Disguised as Cow Polish guards on the frontier between Poland and Russia saw a herd of cattle peacefully grazing on the Russian side of the frontier under the care of a single herdsman. Suddenly one cow separated itself from the herd, and, under the eyes of the Red guards, in spite of the calls of the herdsman, grazed itself over the frontier. Then to the astonishment of the Polish guards, this "cow" split into two. Its skin fell to the ground and two young men ran toward the soldiers. It developed that they were students of the University of Minsk who had determined to get out of Russia. A previous attempt had been frustrated and they had to serve ten months in prison, so they used the unique method to make escape certain.—Montreal Herald.

Dublin Mansion Occupied The mansion house, official residence of the lord mayor of Dublin, Irish Free State, is again occupied after many months of repairs. The building became in such bad condition that it was dangerous to enter some of the rooms for fear that the ceiling or walls might fall. The lord mayor and his staff vacated about two years ago, and soon afterward all occupants left. The building is now safe, and resplendent in new decorations.

The Tiniest Baby A girl baby born at Pretoria, South Africa, is believed to be the tiniest baby in the world. At birth she was so small that they were afraid to weigh her for fear the act of weighing might injure her. In two weeks she weighed three pounds. For a long time she sat her nourishment through injections and through the absorption of olive oil applied to the skin.

Abandon Effort To Reduce Tax

(From page 1) persons were willing to dig into their pockets to pay the legal costs and the matter was finally dropped.

Before adjourning, however, the taxpayers appointed a committee to draw up a petition to the board of road supervisors, and made a number of suggestions, recorded by a temporary secretary, as to the points to be covered in the petition, looking forward to a tax reduction next year.

Briefly these points are: That the board shall place stone on as many of the township roads as possible this year, instead of spending money on paving a mile and a half between Milton Grove and Mount Joy as previously planned, that the board use the road scrapers only on Mount Joy township roads and that the board notify the taxpayers next year before the meeting at which it is to fix the tax rate and set the wage scale for the year.

James Berrier, the only member of the supervisors' board present Thursday night, declared that the board was not obliged to notify the taxpayers as requested.

Harvey Sheaffer, a member of the petition committee, reported that the taxpayers would meet in plenty of time next year to present the tax rate if they believed it was too high.

Some of those present were of the opinion that the supervisors are paid too much money. They did receive 50 cents an hour and the auditors reduced it to 45 cents. At the meeting it was suggested they accept a cut to 35 cents an hour.

To this Mr. Berrier responded by saying that if he must use his own car to transport tools, men, gas, oil, etc. to various points thruout the township, and for which he receives nothing, and do all this for less than 45 cents an hour, he would rather resign and let someone else do the work.

Dr. H. K. Ober presided at the meeting and Milton Eberle was secretary.
