

"Time and tide wait for no man."

Nor are the low prices of today and the turn of the tide toward higher prices going to wait for those who haven't the vision, courage and foresight to buy when prices are at the lowest ebb in 15 years.

And this changing of the tide as applied to prices is more than a mere simile . . . it's a certainty . . . price tides change as surely as ocean tides.

Today's prices on food, clothing, furniture, furs, cars and other things are from 40% to 100% lower than they have been in years and lower than they will be before the turn of another season.

Don't be caught off your guard when it's so important that your savings be guarded.

Have You, The "Can't Afford It" Habit?

THE use of that phase does not suggest the inability to buy so much as the desire to practice rigid economy . . . to save . . . to deny yourself needed and necessary commodities.

But Man, oh Man, and you, too Madam, how better and more effectively can you practice economy and thrift than to buy when prices are at their lowest ebb in years?

How more certainly can you insure economy than to replace worn or out-of-date furniture than when new is selling for one-third of what it sold for 15 years ago? Or to stock up on food products when they are 40% less than at any time since the war? Or clothing when \$53 today will buy you what you paid \$100 for in 1912?

What you really cannot afford to do is not buy because you cannot afford to miss today's low levels . . . prices that are an actual boon to reduced incomes . . . to the practice of sensible, far-sighted economy.

Salt Used in Many Household Tasks

The experienced housewife who delights in her knowledge of domestic science knows that some of the inexpensive common ingredients in the kitchen cupboard have a variety of uses—a household secret which should be imparted to the bride of a few months who is intent on saving household money to start a sav-

Pure table salt, for example, says Emily Banks, of the Worcester Salt Institute, is helpfully employed for many other things besides seasoning food. Its use, in fact, extends right to the bathroom medicine chest where it is handy for use in gargling and taking stimulating salt baths. Some of its more ingenious uses in and around the kitchen are pictured above.

Is Office Work More Fatiguing Than the Stage Work? "Not When You Take Salt Baths," Says Dana Hughes

DOES the average office girl who daily takes eight hours of dictation from a boss who is frequently grouchy, work harder than the theatrical girl?

"Don't you believe it!" says Miss Dana Hughes, stage and screen star who declares that not only is the work of the theatrical star before the camera or footlights more exacting but the average show girl can give an office girl cards and spades anytime in endurance. "Not only is theatrical work more fatigu-

ing" declares Miss Hughes, "But the average stage girl takes considerable exercise

All BUNDLES Must Be Left at the DOOR...

STRANGE ruling! Yet a ruling that is adhered to strictly by every church. The bundles in question are WORRY, CARE. They must be left at the door when you enter your Church. And when you come out again, the bundles will be gone! No matter how heavy your burdens, no matter how long or far you have carried them, they will be lifted from you as you enter. Remember that! When things are darkest, and you are weary, and the hill ahead looks too steep, and you feel that you cannot take another step, remember your Church.

Leave Worry and Care at Home

Your Church offers you strength, rest, courage. Let your Church help you. Come Let you Church help you. Come often. Come in sorrow, but come, too, in joy. For though the Church can make your sorrow less bitter it can also make your joy more sweet. Come to Church next Sunday and leave WORRY and CARE at the door.
