

Some Common Garden Pests

EVERY YEAR THE BATTLE IS RENEWED AGAINST MONSTERS LIKE THESE. Here you see George E. Sanders, entomologist of the Bowker Chemical Co., makers of Nicotine Pyrox and other insecticides, with greatly enlarged models of three common garden pests, the aphid, the horned tomato worm, and the potato bug. Their armies are so destructive and increase so rapidly that if unchecked they could make short work of man's food supply and so destroy man himself; even with the resources of science to combat them they still do millions of dollars damage to crops and gardens annually. Chemicals are still the main weapon with which man must battle for control. Nicotine Pyrox has been found particularly effective as it contains nicotine to kill sucking insects such as the aphid, arsenic to poison and destroy leaf-eating pests such as worms and beetles, and a copper ingredient to control fungus diseases. This new combination of scientifically blended chemicals provides a three-in-one remedy, a powerful weapon in the unceasing war on insects.

Religious News In Churches

NEWS PERTAINING TO ALL THE CHURCHES IN MOUNT JOY AND THE ENTIRE SURROUNDING COMMUNITY.

All the church news in this column is published gratis and we solicit the news of your church. Ask your pastor or someone to mail or bring this news to this office every Tuesday afternoon.

Mount Joy Mennonite Church
9:00 Sunday School.

Kraybill's Mennonite Church
9:00 Sunday School.
7:00 P. M. Preaching.

Donegal Presbyterian Church
Rev. C. B. Segelken, D. D., Pastor

Earl Newcomer, Salunga.
Mrs. Ruth McLaughlin, at Garden Spot Restaurant.
Miss Mary Keiser, teacher, at Marietta Street School.

At Marietta Theatre

On Wednesday and Thursday, Ruth Chatterton is to be seen starred in "Frisco Jenny." In this picture Miss Chatterton departs from her usual screen roles, high society portrayals, and is seen as a scarlet woman of the old Barbary Coast of old San Francisco. The story is a thrilling tale of the priestess of the temple of pleasure, who rules her world with an iron hand, but who in the end gives up her life to shield her son from the knowledge of his parentage. It is indeed a stirring tale and sight to watch Frisco Jenny fight her way into the leadership of the vice ring of the old Barbary Coast, where gilded dives and gambling dens formed the background for the wild orgies of the young bloods of the city a quarter of a century ago.

On Friday and Saturday, including a special Saturday Matinee, the most hilarious comedy to date, "They Just Had To Get Married," starring Zasu Pitts and Slim Summerville, with a great supporting cast including Roland Young, Fifi D'Orsay, Veree Teasdale, C. Aubrey Smith and Henry Armetta, is the feature on the Marietta screen. Summerville's awkwardness is a perfect foil for Miss Pitts' lackadaisical nervousness, and as man and wife they are the center of a swift succession of hilarious situations. Miss Pitts seems chuck-full of those aimless gestures of hers, which always have struck audiences as something desperately funny and they are! The picture is one of the comedy gems of this year.

On Monday and Tuesday, the all-technicolor thriller "The Mystery Of The Wax Museum," comes to the Marietta, with Lionel Atwill, Glenda Farrell, Frank McHugh and Fay Wray heading a large cast of sterling players. It concerns a strange monster that kidnaps living persons and steals bodies for the most astounding reason imaginable. The missing figures, believe it or not eventually turned up as wax figures in a wax museum. Many of the scenes were made behind locked doors, as the girls who appear as models, were required to appear in what is known to the art world as "the altogether," as exact reproductions of their figures were being cast. In the thrilling climax, one of the "models" who is about to become a victim of the maniac is saved and a number of twisted love affairs are straightened.

The Lancaster Auto Club

Encouraging children to protect their pets also impresses upon them the necessity for protecting themselves when crossing streets. This is stressed by the Lancaster Automobile Club in its safety poster for the month of May being distributed this week to schools throughout the county. These posters are placed in a prominent place in school buildings.

The May poster, attractive in design and color scheme, pictures two youngsters holding back their dog until there is a break in traffic. "Three Wise Friends—Always on Guard—That's Safety" is the message the poster conveys.

"Hundreds of children are injured each year when they rush into the street in an effort to protect their pets," said S. Edward Gable, president of the Automobile Club. "While everyone will laud the thought behind such acts on the part of the youngsters, it is a dangerous practice. They should be urged to teach their pets also to watch traffic, and that is what the May safety poster of the Club endeavors to have them do."

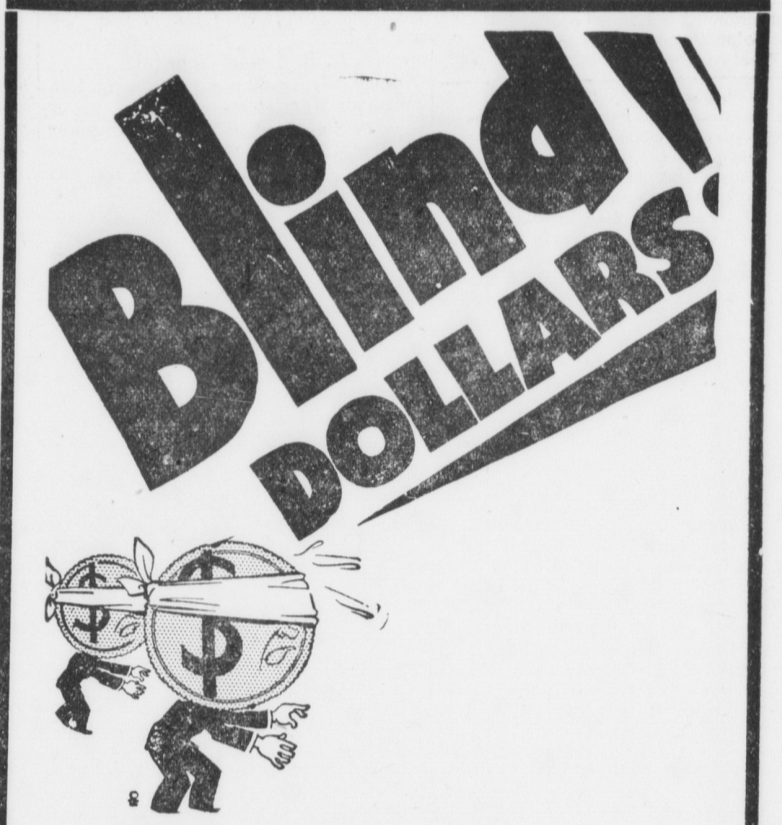

As part of its safety program the Automobile Club not only furnishes the monthly posters to the schools, but provides equipment for the more than 1,300 children in the patrols. In addition it is awarding at the end of the present school term an attractive certificate of merit to every boy and girl completing their work on the patrol. A beautiful medal also is being given to the boy or girl in each patrol who is selected by the school for outstanding service along safety lines during the year.

You are invited to inspect the residence of David M. Stauffer on Donegal Springs Road on Saturday and Sunday, April 29 and 30 between the hours of 2 p. m. and 5 p. m.

JOHN W. GREINER, Architect

Read—The Bulletin

Don't Keep Your Dollars Where They Can't See Daylight . . .

THE dollar down deep in the sock; imprisoned in the boodle bag or locked up in the strong box is surely blinded to today's bargain opportunities. Get them out; get them working; give them the chance to see the light of today's bargain opportunities.

Give them the freedom to work economy marvels they'll find their chances at every hand for the American dollar has good sense . . . the American dollar has ever been bred to practice thrift . . . active, energetic thrift . . . idle hoarding of the dollar made this the world's richest and most progressive nation.

At today's prices...the lowest in 15 years that dollar can work for you as it never has before . . . in clothing, furniture, food, furs, almost all things it can deliver from 40% to double what it purchased in years when you spend it freely. Now is the time to store commodities, not dollars.

The purchasing power of the dollar is today at its fullest, hold on to it and it will shrivel up as surely as today's bargains will fade and disappear with the return of higher prices. That return is very near at hand . . . so near that the procrastinator is sure to be caught napping.

Accept Tobacco Instead Money
(From page 1)
force here this week under a novel arrangement between a firm here, business men and farmers of the surrounding territory who have been dealing with the firm.
The business men cancel the debts when the farmer delivers an amount of tobacco equivalent to the debt.
A number of farmers in this district were unable to pay their coal and feed bills contracted in the past.
They could not pay their bills because they could not sell their tobacco crops.
So the firm notified these debtors that they would accept tobacco in payment, and on Monday night they had received at their place of business a total of 76,000 pounds of the 1932 Lancaster county tobacco crop. A score of farmers delivered their crops on Monday.
The firm will pack the crops and are allowing the farmers in payment of outstanding debts, the following price for their leaf:
From six to eight cents a pound for wrapper leaf and from one to one and a fourth cents for filler leaf.
This sum is allowed farmers on old accounts and no man was permitted to bring more tobacco than was needed to wipe out his debt.
Packing of the leaf was begun immediately at the warehouse of the farmers' creditor. About 200 cases will be required for the lot, it was announced. The packing operations are under the supervision of Harry Heagy, an experienced tobacco dealer, of this place. He made extensive purchases in former years but did not enter the field for 1932 tobacco.
A majority of the farmers who made delivery Monday are residents of Mt. Joy, East Donegal and Rapho townships.
Tobacco has long been known as the big "cash" crop in Lancaster county, but the 1932 crop has moved slowly, tobacco men and farm leaders estimating that less than 25 per cent of the present crop has been marketed. Many growers report they did not have a single chance to sell, which, together with low prices for milk and other farm products, is adding to the farmer's difficulty just as a new crop season is starting.
Floyd S. Bucher said Monday that in his twenty years' experience as farm agent in this county there never was such a large percentage of tobacco on the farmers' hands this late in the spring.
The Elizabethtown firm co-operating in the charter plan is Grubb and Madeira, coal, feed and seed dealers. Paul Grubb and Isaac Madeira are the members of the firm.

International Brotherhood
No nation can any longer exist in and by for itself. This nation of ours is bound up with the life of other nations in a score of ways vital to us and to them. So have modern inventions annihilated space and time, so interrelated are the nations now commercially, intellectually, socially, industrially, that when one suffers all suffer, that one prospers all share in its better day.
It is of sovereign importance to the future of humanity that the children of this country and of other countries should be taught that they belong to one great family and that the spirit of kindness and good will should control them in their relations not only to members of their own nation but in their relations to members of all other nations. Not until this spirit triumphs shall we get rid of the ghastly horror of War.
