DEPOSITS INSURED BY The Federal Deposit Insurance Corporation WASHINGTON, D. C. \$5000 MAXIMUM INSURANCE FOR EACH DEPOSITOR \$5000

The First National Bank and Trust Company, of Mount Joy, today received from the Federal Deposit Insurance Corporation at Washington the official signs which will hang at all receiving windows as visible evidence that the depositors of this institution are insured.

The First National Bank and Trust Company, of Mount Joy, is one of more than 14,000 licensed banks in the country which are receiving these signs. Insured banks are able to offer protection to their depositors up to \$5,000. Statistical studies have shown that this maximum fully protects more than 97 per cent of all the depositors in insured banks.

A statement by the Federal Deposit Insurance Corporation follows: "The purpose of the signs is to let depositors know which banks are insured. Heretofore, although 90% of the licensed banks are insured, depositors have had no easy means of identifying them. "If, by any unforeseen circumstance, an insured bank should suspend, the Insurance Corporation would begin paying off the depositors just as soon as a receiver was appointed for the closed institution. The depositors would receive their money in a few days instead of waiting months or years as was the case in the former method of liquidation. This is not only a benefit to the depositors, but it saves the community from a terrific economic and social blow. When the depositors receive their insured accounts they assign their claims to the Insurance Corporation. Thereafter liquidation proceeds on a business-like basis with the maximum chance of the Corporation and other creditors being paid in full."

"Any person violating this act shall pay a fine of \$2 and costs of prosecution and in default of payment thereof shall undergo imprisonment for one day."

The Burgess requests bicycle riders to comply with the above regulations, thereby preventing accidents. Mr. Keener informs us that in case a motorist runs down a bicycle rider traveling without lights, the rider is directly responsible for said accident.
