

### Isn't Your Old Iron Past Its Prime?

Even electric irons lose their efficiency, you know—they wear out just like anything else. And once their heat unit becomes weakened it greatly increases hand-labor and slows up the ironing process.

The new, improved ELECTRIC IRONS have marked advantages over the old models. They make ironing easier—give a smoother finish. Latest features include: heat control—beveled edges—air-cooled handle—choice of many inviting colors—balanced weight.

Speed up Ironing day with a MODERN ELECTRIC IRON

### The BULLETIN MOUNT JOY, PA.

### WANTA BUY A BUSINESS?

None that's on the rocks either but a good, substantial honest-to-goodness proposition that is paying. If anything like that interests you, investigate this at once.

I have a proposition here that won't require a big sum of money to handle. Business will include dwelling, auto truck, etc. Present owner will cheerfully help get you started.

Now don't sit and think, ACT. Come and see me or phone and I'll call.

JNO. E. SCHROLL MOUNT JOY, PA.

The other day a man here was scolding his son. Among other things he said: "Don't you realize that you are facing the electric chair?"

The boy replied: "I don't mind facing it but I'd hate the darndest to sit on it."

Recently a customer at Trimmer's store remarked to Mary Eshleman, a clerk there: "How much is this toy?"

Mary replied: "Fifteen cents." The customer said: "But I thought this was a five-and-ten cent store?"

She said: "Well how much is five and ten?"

A man from Philadelphia here on a visit recently, remarked to a certain lad: "You are growing into a nice little fellow and will be just like your father."

The boy remarked: "Yes that is what mother is afraid of."

A man here took his son to Lancaster to the Colonial. When the chorus appeared the old gent said: "I can see right thru that chorus girl's intrigue."

Son: "I know dad but they all dress that way nowadays."

When some one tells you that a certain fellow has amassed a big fortune in crooked dough, don't think for a moment that he's a bootlegger or a counterfeiter either. He may have been a pretzel baker.

At a local Sunday School recently a middle aged boy said that Adam was created first so he had a chance to say something.

I asked one of our local young ladies why they prefer becoming engaged to several young men at the same time. She said: "Well you know when you have only one match it always goes out."

How doth the little fisherman Improve each shining hour? He drinks his bait, and gets home late, And lies with all his power.

A man tells us that an old-timer is anyone who can remember when a pie was cut in four pieces—and each piece sold for a nickel.

Flappers do not attract much attention any more. They won't until they begin wearing clothes again.

An old fashioned doctor is the kind who tries to find out what's wrong with you, instead of calling in two or three of his friends to discuss the matter.

Some men think they are wise old owls just because they are always hooting at something.

Trouble comes seldom to those with plenty of work to do.

The English language is called "the mother tongue" because father never had a chance to use it.

Still, we have yet to honor the husband who helped with the dishes and was shot by his wife.

It is easy to accept another man's opinion when you are about to ask him for a favor.

One of the old boys of yesteryears right here in town says the good old days were those when a sandwich didn't consist of axle grease and a cabbage leaf.

A man at Salunga told me that the best way to break yourself of wanting too much is to start paying cash for things.

At a party the other night a man said to his wife: "Look, Grace, there's a real old fashioned girl. Her dress buttons all the way up her back."

"You chump," said his wife. "That's her spine."

"Well dad I just looked in to say hello," said a local lad.

"Too late, my boy. Your mother looked in, said hello and got all my change an hour ago," said the old man.

Sure Proof "You all know what a mirror is for. Now, Donald, where do you look if you want to know if you are tidy and clean?" said his mother.

Donald: "At the towel, mother."

### EDUCATING THE MOTORING PUBLIC

#### PRESIDENT GABLE URGES MOTORISTS TO DO THEIR FULL SHARE IN MOVE TO REDUCE SCHOOL CHILDREN TOLL

Calling attention to the fact that more than 3,000 children of school age were killed by automobiles in the United States last year S. Edward Gable, president of the Lancaster Automobile Club today issued a statement urging motorists to do their full share in the move to cut this toll.

"Thousands of children throughout Pennsylvania will be returning to school this week and next," said Mr. Gable, "and their presence on streets and highways going to and from their homes gives rise to a traffic condition fraught with hazards."

The Auto Club president stressed the fact that the State law provides amply for the protection of children in school zones. The motor code sets forth he said, in Section 1002, Article A, that "any person driving a vehicle on a highway shall drive the same at a careful and prudent speed, not greater than is reasonable and proper, having due regard to traffic, surface and width of highway and of any other conditions then existing, and no person shall drive any vehicle upon a highway at such a speed as to endanger the life, limb or property of any person."

"But the law goes even further than that in regard to school zones," said Mr. Gable, "the motor code providing that the speed limit of a motor vehicle shall not exceed fifteen miles an hour when passing a school during school recess or while children are going to or leaving school during opening or closing hours. This latter clause places the burden of responsibility of school zone driving firmly on the shoulders of the motorist."

No 'recess' or 'school is out' signs are required under the law to warn the passing driver of the fifteen mile limit, nor must a traffic officer or school patrol be there to give a signal. The law puts it directly up to the car driver when entering a school zone, whether on congested city streets or on the open road to exert sufficient care and caution to ascertain whether recess is in progress, or whether children are entering or leaving school and comply accordingly with the speed limitations required by the motor law.

"Many motorists are unfamiliar with this clause, being under the impression that they are entitled to a forty mile an hour speed on the open road and to twenty miles in built-up districts under all circumstances. But unfamiliarity with this provision will not alter the circumstances for the autoist who, failing to heed the school zone limit, kills or injures a child. That driver will be called on to bear the full brunt of the burden."

"Parents, city officials, police, motorists, to say nothing of the victims themselves, share in the responsibility for these all too numerous accidents in which children of school age are involved and they must share, too, in the general move to reduce this terrible toll of human life and limb through safety measures on our streets and highways. The motorists themselves must bear a large share of the burden and if they as a class will exert more caution automobile casualties among school children in Pennsylvania can be reduced to a minimum during that school year that is just opening."

"Go out of your way to exert care and caution and to obey the law to the letter in school zones is my advice to drivers of motor cars. Accidents will happen through children darting out from the curb or otherwise running directly into the path of the car, no matter how great care the driver exerts, but if the person behind the wheel of the automobile keeps doubly on the alert in passing through a school zone there will be far fewer casualties and deaths among school children from automobile accidents on the streets and highways of Pennsylvania."

#### MILK MUST BE SERVED IN BOTTLE AT DRUG STORES

Serving milk from open containers, such as pitchers and glasses or from tanks in drug stores, summer resorts and roadside stands, violates the Pennsylvania Milk Container Law, just as much as this practice does in hotels, restaurants and dining rooms, states Dr. James W. Kellerg, director and chief chemist, bureau of foods and chemistry, Pennsylvania Department of Agriculture.

The purpose of the law is twofold: it assures the customer a sanitary product and it makes certain that the standard of the milk meets the legal requirements.

A statewide check on the way the milk is being served in drug stores and other eating places popular during the summer, is now under way in order to make sure that tourists in Pennsylvania, as well as the public in general, have the full protection afforded by the Pure Food Laws.

Any party violating the Law is subject to a minimum fine of \$25.

### Lancaster County Farms and Crop Production

Compiled for the Bulletin by E. A. Seeman of the Penna. Federal State Crop Reporting Service

Total Acreage of County	84,997	602,370

J. N. Stauffer & Bro. MOUNT JOY, PA.

Do you remember how attractive the apple and peach orchards were last year with the rosy cheeks of the former and the soft pink down of the latter's perfect complexion? Lots of this fruit, just as perfect and nutritious as when you saw it growing, is now awaiting you.

Of course you will use plenty of canned peaches—the best-seller among canned fruits—canned apples, applesauce and apple butter. But perhaps you have not tried the wide variety of fruits now offered to you in cans. There are cherries, black, red and white; cranberries, blackberries, strawberries, raspberries, loganberries, plums, pears, grapefruit, pineapple, rhubarb, apricots, grapes, figs as well as fruits for salad and numerous fruit juices.

It is a very good plan to keep a few cans of your favorite fruit in your refrigerator so that when you come home and want to toss together a meal in a hurry, you can serve them at once, deliciously cool with whipped cream. Or on lettuce leaf with mayonnaise, for a perfect salad.

Serve Cold An excellent idea for a quickly prepared fruit cup, is to combine fresh and canned fruits. Use for a first course or a dessert, for example, this Raspberry and Banana Cup: Slice or cube two bananas into eight cocktail glasses. Squeeze eight teaspoons lemon juice over them at once to prevent discoloring. Then fill the cups with the contents of one No. 2 can of red raspberries. Serve very cold.
