

**THE MOUNT JOY BULLETIN**  
 ESTABLISHED JUNE 1901  
 Published Every Wednesday at Mount Joy, Pa.  
**JNO. E. SCHROLL, Editor and Publisher**  
 Subscription Price \$1.50 Per Annum  
 Six Months.....75 Cents Single Copies.....3 Cents  
 Three Months.....40 Cents Sample Copies.....FREE

The subscription lists of three other newspapers, the Mount Joy Star and News, the Landisville Vigil and the Florin News were merged with the Bulletin, which makes this paper's circulation practically double that of the average weekly.

**EDITORIAL**

**A CAPITAL IDEA**

Many, many are those who are soldiering on relief and New Jersey has found a way out. Those on relief were turned over to their respective municipalities April 15 and in three months the relief load was reduced 25,000 families at a saving of \$7,500,000. Other states should do likewise.

Of course if that were done in Penna. now, it may have a tendency to reduce the Democratic vote but then think of the money it would save for the taxpayers.

**POLITICS WILL UNDERMINE SOUND FARM COOPERATIVES**

A permanently successful agricultural cooperative movement must be "beyond politics."

One phase of the present Administration's farm relief program has been encouragement of the "production" and "marketing" farm co-ops. And the newly drawn Republican platform affirms support of the farm cooperative plan.

The co-ops have earned those endorsements. They are relatively young—but in a brief space of years they have achieved great things. They have brought to the business of producing and selling farm products the scientific, mass-action theories that are employed by industry. They have shown the farmer the way to a prosperous future.

No, there can be nothing political or partisan about scientific cooperation. It's simply good economics and good social policy.

**DEATH WALKS THE HIGHWAY**

The gods of recklessness are devouring thousands of lives each month on American highways—and there is no limit to their appetite.

During the recent Fourth of July week-end, close to 500 people met accidental deaths—the largest number for that period since 1931. Fireworks were responsible for a smaller number of fatalities than usual—but that greatest destroyer of all, the carelessly operated motor car, chalked up a grisly record. And every week-end witnesses similar occurrences. If, in a single disaster such as an earthquake or a fire, as many people were to be killed as have been killed in accidents in the last month, the world would be aghast. But we seem to regard accidents as being inevitable, and look upon them with equanimity.

But the great tragedy is that accidents are not inevitable. Nine out of ten are preventable and easily preventable. Carelessness, recklessness, ignorance and stupidity are the principal causes of accidental injury and death, and surely they can be cured—through law, through force of public opinion and, perhaps most important of all, through education of the individual.

Death walks the highway. He strides through our homes. He is an unseen visitor at every place of amusement. He is apt to put in his appearance in the happiest hours. The deaths that follow accidents can be eliminated almost 100 per cent. if we will only make a small effort, and learn that a foolish act that saves a minute or provides a brief, futile thrill can send us or others into eternity. No graver problem faces the American people than the accident problem—and its solution is entirely up to the people.

**PROFLIGATE GOVERNMENT**

Here's a comparison that will give you something to think about:

From the time of President Washington (1789) to the time of President Wilson (1913) the successive Federal congresses appropriated a total of \$21,000,000,000. That sum paid all the central government's expenses for the 124 years, including the cost of a number of wars, such as the Civil War, War of 1812 and Spanish American War.

During the last four years, two congresses have appropriated about \$32,500,000,000—eight billion more than was appropriated from the inception of the American government up to the first administration of Wilson.

No one political party can be blamed for this prodigality—both Republicans and Democrats have shown a shameful disregard for the people's money. Nor has the spending trend been confined to the last few years—ever since the World War, the government has shown an accelerating tendency to fatten the budget. Nor can the politicians be blamed to the exclusion of everyone else—a supine and indifferent attitude on the part of the people has given them a free hand with the public's hard-earned dollars.

Today taxation saps the wealth of the nation to a menacing extent. At least 20 per cent of the people's total earnings are taken by the tax-gatherers, and the percentage would be much greater if it were not for the fact that a large part of the spending is being charged against the future, in the form of public debt. A thousand industries have discovered the meaning of "profitless prosperity"—their output and sales are soaring, but their profits are not, because of the tax bill.

This all means that employment opportunities are constantly lessened for men and women—that industrial expansion and spending are stopped—that investors are frightened and refuse to place their savings in ventures that would create new sources of wealth and employment.

Taxation is an intensely personal problem—it menaces everyone's source of income, whether that income stems from a job or an investment. We cannot have real and permanent prosperity so long as we permit government to disburse our dollars with profligate hands.

**HAPPENINGS  
- of -  
LONG AGO**

**35 Years Ago**

Harry Stoler sent up a big balloon last Saturday evening. Ezra Mumma tied his horse to a freight car at Brandt and Stehman's Mill. A shifting local freight bumped the car to which the horse was tied; causing it to back, upsetting the wagon and throwing the horse, injuring it.

Schlegelmich and Welfey, local blacksmiths, donated a twelve-foot iron rod to be used on the new steeple of the Methodist Church. A bear's skull was removed from the limestone quarries at Bainbridge. It was fourteen inches long and twenty-one inches around projections. Cavities of large incisors were two inches deep.

Mrs. Harry Greiner, of near Mastersonville found fifteen land turtles eating the finest vines in her cucumber patch. Carrying them away the next day she found three more.

A catamount in the York county hills opposite Marietta, makes such terrible noises that campers keep a fire all night to keep the wild animal away.

The Rag Time Orchestra of Marietta played some specially fine music in town Tuesday.

Harrisburg Express was specially stopped at Florin for Ex Senator Don Cameron to take passage.

Some person, in paying tax collector J. W. Roland, gave him a plugged quarter.

Eggs were selling at 13 1-2c a dozen, hockleberries 6 and 7 cents a quart.

A 12-horse power Springfield gasoline engine belonging to Jacob Stehman, was started and is working perfectly.

A British pickle canner had his pint cans made to hold more than a pint so as to be on the safe side of the law in giving full measure.

A man payed the penalty of crime when he was hanged in the Dauphin county jail yard. It took him fifteen and a half minutes to strangle to death.

**SUMMER ILLS MAY BE CAUSED BY FOOD SPOILAGE**

Those numerous summer ills that so often "upset" babies and children, and many adults, too—while usually blamed upon the heat—are frequently caused by spoiled food. Milk especially is apt to be dangerous because, even though it remains sweet, if it is not kept below 50 degrees F., dangerous germs may develop. Diarrhea, loss of appetite, and similar complaints are often due to this cause.

While improperly kept milk is the most common cause of hot weather illnesses, it is by no means the only food that must be carefully refrigerated. Meats are highly perishable, as are many salads prepared with mayonnaise, or other dressings. Left-overs, too, must be carefully watched. In fact, the only way to know your food is safe is to be sure that your refrigerator temperature is always below 50 degrees. Let the Cold-Gauge tell you.

If pasteurized milk is not kept cold, the dangerous Welch's bacillus and other germs will develop. Diarrhea in children is often due to this cause.

**New Rangerette**

Here's Shirley Temple, the newest Texas Centennial Exposition Rangerette. Officials of the Exposition, a \$25,000,000 World's Fair opening in Dallas June 6, also invited her to attend opening day ceremonies.

**20 Years Ago**

Mt. Joy's boy scouts are camping on the city's playground, near Cemetery Hill on the Gettysburg field.

The turnpike between Florin and Mount Joy is being repaired with crushed stone, sprinkled and then rolled.

Mr. Ralph Ehleman made a neat job of lettering on the new road sprinkler for the Lancaster, Mt. Joy, and Elizabethtown turnpike company.

Joseph Breneman was elected coach of our new football team. A Hummelstown sexton, borrowed a number of sheep from a farmer and turned them loose in the cemetery to mow the weeds.

The Bulletin wanted to mail five hundred bill heads to a customer in Landisville. The package weighed one pound and the postage was sixteen cents. However the clerk said if the package weighed four pounds it would go for eight cents. The management took the package home, wrapped a three pound brick in with the bill heads and sent it for eight cents.

Mr. Bollinger, Maytown Hotel man, bought a new Marion Six.

Three Craley children are quarantined for diphtheria.

Samuel Pea, president of the P. R. R., waited a half-hour before he could pass over the Columbia bridge because of a train.

H. E. Hauer is having his mid-summer clearance sale, lasting two weeks. Ladies house dresses are selling for 50c. Toweling 5c a yard. A big lot of lace, 2 yards for 5c. Coffee 15c per pound. White skirts 39 and 59c. Middle blouses 35c.

F. B. Groff is selling leather bug-gy nets for \$2 to \$3.75. Watt and Shands advertise a sale of suits for \$7.50 in the Bulletin's advertising columns.

Buchanan and Brown advertise linen dusters and pongee silk auto coats for \$1.98 in the same columns.

Mr. James Gladfelder erected an 11 ton monument on the burial grounds of Channing Sweitzer at Glen Rock.

Visit the Garden Theatre in Mt. Joy, where the breezes blow from the new electric fans.

Samuel Lindemuth operates a jitney between Maytown and Marietta.

Maytown residents have begun the erection of a hose and engine house in the rear of the band hall. Clarence Gibble has erected a pillory, in his Middleton Grove blacksmith shop, to subdue vicious mules when they have a desire to kick.

**IRONVILLE**

Connie Louise and Geraldine Hughes of Detroit, Michigan, are visiting with their grand parents, Mr. and Mrs. Taylor Weaver.

Miss Joan Kauffman, an employee of the Hamilton Watch Co., spent her vacation at Atlantic City, N. J. Mr. and Mrs. C. M. Kauffman and Ephraim Fornoff, were visiting at Berwyn, Pa., over the week-end.

Mr. and Mrs. William Norman of Baltimore, Md., are the guests of Mr. and Mrs. LeRoy Mellinger. On Wednesday afternoon the Junior department of the Ironville GESS will hold their picnic at Twin Oaks.

Services at the Ironville UB church on Sunday as following Sunday school at 9:30 A. M. Worship with Rev. W. C. Blatt in charge at 10:30 A. M. CE at 7 p. m. The official board of the Ironville UB church held their monthly meeting on Monday evening, the pastor was granted a two weeks vacation over the two Sundays in August 9th and 16th.

Mrs. Ida Singer was visiting several days in New York City, being accompanied by her son, Harry of Lancaster, Pa.

Mr. and Mrs. Cleon D. Staley, daughter, Ruth, Mrs. Edward Staley, son, Dennis and Catherine Lawrence were visiting relatives at Hanover, Pa.

A number of farm women from this district, attended the Farm Women's picnic at Elizabethtown on Saturday.

Simulate your business by advertising in the Bulletin.

She will be happy with This

**Cuts Washing Time in Two**

What you really have is two complete washers in one. Two tubs—two suds, both washing at the same time. Lukewarm suds in the first tub—scalding hot in the second. This is known as the "two successive suds" washing method and will wash the clothes beautifully clean without the need of either soaking or boiling.

Mon., Wed., Fri., Sat. 10 A. M. to 1 P. M.

**Kidneys Must Clean Out Acids**

The only way your body can clean out acids and poisonous wastes from your blood is thru 9 million tiny delicate kidney tubes or filters, but beware of cheap, drastic, irritating drugs. If functional kidney or bladder disorders make you suffer from Getting Up Nights, Nervousness, Leg Pains, Backache, Crises Under Eyes, Headaches, Rheumatic Pains, Acidity, Burning, Smarting or Itching, don't take chances. Get the Doctor's guaranteed prescription called Cystex. Guaranteed to fix you up in one week or money back on return of empty package. Cystex costs only 9c a day at druggists and the guarantee protects you.

**LOSE HEADACHE!**

That Relieve periodic pains, without opiates or quinine

Are you bothered with a nagging, splitting headache? Lose it for quick relief—without opiates, quinine, bromides or opiates—try a Garfield Headache Powder.

**GARFIELD HEADACHE POWDERS**

Write for FREE SAMPLE of Garfield Headache Powder—also Garfield's "Keep Your Headache Away" Tablets. Garfield Tablets Co., Dept. T, 230a, N.Y.

**TIRED, WORN OUT, NO AMBITION**

HOW many women are just dragging themselves around, all tired out with periodic weakness and pain? They should know that Lydia E. Pinkham's Tablets relieve periodic pains and discomfort. Small size only 25 cents.

Mrs. Dorsie Williams of Danville, Illinois, says, "I had no ambition and was terribly nervous. Your Tablets helped my periods and built me up." Try them next month.

Lydia E. Pinkham's TABLETS

**The MAGIC RAIN MAKER IMPROVES ROADS PREVENTS DUST**

YOU can keep roads dustless for months by applying Calcium Chloride to the surface, or by mixing Calcium Chloride with resurfacing or stabilizing materials. The secret lies in the fact that this "Magic Rain Maker" really gives the roadways the appearance and condition that a good rainfall gives a dry road. Calcium Chloride flakes have a natural affinity for moisture. They draw water from air and earth, amounting to several times their own weight, and hold the moisture in the road surface.

The moisture-absorbing properties make Calcium Chloride the ideal dust-layer, because, like rain, it brings clean moisture. This moisture gives binder-soil its binding action—its ability to form sand, clay, silt and aggregates into a soil mortar. The new type stabilized roads, some of them as dense as concrete, are balanced mixtures of ordinary soils and Calcium Chloride.

When you think of road improvement, think of Calcium Chloride. By all means improve your roads with a Calcium-Chloride-stabilized wearing course if you can, for it costs little more than ordinary gravel resurfacing. If funds are limited, roads may be improved by adding small quantities of gravel and soil binder with Calcium Chloride. Even where budgets are small, road surfaces may be made dustless with surface application of Calcium Chloride.

Settle the dust this season. Settle it early. Special literature tells how Calcium Chloride is used. Write today for the literature you want on dust-proofing or road stabilization with the "Magic Rain Maker"—Calcium Chloride.

Top—Surface Treatment: Spreading calcium chloride for dust prevention.

Bottom—Stabilization: A firm and smooth, all-weather calcium chloride-stabilized road.
