

THE MOUNT JOY BULLETIN
 ESTABLISHED JUNE 1901
 Published Every Wednesday at Mount Joy, Pa.
JNO. E. SCHROLL, Editor and Publisher
 Subscription Price \$1.50 Per Annum
 Six Months.....75 Cents Single Copies.....3 Cents
 Three Months.....40 Cents Sample Copies.....FREE

The subscription lists of three other newspapers, the Mount Joy Star and News, the Landisville Vigil and the Florin News were merged with the Bulletin, which makes this paper's circulation practically double that of the average weekly.

EDITORIAL

In the cosmetic trade, a paper handkerchief has become "disposable tissue." We had heard the term but took it to mean an international treaty.

At the most solemn moments our frivolous mind turns to wondering how the square paper cap in the old labor cartoon would look on the Lewis mane.

MAKING BETTER FITS

In buying custom-made clothes, it seems to me that a man should take to his tailor all the valuables and junk that he ordinarily carries in his pockets. The procedure is to fit a suit with the pockets empty and with the subject standing upright, shoulders squared, before a mirror.

When the suit is finished the wearer promptly fills the pockets with handkerchiefs, cigarettes, cigars, billfold, fountain pen, match-safe, and what not. Then he lets his shoulders slump to their natural position, and the result is something dreadful.

It would also seem to be good sense that the tailor do some fitting while the subject is slouching in a chair because he will be slouching during nine-tenths of the time that he wears the suit.

There should be some way to curb the theft of automobiles in Penna. During the month of May only about one-third the number stolen were recovered.

A FIRE A MINUTE

Don't leave small children alone at home! Tragedy after tragedy has been recorded where an unintended child has been either killed or disfigured for life by fire. A recent case is cited. A boy of four and his brother of six months were left in the house when the parents went visiting. The boy pushed the baby buggy containing his brother too close to the heating stove. A blanket caught fire, and the infant was fatally burned.

Other accounts tell of fires started by children playing with matches. In still other incidents a stove door is opened or lids lifted off by the child and fires are started. Fatal results have often followed the pouring of kerosene on a fire by a child. All small children love to play with fire, and no precaution should be overlooked in restraining them.

Parents should immediately take two steps. First, never leave your children alone at home. Second, do the simple and inexpensive things necessary to the elimination of common fire hazards. All fireplaces should be screened. Clothes should be hung at a safe distance from pipes and stoves. All heating equipment and adjuncts should be periodically inspected and overhauled. Continuous care should be taken in handling and storing inflammable liquids. Waste of all kinds, such as paper and rags, should be disposed of or stored in metal containers. The wiring of electric appliances should be checked occasionally—a frayed or twisted cord can cause short circuits followed by fire.

Every minute a fire breaks out in America. Two-thirds of all those fires occur in homes. Will your home be on that list this year—and will you and your family be subjected to a menace that may take life, due primarily to your own carelessness?

MAYTOWN BAINBRIDGE

The Ladies Aid Society of the Reformed church held a food sale on Haines' lawn Saturday. Many good things to eat were sold and a neat sum realized.

A special musical service was held at the Evangelical and Reformed church, Rev. Alfred L. Creager, pastor, on Sunday evening. The program was given by the Reformed choir under the direction of Mrs. George Waller and Mrs. Joseph Waller and Mrs. Joseph Hollenbaugh, the organist.

Some of the features of the program were: "All Hail the Power of Jesus' Name," "Blest Be the Tie That Binds," and "Nearer My God To Thee," by male quartet, Messrs. Hollenbaugh, Waller, Creager and Haines; and selection "Jesus, Lover of My Soul" by women's quartet, Mrs. Fryberger, Mrs. Waller, Miss Anna Albright and Mrs. Haines.

CONTROL BEAN BETILES

Safest and most effective control material is rotenone used either as a dust or spray, say Penn State entomologists. When a dust is used it should contain 1/2 of 1 percent rotenone. For spraying use 1 ounce of finely ground derris or cube root (containing 4 percent rotenone) to 1 gallon of water.

William Mundorff and son, William, are spending several days at Saltsburg.

Mr. and Mrs. Ray Hesslett and Mr. and Mrs. Elias Byerly spent the week-end at Atlantic City, N. J.

Lehman Herchelroth, of Washington, D. C., visited his sister, Miss Emma Herchelroth, over the weekend.

Mrs. William Stokes and son, Wilbur, are the guest of relatives at Newport and New Germantown this week.

WATER TURF THOROUGHLY

Frequent light sprinklings keep the surface soil moist but usually do not penetrate deeply enough so that surface and subsoil moisture meet, say agronomists at Penn State. This encourages roots of the grasses to grow in a shallow zone near the surface. When water is withheld the roots cannot live in this zone, and, unable to strike more deeply because of the dry zone below, the turf dies.

You can get all the news of this locality for less than three cents a week through The Bulletin.

HAPPENINGS
— of —
LONG AGO

20 Years Ago

Mr. Benjamin Groff and quite a number of young men from town went to Mt. Gretna to work on building six miles of state road thru the grounds.

According to the weather report only 4 days in June were clear. 16 days were partly cloudy, 10 days cloudy and 15 days rain.

A Mennonite woman who missed several of her caps, drying in the yard, discovered that a pair of robins had taken them for nest building.

Because pretzel is German and pretzel is English, the Lititz bakers decided to quit the B and use the P hereafter.

Choice new potatoes are selling at \$1.50 per bushel.

Junk dealers from Middletown canvas the vicinity of Rheems and they met with such success they were able to load a carload of scrap iron with plenty on hand for another car.

Harry Derr, of Donegal Springs, was seriously injured while endeavoring to stop a runaway 4-horse team.

H. E. Hauer Markets: Eggs, 32c; Lard 23c; Butter, 38c. Brandt & Stehman: Wheat, 2.15; corn, \$1.55; Oats, .65.

On account of the consumption being greater than the supply from their wells, the Florin Water Company is having the wells dug 100 feet deeper.

33 Years Ago

Butcher Bennett has installed a new and improved scales at his meat market.

Any person in need of a good organ can buy one very reasonable by calling on David Garber.

There are a number of farmers in East Donegal Twp., that paid their working men \$1.60 per day during haymaking and harvest.

The employees of the Industrial Works were badly scared, when lightning struck the building, damaging the electric light wires.

Jacob Y. Kline made a concrete water trough for John M. Kern at Landisville that weighed almost one ton.

The first time in a number of years the water stopped flowing in the water trough at the Florin Hotel. The proper repairs were made and the water is running thru again. This water comes from a spring near the home of Samuel Walters.

The masons on the new addition to the school building are very busy and have two stories of the addition in position.

The Cornet Band of Newton played for the festival at Union Square. The trip was enjoyed by the boys. Amos Strickler hauled the boys to their destination.

Mrs. Elizabeth Mumma, of Newtown, showed us a potato of the Twin Bros. variety that tipped the scales at one lb.

Two men of Donegal while cutting wheat, lost the main drive wheel and did not notice it until they made three rounds.

George W. Snyder, of Donegal, better known as "Pipeline George" will pay Fannie Nogo of Peaytown a visit.

Mrs. Mary Metzler, of Sporting Hill, has a chick without eyes, this is quite a freak.

Do you know that rural free delivery carriers have the right of way and cannot be lawfully interfered with by drivers of other vehicles?

Jacob Greider, of Salunga, is busy erecting a very large cider mill a short distance east of town.

Young Bros. the enterprising and successful coach builders, of Florin, have decided to undertake building an automobile. It will have a jennylind body and when completed will be the property of Abram Boyer. It will be finished in about three months.

U. Z. Geib, of Rapho, has commenced topping his Havana seed tobacco.

HOT WEATHER CAUSES SMALL EGGS

Farm flock owners have noticed that smaller eggs are produced by the laying flock during hot weather, report Penn State poultrymen. This decrease in egg size may amount to 15 to 20 per cent and will effect the market value of the product.

REALTY AUCTIONEERS MUST BE LICENSED

The Department of Justice has advised the Department of Public Instruction that it is necessary for an Auctioneer to possess a real estate broker's license before he may buy and sell real estate in any capacity. The Act provides that the term "real estate broker" shall include all persons, who for another and for a fee, commission or other valuable consideration, shall sell, exchange, purchase or rent or shall negotiate sale, exchange, purchase or rental, or shall offer or attempt to do the same, or shall hold himself out as engaged as such. It shall also include any person employed by the owner or owners of lots or other parcels of real estate at stated salary, or upon commission, or upon a salary and commission basis, or otherwise to sell such real estate or any part thereof in lots or other parcels, and who shall sell or exchange or attempt so to do, such lot or parcel of real estate.

COVER CROPPING REDUCES WASHING

Cover cropping may be practiced on a small scale to reduce washing in the depressions in tilled fields where the water collects and forms gullies, according to Penn State agronomists.

When in need of Printing, (anything) kindly remember the Bulletin

The Fresh Air Children Are Com'g July 14

LOCAL COMMITTEE IS MAKING ARRANGEMENTS TO CARE FOR THEM WHILE ON A TWO WEEKS VACATION HERE

Arrangements are being completed to receive in Mount Joy and community a number of "Fresh Air" children from New York. These children, selected from the tenement sections of New York are sent to Friendly Towns each year by the Tribune Fresh Air Fund to stay two weeks in country towns. The children are the guests of friendly town people who wish to be the hosts of these little boys and girls. The children range from four to fourteen years of age.

A committee has been selected to arrange for the reception of the children. The committee carries on its local campaign, sends the Fund its invitation list, receives the children when they arrive, and collects them when the time comes for their return. This is all a "labor of love." "Friendly Towners" neither ask nor receive pay; they do what they do out of simple kindness of heart.

The local committee: Mrs. Benj. Brown, Mount Joy St., Mrs. Eli Smeltzer, Mrs. Warren Bentzel, Mrs. Eli Ebersole, Mrs. William Diffenderfer, Mrs. Geo. Brown, W. Main St., Mrs. Lester Roberts, Mrs. Calvin Kramer, Miss Ada Kraybill, Mrs. Wm. Ellis, Mrs. Frank Walter, Mrs. N. N. Bear, Salunga; Mrs. Omer Kling, Florin; Eli B. Hostetter and J. M. Booth will receive invitations up to June 20 for boys and girls to come Mount Joy and vicinity.

The children will arrive on July 14th for a two weeks stay.

All who are interested in this should see one of the committee and make known your desire: State whether you want a boy or girl, and about what age. More than one child can be secured if it is desired.

The committee will do all it can to help place some of these youngsters in our real American homes.

PACIFIC FIR GOES TO NEW YORK FAIR

NEW YORK (Special).—"Good old Douglas fir" from the Pacific Northwest will provide the foundations for the most spectacular of wonders at the New York World's Fair of 1939. This was learned when the Fair Corporation offices in the Empire State building announced the purchase of more than \$100,000 worth of fir pilings from the National Pole Treating Company. This particular lot of fir sticks will be driven into the ash fill of the 1216-acre exposition site to guarantee the support of the two unique structures forming the Theme Centre of the "Nation's Fair." These are the 200-foot Perisphere, a globe seemingly supported on the waters of fountains, and the Trylon, a 700-foot triangular needle or beacon and broadcasting tower.

Shipments of the 1280 sticks, 95 to 99 feet in length, are taking place this month, after creosote treatment has been accorded them either at the National Pole and Treating Company's plant at Hillyard, Washington, or at the Minneapolis yards.

This is the Fair's second purchase of fir from Northwest sources. An order for 770 sticks of similar length was filled early this year from Oregon cuttings. This earlier shipment of piling supports the Fair's \$800,000 Administration Building already erected on the grounds.

\$17,537, 193 IN LIQUOR LEVIES

Secretary of Revenue J. Griffith Boardman today reported receipts of \$652,727.08 from the Malt and Hard Liquor Taxes for the month of May. Total receipts from these taxes for the 1935-37 biennium to May 31 totalled \$17,537,193.07.

The receipts for the month were: malt beverage tax \$651,264.93; distilled spirits tax, \$1,047.29; rectified spirits tax \$240.55; wines tax \$74.31. Receipts for the biennium to May 31 were as follows: malt beverage tax, \$14,155,564.46; liquor floor tax, \$3,323,921.85; distilled spirits tax, \$41,409.81; rectified spirits tax, \$14,741.63; wines tax, \$1,545.32.

658 CARS STOLEN IN MAY; 200 RECOVERED

A total of 658 automobiles were stolen in Pennsylvania during the month of May, the Stolen Car Unit of the Bureau of Motor Vehicles reports.

Of this number 229 cars were owned by residents of Pennsylvania and 429 by non-residents. During the same month 200 cars owned by residents of the State were recovered. Of this number 132 were cars that had been stolen during the same month.

Even Simple Home Life Is Dangerous

Expert Tells How to Avoid House Hazards

Ignorance of Danger and Careless Use of Modern Equipment Is Cited

By WALTER JAMES STUBBS Safety Engineer

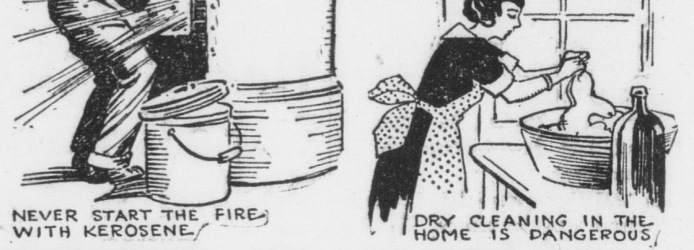

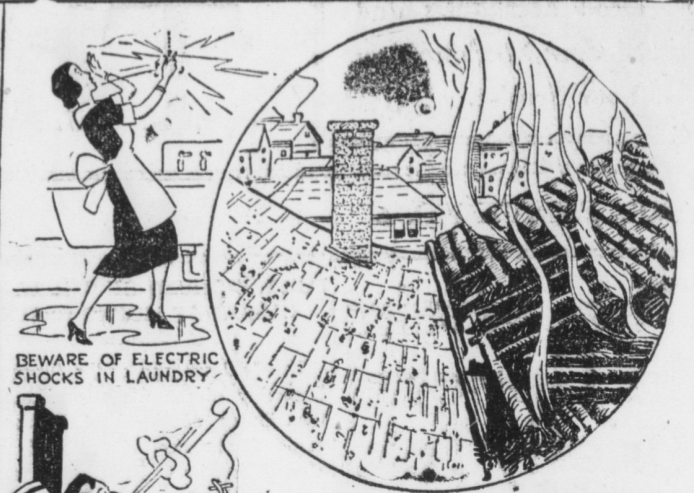

The American home should be the safest place on earth—but it isn't. On the contrary, life in the American home is perilous. Fire and accident make it so. And instead of decreasing, the nation's peace-time casualty list is increasing rapidly.

Adventurers go to Africa to shoot big game; to the Alps to scale dizzy mountain heights; to the polar regions for exploration. But statistics indicate that they may be safer than if they had remained in their homes in America. In 1935, according to the National Safety Council, 31,500 persons died as a result of accidents in American homes. In 1936, the total grew to 39,000 deaths. That is more than double the number of fatalities that occurred in private industry and almost twice the number of deaths resulting from motor accidents during the same period.

The worker in his factory or en route to and from home by motor is safer than he is at home. He is careless at home. He is more careful at work or on the road. Fire is a tremendous hazard in the American home. According to the National Fire Protection Association, a home is attacked by fire every two minutes throughout the year in this country. In 1935, there were 260,000 home fires and the loss totalled between \$85,000,000 and \$100,000,000. Eight thousand deaths were caused by burns, fires and conflagrations. Eighty per cent of those deaths came from fire in the home.

The use of combustible roofs, instead of fire-retardant roofs such as asphalt shingles and tiles; careless habits in smoking and the use of matches; defective chimneys and flues and defective wiring are among the major factors in the tremendous annual fire loss.

Fire and accident can be virtually eliminated in the home through care. Make a survey of your home today. Note the unsafe conditions in cellar, on roof, wherever they exist. Inform other members of your family of these dangers immediately. Then set about the task of making them safe. Failure to recognize unsafe conditions and failure to correct them after they have been noted are the fundamental reasons for America's appalling peace-time loss of life.

- To Avoid Accident**
- 1—Provide stairways, especially cellar stairs, with hand-rails.
 - 2—Be sure that electric switches are properly placed, so that dry, non-conductive footing is assured and walking in darkened room unnecessary.
 - 3—Fasten all rugs on stairways securely.
 - 4—Don't wax floors highly. It makes them too slippery.
 - 5—Don't permit water to remain in cellar near electric outlet. To do so invites short circuits, possibly fatal shocks.
- To Eliminate Fire**
- 1—Don't smoke in bed.
 - 2—Never start fires with kerosene.
 - 3—Don't allow paper rubbish to accumulate in cellar, especially near stove or furnace, or in garage.
 - 4—Provide your fireplace with heavy screen.
 - 5—Beware of home dry cleaning.
 - 6—Use fire-retardant materials where practicable, especially where no additional expense is involved, as in roofing. Combustible roofs have caused great percentage of home fires. Fire-retardant roofing materials such as asphalt shingles and tiles, resist fire.

STRAWBERRY GROWERS CARRY PLANTING OVER

In considering carrying planting over for another crop next year it is well to remember that the first crop taken from a planting is usually better than any succeeding crop, from the standpoint of both

total yield and size of berry, say pomologists at Penn State.

Advertise in The Bulletin.

What Advertising Does . . .

- When someone starts advertising, Someone starts buying;
- When someone starts buying, Someone starts selling;
- When someone starts selling, Someone starts making;
- When someone starts making, Someone starts working;
- When someone starts working, Someone starts earning;
- When someone starts earning, Someone starts buying.

An endless chain, so to speak, and the merchant who doesn't advertise and advertise regularly is doing nothing if he isn't breaking links in this endless chain.—
