For The Cow Stable

Superphosphate can be used in the cow stable. It absorbs ammonia and other stable odors. The greatest value of using superphosphate in the stable, however, is that it supplements the manure with needed plant food, making it much more valuable on the land.

DETTON-CHRISTY MATCH AT HARRISBURG TONITE IS SURE A NATURAL

Dean Detton, the famous Salt Lake City star, and Vic Christy, brilliant youngster from Nebraska, are all set for their big windup battle that headlines the new show which starts off the 1936 season at the Zumbo Mosque, tonight, Wednesday, January 29.

The two young stars are prepared to give local fans one of the most sensational battles ever staged here. Detton and Christy are two of the best men in the game today, and their matching can mean but one thing—a rip-snorting hot battle to the finish, and fast all the way.

Detton is gunning for the title, not in the ordinary way, but by proving his worth in the Philadelphia tourney. He entered as a dark horse and is being booned now as the next world titlist. Detton knows, however, that he has a target to face in Christy, lone of the ranking young stars in the game.

Christy has shown here a number of times. He has always impressed with his clean-cut style of grappling and his ability to take on the best in the game and give a great show, win or lose. Christy, however, has been on the winning end most of the time in this city and he means to come out right on top when he faces the Salt Lake City star, Detton.

The semi-final will send George Kalmikoff, the bearded Russian, against Harry Kent, a smart boy who appeared here before. Kalmikoff is a comical grappler with all the tricks of the trade at his command. He faces a tough boy in Kent who may give him little or no time to be funny.

The half-hour duels are brilliant, too. In one Joe Dusek, of the Dusek riot squad, engaged Stan Sakolis, former U. of P. all-american football captain. These boys will give a great show. Freddie Grubmier will take on Harry Finklestien, in the other half-hour match.

The show starts at 8:30 o'clock and ladies are admitted free with male escorts in the main sections.

He's Moving Up

Jack Gibbons, twenty-two years old, carries a name famous in ring history. As he started a tour of the Pacific coast this St. Paul lad could boast of winning 64 bouts, 24 by knock-outs. Experts think he may be a contender for the heavyweight title. Jack's father is Mike Gibbons, welterweight champion in 1912, and his uncle was Tom Gibbons, who fought Jack Dempsey at Shelby, Mont., in 1923.

Honeysuckle To Protect State Roads

charge of the work. He said several stretches in Lancaster county will be protected with the sweet-scented flowers this spring.

He expects that 15,000 or more plants will be used on the Creswell road outside of Millersville, and hopes to plant some on the Mount Joy-Manheim road and the river road above Falmouth in Lancaster and Dauphin counties.

"The primary purpose," Stewart said, is not to beautify the roads, although that is an advantage also. The chief value lies in the money it saves the department. One 1,000 foot stretch in Lycoming county cost the department \$500 to clean every year; since the sides are planted, it doesn't cost anything.

Property-owners where the honeysuckle is prevalent are glad to get rid of it, Stewart said, and WPA workmen remove the plants. Three are tied together in the hope that when replanted at least one of the three will take root.

The Renewal Forms For '36 Are Mailed

(From page 1)
mistakes might easily be made for which the applicant would be held liable.

Each applicant must state on his blank whether his license has ever been suspended or revoked and whether he has been involved in any automobile accidents within the preceding twelve months. Drivers involved in accidents must give further particulars on the reverse side of the application.

Financial Responsibility
Persons involved in two or more accidents within the preceding year caused at least partly by their negligence and resulting in damage claims of more than \$200, those who have failed to make settlement within fifteen days after final judgment of more than \$200 resulting from an accident, and those who have at one time had their license suspended or revoked must furnish proof of financial responsibility before a new license will be issued.

Such proof must guarantee ability to pay up to \$10,000 for personal injury in addition to \$1000 for property damage. It may be in the form of a certificate showing that an operator's policy in this amount has been issued by an insurance company, a corporate surety bond or a cash deposit of \$11,000 with the Secretary of Revenue.

W. J. B. Winters, Director of the Bureau of Motor Vehicles, asked that any holder of a 1935 license who fails to receive his 1936 renewal blank should advise the bureau giving his name, present address, and the plate and operator's numbers from his old card. Any person who held no license for 1935 but did have one for either 1933 or 1934 must apply on Form T-25 which may be secured from the bureau, motor clubs, notaries public, etc.

Winters advised a separate check for each operator's license in cases of bulk renewals from municipalities or large business concerns.

Fountains Save Labor
Automatic drinking fountains on the poultry farm will save labor. Each hundred birds in good condition will drink 4 to 5 gallons of water a day. This means about six tons of water a year.

Learn Poultry Dressing
Club members are learning to dress the poultry grown in their projects, thus increasing the returns obtained when the birds are marketed.
