

Our Impression

What we thought this old burg of ours should have had years ago has at last come to pass—A MOVIE.

Comparatively few people realize just how valuable such an enterprise is to a community.

Some folks object to movies for various reasons but the great majority in almost every community favor them.

A town of any consequence without this modern method of entertainment is as "bad off" as the man with a new automobile and no gas.

During the past ten or more years, those who were movie minded went to Columbia, Marietta, Elizabethtown, Manheim or Lancaster once a week at least, many several times.

Surely when away they would treat themselves to refreshments. In that way the business places in towns visited, profited.

Can you realize how our business men should and will profit in a similar manner as soon as our new movie is opened to the public?

Walk up or down Main street any evening in the week and see how many cars are parked, then wait until this new movie opens, do the same thing and try and find a place to park.

Time and time only will prove our assertion.

P. R. R. Removes Foot Bridge At Station Here

On Monday workmen removed the foot bridge across both tracks at the Pennsylvania Railroad passenger station here. This bridge has been in use ever since the "cut" was made thru town for thirty years—and will certainly be missed by not only residents who lived south of the railroad at that point but by patrons of the railroad.

Since Monday persons travelling east are not permitted to walk across the tracks. Passengers boarding trains, must get to the waiting room in the cut (after purchasing a ticket) by walking down Henry street to Marietta, thence up Marietta street across the bridge and down steps. If they choose they can go via the Market street bridge, thence down Donegal street, thence down Marietta street and down the steps.

It is just as inconvenient for passengers discharged from trains. Railroad employes are supposed to keep people from walking across the tracks. All pedestrians are trespassers and subject to arrest.

This new procedure is certainly a nice howdy-do for a concern which instead should be catering to the public.

We thought the Pennsy learned its lesson when it lost so much (Turn to page 2)

PAID \$12,000.00 FOR 77 1/2 FEET OR ABOUT \$155 PER FOOT FOR LOCATION—NEWCOMERS REFUSED \$6,000 FOR FORMER NISSLEY PROPERTY

After being movieless for about a dozen years, we are pleased to say Mount Joy will again enjoy the privilege and that too, in the very near future.

NO, NOT A MISTAKE; UPSIDE DOWN ON PURPOSE

Just to prove that the advertisements in the Mount Joy Community Exhibit catalog are really read, here's a little incident that occurred yesterday (Tuesday).

Less than one hour after the catalogs were distributed to the public, we were swamped with telephone calls calling our attention to the fact that an ad on page fifty was inserted upside down, presumably a mistake of the printer. However, this unusual position was requested by the advertiser and we aim to please. This is a very clever way to call special attention to an ad.
