

OWL LAFFS

BY A WISE OWL

If I had my way this column would be a total blank this week. After three days of celebrating the Fourth I feel a trifle "blank" myself.

Two little fellows were sitting on the bleachers back at the playgrounds yesterday when the one said: "What's the hardest thing in the whole wide world?"

Nearby these two lads sat one of our lovely young girls and her sweetie, resting after a tennis match.

Watching the crowd go by on Saturday a pal told me that the lady who just passed had two wooden legs.

At the dance at Hershey Saturday night, one of our smart shiks walked up to a beautiful blonde and without an introduction said: "I believe I have this dance."

The cop peered into the parked roadster in a Lancaster park and barked: "You ought to be pinched, young lady!"

Charley Eaby put a door with an automatic knocker on his house. When asked what its for, he explained: "Fof careless visitors who don't give a rap."

Monday, while waiting for the rain to stop, I started a conversation with a small boy. I asked: "What is the Fourth of July?"

And speaking of little boys, there's one on Mount Joy street who has taken the soil conservation problem to heart.

A henna head from Florin yawned and said: "I was out with a man last night who said he'd sell me some oil stock at half price."

"Here's a dandy joke about a PANhandler." "A bum?" "No, a barber....Wal, fan ma brow.

These field captains umpire the games of the small children and, in general, help them play as well as keep the scores and records for the older boys and girls games.

TREMENDOUS PEACH CROP IS EXPECTED

A 1937 peach crop in Pennsylvania of 2,904,000 bushels, an increase of 2,328,000 bushels over 1936 and an increase of 1,089,000 bushels over the 1931-1935 average, was predicted today by J. Hansell French, Secretary of Agriculture, on the basis of a Federal-State Crop Reporting Service survey.

Bloom generally was the heaviest in years, and the set of peaches is uniform and promising. Last year the crop was 27 per cent of normal on June 1 and this year it is 84 per cent of normal.

Roth, James Eshleman, James Workman, William Brown. It is hoped by those in charge that this system of Field Captains will help in the department of democratic cooperation and leadership.

Thus far the greatest interest has been shown by the older boys. The supervisor is planning a system of Playground Points for all of the boys and girls. It was tried the first week on the following bases: Attendance—1 point for each period attended. Team Games—1 point for each winning period. Field Captains—3 points for each period.

The highest number of points were garnered by Harold Fellenbaum with a total of 25 for the four clear days. Special recognition for the highest number of points goes to the following boys and girls: Velma Horst, Harold Fellenbaum, Alvin Showalter, James Zeller, Russell Sumpman, Winfield Zerphy, Bruce Brown, James Eshleman, Robert Pennell, James Shatz, James Workman.

As an award for winning this number of points each of the above may obtain one free ice cream cone by applying at Dr. E. W. Garber's Drug store on East Main street. Watch for other prizes to be awarded at the end of the next two-week period.

The only game in which individual scores have been recorded thus far has been Darts. The following are the high scores as of July 2:

Boys—Distance, 20 ft.—High single 160 by Jack Germer. High triple 430 by Harold Fellenbaum. Boys distance, 10 ft.—High single 170 by Robert Pennell. High triple 470 by Kenneth Gainer. Girls distance, 15 ft.—High single 150 by Gladys Snyder. High triple 340 by Gladys Snyder.

Other individual games such as marbles, quoits, tennis, tither ball, etc., will be started in the next two weeks. The program was scheduled for the remainder of this week:

Little Washington Farmers Begin Tomato Shipments

Over 225,000 Stalks Expected To Produce Bumper Crop; Co-op Handles Sales

Shipment of the first of the 1937 crop of Washington Boro's famed tomatoes was made this week by the Washington Boro Tomato Growers' Cooperative Association, M. L. Peters, a director, said today.

The Association, which was incorporated last February, will handle the crops of nearly all Manor Township growers, and the prospects of a bumper year in evidence, Mr. Peters revealed. This season, growers in the Manor district have set out over 225,000 separate plants, making tomatoes the number one crop in this farming area.

The vanguard of the huge crop, about fifty bushels, was received at the cooperative warehouse on Tuesday and shipped to a point in the northern part of the state. Peters said that most of the crop this year will be sent there.
