

The SNAPSHOT GUILD

PATTERN PICTURES

An exposure of 1/100 second at f5.6 on chrome type of film caught this water pattern.

NATURE has a mysterious way of creating patterns, designs. She seems to abhor plainness as much as she abhors a vacuum. Consider that every cell that is the substance of matter is fashioned in some kind of pattern. The snowflake has a pattern. Liquids crystallize in patterns. The wind arranges snow drifts in patterns as it does the sand on dunes and deserts. The tide goes out and leaves the sea bottom rippled with designs. Calm water disturbed makes rhythmic designs on its surface. Shadows make patterns. Leafy boughs against the sky, moss on the rocks, tiger skins, wings of birds—what is there unadorned with some kind of pattern? Nature is full of them, evidences of a seeming purpose to maintain rhythm, beauty and order in the universe. Man imitates them, consciously or unconsciously, in the structures he builds, the materials he fabricates and the order in which he places things. Have you ever thought of patterns, nature's and man's, as subjects for a camera hobby? Some cam-

era artists have made prize pictures of patterns. It's a way to obtain new pleasure from the world about you. It requires, first, skill in seeing patterns. They are so common that only the exceptionally obvious ones, like those in sea sand, are likely to be noticed by a person not looking for them. These we call curious, but gaze up through a skyscraper in the course of construction or go down to the waterfront and study the patterns that the masts and rigging of ships make against the sky. Watch for shadow designs made by ordinary objects, such as a picket fence or a cartwheel. These are the kinds that only the purposeful observer is likely to notice. For him, patterns that may be caught with a camera are everywhere. Plump a stone into a pool or spill a box of matches on the table and you have one made to order for you. Go pattern hunting with your camera. Taking such pictures challenges your photographic skill and you will find that both your album and your mind will be enriched thereby. John van Guilder.

RECIPES

Tried and True

CREAMED CRABMEAT WITH MUSHROOMS

- 2 cups flaked crab meat and chopped mushroom
- 1/2 cup butter
- 1/4 cup flour
- 1 1/2 cup mushroom stock or milk
- 1 teaspoon salt
- Pepper and paprika
- 1/2 cup cream
- Buttered toast

Method
The proportions of crabmeat and mushrooms may be whatever you desire. One half pound mushrooms makes about two cups sliced or chopped. One can of crab meat makes about two cups flaked. Wash and slice mushrooms. Cook stems in butter to make stock. Cook mushrooms three minutes in butter. Stir in flour and seasoning. Add stock and milk and stir until smooth and thick. Add crabmeat and just before serving stir in cream. Reheat and serve on buttered toast.

BAKED CUCUMBERS

- 4 large cucumbers
- 1 tablespoon chopped onion
- 2 tablespoons chopped parsley
- 5 tablespoons butter or other fat
- 1 cup bread crumbs
- 1 cup tomato pulp
- 1 tablespoon salt
- Pepper to taste

Wash and pare cucumbers and cut in half length-wise. Scoop out all pulpy seed portions possible without breaking fleshy part. Parboil cucumber shells in lightly salted water ten minutes and drain. Meanwhile cook onion and parsley in fat, add other ingredients and cucumber pulp and cook mixture five minutes. Fill shells with hot stuffing, place in a shallow baking dish, add a little water to prevent sticking and bake in moderate oven fifteen minutes or until stuffing has browned on top. Serve in the baking dish.

ORANGE SHORTCAKE

Right now, before Strawberries make their initial bow in this section of the country (that is, those luscious homegrown ones) why not delight the family with an Orange Shortcake? It has been said that some persons really prefer it to the Strawberry Shortcake. The ingredients are:
2 cups flour
1 teaspoon salt
4 teaspoons baking powder
4 tablespoons sugar
4 tablespoons shortening
1/2 to 3/4 cup milk
Sift the dry ingredients until well blended. Rub in the shortening using a fork. Cut in just enough milk to make a soft dough. Put in greased cake pan, press with hand in shape to fit the pan and bake twelve to fifteen minutes in hot oven.

GINGER DROP CAKES

- 1 cup dark brown sugar
- 1 pint baking molasses, beat together very lightly, add
- 2 eggs,
- 1 pint of melted lard
- 1 cup thick milk
- 2 teaspoons baking soda
- 1 teaspoon ginger
- 1/2 teaspoon cloves
- 3/4 teaspoon cinnamon
- 6 cups flour

Bake in a very hot oven.
Orange Sherbet
Mrs. Birk also sends us this Sherbet recipe which we are sure you will find delightful: the ingredients are:
juice of 7 oranges
juice of 6 lemons
3 cups sugar
2 quarts milk
1 pint cream
Stir all well together and make in an ice-cream freezer or electrical refrigerator. This amount serves quite a few persons.

SWEET POTATO PUFF

- 5 or 6 medium sizes sweet potatoes
 - 2 eggs
 - 1 teaspoon salt
 - 2 tablespoons melted butter
 - 2 tablespoons hot milk
- Boil sweet potatoes until tender, remove skins and discolored parts and press remainder through ricer to make about 1 quart of pulp. Beat yolks and whites of eggs separately. To sweet potato add yolks, fat, milk and salt. Beat mixture well, then fold in well-beaten whites. Pile lightly into greased baking dish and bake in moderate oven (350 degrees) for 45 minutes or until light and fluffy and brown on top.

SHRIMP AND TOMATO SALAD

Dice fine a can of shrimp and three tomatoes from which the skin has been removed. Add salt, pepper, parsley, onion salt to

SUNDAY DINNER Suggestions

By ANN PAGE

ARE tomatoes being used in your household as freely as their fine quality and low price would suggest? Fresh tomatoes eaten sliced, in salads or cooked in any of almost numberless ways, are popular in most households. Corn and lima beans are also at their cheapest but they must be carefully chosen for quality. Bartlett pears, seedless grapes and apples are unusually plentiful and cheap. Other good fruit values will be found in plums, peaches, and honey-dew melons. Beef prices are still tending higher, veal is steady, pork prices are somewhat lower and lamb offers best value. Poultry, egg and butter prices are up but eggs and butter are still lower than last year. The following menus are chosen from reasonable reasonably priced foods.

- Low Cost Dinner**
Shoulder Lamb Chops
Creamed Potatoes
Cole Slaw Stuffed Tomatoes
Bread and Butter
Fruit Cup
Tea or Coffee
Cookies
Milk

- Medium Cost Dinner**
Cream of Celery Soup
Cold Ham
Sliced Tomatoes
Bread and Butter
New Apple Pie
Tea or Coffee
Milk

- Very Special Dinner**
Fruit Cup
Sweet Potatoes
Buttered Broccoli
Tomato Salad
Rolls and Butter
Floating Island
Coffee

taste. Mix with mayonnaise and serve on lettuce leaves. Place a stuffed olive on tooth pack on top.

DEVILED HAM IN RICE BORDER

Ingredients are sliced ham, bread crumbs and prepared mustard. Take 2 cups cooked rice, 1 tablespoon finely chopped pimento, salt, pepper, 1 tablespoon finely chop-

ped green pepper, 1 tablespoon chopped onion, 1 tablespoon butter and 1 large tomato chopped.

Method

Cut thin slices from cold cooked ham, about 1/4 inch thick. Make a paste of bread crumbs and prepared mustard. Spread paste lightly on both sides of the ham slices and arrange them in the center of a fireproof platter overlapping the ham slices about half inch. Surround this with a border of rice, which should be prepared in the following manner—To cook rice, add pimento, green pepper, onion and tomato which has been cooked in the butter for five minutes. Add just enough stock to moisten. Season with salt and a dash of red pepper. Dot the ham with small bits of butter and place under moderate broiler flame to brown.

Jellied Salmon Salad

- 2 1/2 teaspoons gelatine
- 1/2 cup cold water
- 1 cup boiling water
- 1/2 cup sugar
- 1/2 cup vinegar
- 2 tablespoons lemon juice
- 1 teaspoon salt
- 1 1/2 cups shredded red salmon
- Slices of hard cooked eggs

We are closing out the McCord Line at Very SPECIAL PRICES
Hassinger & Risser, Inc.

Slices of hard cooked eggs
Soak gelatine in cold water five minutes. Pour boiling water over gelatine to dissolve, and stir while adding sugar, vinegar, lemon juice and salt. Chill and when the mixture begins to thicken, add the salmon. Glaze plain, individual molds with some of the clear jelly. Place slices of hard cooked eggs on bottom and sides of the mold. When eggs are set, fill mold with salmon mixture and chill in your refrigerator. Remove from molds by loosening edges with a sharp knife and dipping in hot water. Serve on a lettuce leaf with mayonnaise dressing. Six servings.

TREAT SEED WHEAT
Stinking smut causes a tremendous loss to wheat growers every year. The disease can be prevented by treating the seed wheat with copper carbonate dust or improved organic mercury, according to Penn State plant pathologists. Treatment is particularly important in a cool, wet fall.

State Tests Signs Showing Highest Speed For Curves

By WARREN VAN DYKE
Secretary of Highways

Harrisburg, October 1—Markers warning motorists the maximum speed at which curves can be rounded safely are the Department of Highways' latest innovation in highway safety.

The first of these speed limit indications will be seen along U. S. Route 11 from New Cumberland to the Maryland State Line, beginning September 1. If successful, the markers will be extended gradually to other major routes. Numerals only, such as "20," "25," or "30," will be painted on present black and white signs which show sharp turns, intersections and other dangerous conditions ahead. These numerals will indicate the greatest speed the motorist should travel in making the curve.

U. S. Route 111 was selected for this experiment because of its numerous short vertical and horizontal curves. Drivers on this heavily traveled highway now will be protected against these hazards if they heed the markers which will be posted along the entire distance of 40 miles.

Driving conditions on this road below York may be changed later because of contemplated resurfacing and banking of curves. When this is done, the speed limit indications will be changed as may be found practicable.

Motorists will have no difficulty in discerning the numerals which will be 12 inches high, stencilled under the directional symbol. They should not be confused with route numbers which are painted on separate signs in the form of a shield and a keystone for U. S. and State routes, respectively.

Bad weather conditions, of course, should prompt the driver to drive slower than the speed designated. The department determined the safe rate of speed around curves by having an experienced driver traverse the entire route with instructions to drive as fast as he could on curves but to remain entirely within the right lane of the road.

In reporting his observations, the driver said the fastest speed he could travel on many curves without entering on the center of the road or the left lane was between 10 and 35 miles an hour.

Such a finding should be food for some thought. If a veteran driver, using a car in safe mechanical condition with new tires, and driving on a dry pavement in excellent weather, could not exceed that rate of speed safely, just think of the number of accidents and

narrow escapes that must result at a faster speed when another car approaches from the opposite direction around the curve.

These markers should be a great aid in our constant campaign to reduce the highway toll which last year took 2411 lives. The motorist who obeys these signs is greatly reducing his chances of being involved in an accident with another car or ending his trip in a ditch or ravine.

It Can Happen

"It can't happen to me." Yet tuberculosis did "happen" to John, freshman law student, crack oarsman and the picture of health. It happened to Betty, just turned eighteen, vivacious and care-free.

A FINE BODY MAY CONCEAL TUBERCULOSIS
But modern methods uncover it before it does harm

In fact tuberculosis shadows the lives of more than one hundred thousand young American men and women between the ages of 15 and 25.

The evidence that tuberculosis can lurk in a strong young body is complete. It is all too common to find young football and basketball players with hidden tuberculosis. The disease may hide in the lung for months without a tell-tale symptom. Quietly it digs in like a treacherous enemy.

But it need not happen to you! There is a way to find out if silent tuberculosis lurks in the body. It is to have a tuberculin test made. This test, simple and harmless, will show whether or not the germs of tuberculosis have invaded the body. If it is positive, take the next step—have an X-ray picture taken of the chest. This penetrating ray reveals on the X-ray plate damage that may have been done in the lung by the invaders.

In some high schools and colleges all students are offered the tuberculin test and X-ray—an excellent plan!

Remember, It Can Happen—but is not likely to if you UNCOVER TUBERCULOSIS BY MODERN METHODS.

RUMMAGE SALE
The Young Ladies' Bible class of Trinity Lutheran Church will hold a Rummage Sale in the Church House on Friday and Saturday, October 8 and 9.

Advertise in The Bulletin.

Wise Advertisers Advertise In A Paper That Has Reader Interest

The Bulletin is ever conscious of the fact that an advertiser, in order to realize the maximum of return from the money invested, must buy something more than just type and white space. No ad can be effective unless the paper in which it appears has READER INTEREST.

In order to add interest to advertisements, the Bulletin publishes all the local news, church matters, owl luffs, dutch letters, markets and what not. People read one or more of the above subjects, lay the Bulletin aside and along comes the next member of the family and reads his or her article of interest and so on down the family. During all that time your advertisement may have been seen and read by one or half a dozen people.

How many of you read the average circular dropped at your door? You can best and most truthfully answer that.

If you want good returns for money expended, put your ad in a newspaper that is read by thousands of careful, scrutinizing readers.

Because of the latter fact, WISE ADVERTISERS ADVERTISE IN ITS COLUMNS.
