"Safety First" Goodrich Tradition For Years

According to verified records The B. F. Goodrich Company of Akron, Ohio, started America's original "Safety First" campaign in 1913 while the automobile was in its infancy, according to Mr. H. E. Garber, Goodrich tire dealer at Mt. Joy and Elizabethtown.

This pioneer safety movement called for the erection of signs along the nation's highways to warn motorists of dangerous curves, intersections, and other death traps. Many of these signs are still in service.

Other Goodrich contributions, which for 22 years have kept pace with the rapid growth of the automobile industry are the Goodrich Safety Tread, the first non-skid tire; the Goodrich Balloon Tire with its button tread, designed to make motoring more comfortable, economical and safer; the Goodrich Safety Silvertown with the Life-Saver Golden Ply, the first tire specifically designed to combat the danger of high speed blow-outs.

In addition to these revolutionary product developments Goodrich sponsored the Silver Fleet which in 1929 drove 20,000 miles in the interests of safe driving and long distance motoring. And in 1931 it founded the Silvertown Safety League. A common sense code of safe driving was written and it is claimed that this pledge has since been signed by nearly two million motorists.
