Concern Seeks Location Florin Factory Building

PENN PLASTIC CORPORATION AT LEWISBURG WILL OPEN PLANT HERE IF THE PROPER INDUCEMENTS ARE AVAILABLE IN THIS LOCALITY

Several weeks ago the Bulletin had an article relative to a company which was making an effort to locate a plant in this locality. It may not be amiss at this time to publish more information concerning this enterprise.

The concern interested is the Penn Plastic Corporation now located at Lewisburg, Pa., now employing 60 people. The president is F. E. Getchell and the secretary and treasurer is Ralph F. Hartz.

The company manufacturers hydraulic pressed and plastic specialties. It also manufactures historical and legal documents, covering approximately 200 different articles.

Mr. William V. Coxe, of 304 Fulton National Bank Building, Lancaster, called at this office recently and stated that he is making an effort to locate the plant in the building formerly used by the Nissly Swiss Chocolate Company at Florin.

Mr. Coxe now has an option on the building from the Harrisburg Trust Company, to purchase said real estate for \$40,000. Of this amount \$5,000 must be paid cash and the balance will be carried as a mortgage by the present owners.

If the deal is consummated the plant at Florin would employ 140 people with a weekly payroll of \$2,000 asserts Mr. Coxe. They will manufacture anything on paper or card board as well as manufacture all kinds of sanitary appliances, hospital accessories, etc.

The people in this community will be asked to raise some money toward this new enterprise. The company would elect one man from this locality as an officer and also three members on the Board of Directors.

Any person interested in the project can get in touch with Mr. Coxe at Lancaster or the plant at Lewisburg.
