always been my custom to teach as fully in regard to su things as possible so that those who wish to use the home treatment may edge of the cause as well as symp out few mistakes are liable to occ There are three varieties of tan

Tanis solium is the most comm

Developed tapeworm may remain in the intestinal tract for a long failing nutrition, uneasiness thro th chest and the abdomen, and symp imes diarrhoea. quent faintess and dizziness

No specific treatment should ever e undertaken for the removal of a; eworm until one is positive that essa ready un ich hob my ruck ob acy by finding segments of it in the moving tapeworm will prove effect net haesa baeda. Are hut mich sella tive; fast two or three days on diet of salt fish and milk. Take or the evening of last fast day, a large take, fifteen minutes apart, half a cupful of strong and hot decection of pomegranate root bark, half pound to a quart and a pint of water and sucked while this is being taken. dram of ethereal extract of male fern, and in an hour repeat the dose If the bowels have no tendency t large dose of castor oil should b given. When the bowels do move the patient should sit upon a vessel wel filled with warm water that the worn may not be broken and if discharged the treatment cannot be established but it should not be repeated for sev eral months or only after segment have shown themselves. Pumpkin

Another species of tapeworm differ ing in several particulars from the ordinary variety spoken of as tania solium is called bothriocephalus latus, Its length may be enormous. Speci mens over 70 ft. long have been re than they are long and the head is flat and oval, and has a fissure on ether side. The eggs have a valve they develop in water and are eaten by fish and thus the embryes are set free and get into the muscles of the fish and into the stomach of the human being. The symptoms are the easy to detect the elusive, ultimate same as those of tania solium and its expulsion is accomplished in a similar manner. Tapeworms very seldom hobo out at the elbow, the dandy in remain in the intestines over four fine dress and gold cane, the toady, months without discharge of segments.

> at liberty to write for information pertaining to the subject of health. Address Dr. David H. Reeder, 3 E. 31st street, Kansas City, Mo., with at

Show Farm Products

Every farmer has a chance to vin some of the prize money ofered by his county fair, county farm products show, or state farm products show. Better specimens kept at home never win from those not quite so good which are entered in the competition.

When To Requeen Requeening should be done to

ward the end of the last honey flow of the season. The operation preferably should be performed before the middle of September. New queens may be reared by the bee-45.50-46.50 ton clares, if the girl avoids these reveal- keeper or purchased from a re-
