Catch Current Prices

Before The Tide Turns

"Time and tide wait for no man."

Nor are the low prices of today and the turn of the tide toward higher prices going to wait for those who haven't the vision, courage and foresight to buy when prices are at the lowest ebb in 15 years.

And this changing of the tide as applied to prices is more than a mere simile... it's a certainty... price tides change as surely as ocean tides.

Today's prices on food, clothing, furniture, furs, cars and other things are from 40% to 100% lower than they have been in years and lower than they will be before the turn of another season.

Don't be caught off your guard when it's so important that your savings be guarded.

THE BULLETIN MOUNT JOY, PENNA.

Save Time in Plowing Large, rectangular fields are the cheapest to plow, for less time is lost on the turns and in plowing the headlands.

Select Fruit Exhibits

Apples for exhibit should be selected while the fruit still is on the trees. From the time of picking until the fruit is finally arranged in the exhibit, it should be handled as carefully as eggs. Apples of good average size for the variety are better than very large or the small fruits.

Eat Plenty of Tomatoes

As a health-promoting vegetable, the tomato has no equal. Unlike most vegetables, the tomato does not lose its vitamins when cooked. Tomato juice is equal to the orange juice in food value, and it is less expensive. Tomatoes are always good for the health, whether eaten cooked or raw.

Produce Clean Eggs

To produce clean eggs provide one nest for every five birds, use shavings for nesting material, keep birds confined if possible, screen the dropping boards with one and one-half inch mesh wire, and gather the eggs frequently.
