To Make Good Pies

IT'S a gift, some say. It's luck, say others. It's a good recipe—and a little care, say we. People differ as to what constitutes a good soup, a good salad or a good sweet, but they seem to be pretty generally agreed that good pies should have tender, flaky crust that stays crisp, and an interior which melts in your mouth.

The Why of Pie
Flakiness of crust is the result of alternate layers of flour and fat and depends on the amount of cutting one does when making the pie into the flour. The water should be used only when the crust is ten to fifteen minutes in the refrigerator over night. The next day roll out and bake immediately in a hot oven.

For the filling, mix the contents of a No. 2 can of apple sauce, two tablespoons melted butter, one teaspoon lemon juice and one-fourth teaspoon salt. Fill the pie with the baked pastry with this mixture. Sprinkle with cheese over the top.

Apple Sauce Pie: To make the pastry, put two cups pastry flour and one-half teaspoon salt through a flour sifter into a bowl. Add one cup lard, chopping it into the flour with a sharp knife. Then add ice-water—just enough to hold the flour and lard together—very slowly, mixing all the time lightly with your hand. Roll the paste into a lump. Cover it with cheesecloth and place in refrigerator over night. The next day roll out and bake immediately in a hot oven.

For the filling, mix the contents of a No. 2 can of apple sauce, two tablespoons melted butter, one teaspoon lemon juice and one-fourth teaspoon salt. Fill the pie with the baked pastry with this mixture. Sprinkle with cheese over the top.

WILL MAIL FORMS FOR DRIVERS JAN. 2

The bureau of motor vehicles, Department of Revenue, announced today that operator's renewal cards for 1933 will be mailed on January 2 to operator's holding a 1932 license.

Operators who have changed the address during the year and have not notified the bureau of the change should do so now. This will assure prompt delivery of renewal applications. Change of address notification must be made on Department Form RV-M-18. The form may be secured from the bureau at Harrisburg or from any automobile club, notary public or justice of the peace. There is no fee for either the form or for changing the address.

Like motor vehicle renewal registration applications for 1933, operator's renewal applications also have been made smaller. This has reduced the cost to the State considerably. In the past the operator's application was 9 1/4 inches long. Those for 1933 are 8 1/4 inches long. The width remains at four inches. The operator's card carried on the person has been reduced

Overweight Trucks

State highway patrolmen made 156 arrests in November for operation of over-weight trucks. Thirteen arrests were made for operation of trucks in excess of the legal length and width, and 116 truck operators were arrested for speeding.

In the same period sixteen bus operators were arrested for speeding.
