

OWL LAFFS

A WISE OWL

Yesterday Heagy was waiting on a little fellow in Brubaker's store. Heagy continuously carries on a conversation with the kids and he jokingly asked: "Say young fellow, do you know what a potato chip is?"

A very inquisitive lady asked Sixty Groff what gas is and Sixty said: "Gas is stuff that if you turn it on and don't light it the soft music they play you don't hear."

Clarence Hivner, that ever efficient auto mechanic from Elizabethtown remarked, while adjusting brakes: "Auto manufacturers still haven't developed a special break for speeders."

Joe Sheaffer explains: "Glue is what the flaps on envelopes would stick down better if you had good on."

Harold, our linotype operator quotes: "When a girl's legs are so unshapely as to be unnoticed by the opposite sex, they are called Safety Pins."

A married lady in Salunga sweetly cooed: "Darling, can you spare a dollar?" He growled: "Say, what do you think I am? I had to earn my money by my wits."

Which reminds me—That marriage ties are for-get-me-knots.

A young man from Florin, very green in the art of race horse betting (and there are a few left who don't know how), walked up to the betting window at a Maryland track, and said: "I'd like to bet five dollars on No. 3 nag in the third race."

Mae, one of our blonde graduates, after her return from the Washington trip, gurgled: "I think it's so cute to watch the mamma kangaroo carry their young around in their pouches. But it must be awful when they get indigestion, because then they can't keep anything on their stomachs."

A rising young would-be author from town says he wrote an entire play on just two sheets of paper. When the truth of that statement was questioned, he explained: "Well, you see, it's a bedroom play and all we need is two sheets."

Recently when I heard a certain local man complain of a cold in the head, a fellow nearby suggested: "Go home and put a hot water bottle in your hair and keep your wig-wam."

Shelly told the fellows that Saturday is the day of the great turf classic, the Frankfurter Handicap. ...Weiner take all. And the odds on the favorite are Mr. and Mrs. Dionne. ...you know, five to two!"

A young lady from Sporting Hill graduated from cooking school today. When asked if she graduated with honors she answered: "I should say so! With flyin' crullers."

FERTILIZE CAREFULLY

Potatoes will pay for good fertilization, but too much nitrogen may stimulate excessive vine growth of late potatoes and actually reduce the crop yield, Penn State agronomists remind.

THE LOST 20 POUNDS OF FAT

Feel full of pep and possess the slender form you crave—you can't if you listen to gossipers. To take off excess fat light on fatty meats, butter, cream and sugary sweets—eat more fruit and vegetables and take a half-teaspoonful of Kruschen Salts in a glass of hot water every morning to eliminate excess waste. Mrs. Elma Verille of Havre de Grace, Md., writes: "I took off 20 lbs.—my clothes fit me fine now."

ARE YOU ONLY A THREE-QUARTER WIFE?

MEN, because they are men, can never understand a three-quarter wife—a wife who is all love and kindness three weeks in a month and a hell cat the rest of the time. No matter how your back aches—how your nerves scream—don't take it out on your husband. For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

HOW OFTEN CAN YOU KISS AND MAKE UP?

FEW husbands can understand why a wife should turn from a pleasant companion into a shrew for one whole week in every month. You can say "I'm sorry" and kiss and make up easier before marriage than after. Beware! If you want to hold your husband, you won't be a three-quarter wife. For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2.
