NO BETTER YET

When the Governors of five farm states went to Washington, D. C. last week to lay before President Roosevelt demands for further farm relief, we have every reason to believe that the pre-war purchasing power for the farmer, which was the goal of the Farm Adjustment Act, today is further away from mathematical realization than it was nearly six months ago.

They were assured "careful consideration to the methods proposed."

SILVER IN THE LIMELIGHT

Silver is going to be very much in the headlines when Congress meets again.

It's going to be there for a number of reasons—because world trade is still lagging and many authorities believe that the higher silver prices must be achieved before it can pick up; because talk of the inflation has caused still other authorities to remark that some plan for silver monetization might be a cure for currency ills; because the general depression in the mining industry has deprived thousands of jobs, and lost the nation millions in purchasing power, taxes, etc.

The silver problem hasn't yet received the official attention it deserves—there's been a great deal of talk, with a minimum of action. And that attention should be forthcoming as soon as possible.

COOPERATION OF TOMORROW

In a recent issue, the Dairymen's League News commented on future farm cooperators... the children of the parents who belong to the Dairy Men's League all of whom are learning some of the simple, yet fundamental, rules of cooperation.

It would be an excellent idea if all farmers and others interested in cooperation made an attempt to develop an understanding of it in the minds and hearts of the producers of tomorrow. A generation raised almost from infancy with a belief in cooperative principles, and with constant opportunity to watch them evolve and win success, should make incalculable future agricultural progress.

This is an especially interesting situation in the light of present agricultural conditions. It is said that much of difficulty experienced by the Department of Agriculture in raising the farm income is due to the fact that too many farmers are still disorganized, and it is a long and arduous task to bring them together on a common footing. The cooperatives are making the valiant drives to enter more numbers now, and they are succeeding. But they would have succeeded in a much shorter period had the farmer of today been schooled in cooperation by his forebears.

Stronger cooperatives, better supported, that is the ideal now. And along with it, there should be plans for assuring the fullest flowering of the cooperative scheme through preparing farm children to take their place in organized agriculture.

WE CAN'T HAVE BOTH

The greatest obstacle business is struggling against now is taxation. And taxation, as a result, is the principal barrier in the way of achieving the fullest success for the recovery plans that are now in operation.

No business can spend money it hasn't got. No business can put more men on its pay rolls when it is having a hard time bringing in enough revenue to meet existing demands. No business can expand with profitless balance-sheets.

It's a moot point as to how great an influence taxation was in prolonging and deepening depression. But it was, to say the least, considerable. When the national income touched the lowest point in decades, the cost of government loomed like Everest out of the plains of Tibet.

To regain governmental economy it is not necessary to curtail or damage necessary governmental function... it simply means that the waste, inefficiency and duplication of effort that is actually harmful to legitimate governmental work, must be eliminated. In some cases a start has been made, and the taxpayers have been saved millions... as in the post office department, which is breaking even for the first time in many years. But the work has barely begun.

Reasonable taxation is the friend of recovery, of employment and of higher wage scales, and individual and corporate prosperity. That must not be forgotten.

SPECTERS ON PARADE

One reason why there is less appreciation than there should be of the horror of our annual automobile death toll is that the accidents hap-

RAPHO TOWNSHIP

Communion services at Erisman's Mennonite church had a number of visitors with Bishop Henry Lutz officiating and 152 members including several visitors were served.

Clayton Nisley was elected trustee for a three year term, at the preparatory service preceding.

A group of young people of Fairview Church of the Brethren have formed a choir class which will meet weekly.

Ammon Bucher attended the Lutheran District Conference held at Middletown on Monday as a lay delegate.

Mrs. Albert Erb, Sr., is on the sick list.

Mrs. Levi Nisley is confined with a badly bruised shoulder, received from a fall.

The Farm Women Society members of No. 5 attended the meeting on Saturday at the home of Mrs. Grace Hostetter, at Mechanicsville.

Captain and Mrs. Richard Zook, of Canton, Pa., spent the week end with the latter's parents, Mr. and Mrs. Harry Rohrer. Captain Zook is attached to the C. C. Camp located 20 miles from Canton.

David Nissly, our enterprising potato farmer, recently traveled through Northern Pennsylvania and State of Maine, purchasing seed potatoes. 10 carloads are rolling and he expects to book at least 10 more, z z z.

On the Isaac Brubaker farm recently purchased by Mr. Nissley, a lot of feeder cattle have been stocked. Henry Erb is raising dogs for several years and says it pays "better" than anything else on the farm. Bow Wow.

The School directors announce the Saturday morning meetings will be discontinued, and will meet on Friday evenings, when teachers and patrons will render the program.

Our lower district Supervisor was seen at the Cider Mill with the Twp. truck loaded with apples. Who gets the Cider?

The voters are getting concerned about three township owned trucks, and three tractor scrapers. Strong sentiment is crystallizing for the state to take over more roads now.

Mr. H. E. Trout, candidate for the Legislature, was born and raised near Chestnut Grove School House. He's been a fighter and getter of the good roads, and many other things. A Straight Shooter.

Tobacco growers on the Crop Adjustment Plan received their first pay checks on Thursday.

Alvin Reist, president of County Wheat Control Committee, reports being very busy in assisting and completing contracts.

MARIETTA

Paid a Tribute to Former Local Teachers by Planting Trees

St. John's Episcopal church celebrated the centenary of the Oxford Movement on Sunday. Rev. Paul S. Atkins, rector of St. John's church, York spoke.

The Young People's Golden Link Society of Zion Reformed church entertained the Young People of the Maytown Reformed church at a Halloween party. There were sixty-five persons in attendance. Prizes were awarded to Margaret Carroll, Miss Meyers, Ethel Culp, Mrs. Harold Barch, Marie Hollenbaugh, Rev. Arthur Knoebel, Margaret Carroll, Virginia Kaufman, Blanche Bowers, Nancy Bowers, Lafayette Kurtz and Ted Hollenbaugh.

Tribute to Teachers

As a tribute to the memory of one teacher now dead and in honor of a second teacher who is about to complete 30 years of service in the schools of Marietta, children of the borough will plant two trees this afternoon.

The trees will be planted on the grounds of the Marietta school. One is a cut leaf weeping birch, the official Mother's tree of the United States and the other a Norway Spruce. Both trees were purchased with the contributions of Marietta school children.

Miss Miriam Erisman, now a teacher in the Fourth Grade of the Marietta school, will retire at the end of the present school year.

The memory of Mrs. Lizzie P. Lennox who died more than a year ago after serving in the schools for several generations.

pen far apart geographically, and at intervals throughout the entire year so that the total of a single day in a single locality does not particularly disturb us. Again, few motorists, comparatively speaking, see an accident in which someone is killed or seriously injured.

It would be well for the public to put its imagination to work on this situation. Here's one way to do it. Suppose that you, and all the millions of other car owners, could be seated in a tremendous reviewing stand. Marching by slowly in front of you are the 35,000 shrouded killers of persons who were killed by automobiles last year. To each shrouded figure is clinging one or more bereaved relative. The parade would take many hours to pass... a silent, marching line of lives that had been destroyed because some one was careless or reckless or incompetent.

The very unpleasantness of that illustration is what makes it valuable. The fact that only an infinitesimal portion of the 35,000 victims are killed in your community doesn't make any difference. Nor does the fact that only a comparatively few deaths occur on a given day. Remember that each year sees hundreds of tragedies as horrible as those of the Titanic or the Akron... and they are all unnecessary.

Think of that long, horrible parade. And then decide what kind of a driver you will strive to be in the future.
